TO WHOM SO EVER IT MAY CONCERN

MOHAN Foundation conducted a five days transplant coordinators training program at KIMS between 8th and 12th April, 2019.

I had the pleasure of organizing this training program. I have attended most of the sessions conducted by them. It is a high quality training program which adds immense value to Nephrologists like me. Sessions on Law, grief counseling, donation of skin, tissues and transplantation sessions including hand transplant were an eye opener for me.

The training program has been delivered with utmost passion, sincerity and professionalism. I find the MOHAN Foundation team disciplined and dedicated in their work.

I wish the team great success and thank you for conducting this training program in this part of Karnataka State which is the need of the hour.

Dr Venkatesh Moger

Professor and HOD

Dept of Nephrology
