

Hello Pallavi,

My name is Priya and I live in Princeton,NJ. The reason i wanted to contact you was, to know if I can help or participate or be a member of mohan foundation any way possible. As I was checking the site, I came through, your details for North America contact, and sending you this email.

In 2007, january, My father went through liver transplantation at Global Hospitals, Hyderabad. The transplantation was only possible because of the effort and the help provided by Mohan Foundation. Although, my dad passes way in Dec 2007, the reason he could live for 11 months is just something I can't thank enough.

I did contact Anirban who is mentioned as the US contact.

Please let me know your thoughts on my participation about bringing awareness through north east by participating at cultural events or any other suggestions are most welcome.

Thanks

Priya
