Respected Mrs. Jagwani,

Greetings on Organ Transplantation Day from SMS Medical College, Attached Group of Hospitals and SOTTO.

Our institute is privileged to have dedicated team of consultants, State of Art facilities and most inspiring executives of SOTTO. Because of that, we have been able to develop great transplant programme in our institute making all other medical colleges as the NTOC Centres and upgrading the skills and professional acumen in field of transplant medicine.

We appreciate work at social front being done by you in increasing public awareness.

SMS and SOTTO is committed to make this institute as Centre of Excellence for organ transplant programme in future and help the society.

With kind regards *and good wishes.*

(Dr. Sudhir Bhandari)
