“Volunteerism is the voice of the people put into action. These actions shape and mould the present into a future of which we can all be proud.”

- Helen Dyer

MOHAN Foundation has launched a unique Organ Donation Ambassador's (ODA) program.

Do you have a strong desire to save lives and make a social change in the field of Organ Donation? This program will empower you with knowledge and experience to become an independent advocate of the cause.

As an Ambassador, you will learn about the nobility of organ donation and its processes. You will be trained with the right communication skills that will encourage the public to pledge for organ donation. MOHAN Foundation will mentor you in your journey as a Volunteer. This is an excellent opportunity to enhance your resume

About the training

This is an online training program with three modules. Each module is structured to complement the previous one and makes the course an excellent progressive learning experience. At the end of the program, you will feel empowered to champion the cause of organ donation
