

# INTERNATIONAL REPORT ON ORGAN DONATION AND TRANSPLANTATION ACTIVITIES

## 2023

[www.transplant-observatory.org](http://www.transplant-observatory.org)

December 2024

GOBIERNO  
DE ESPAÑA

MINISTERIO  
DE SANIDAD

**GODT**  
Global Observatory on Donation and Transplantation

WHO Collaborating  
Centre on Donation  
and Transplantation  
Organization

## WHO-ONT Collaboration

The GODT is a collaborative effort of WHO and the Spanish ONT. It is running since 2007 and came up in response to the request of the World Health Assembly, in Resolutions WHA57.18 and WHA63.22, to collect global data on the practices, safety, quality, efficacy, epidemiology and ethical issues of allogeneic transplantation. This database collects data on global donation and transplantation practices, and it is recognized as a tool for ensuring transparency, equity and monitoring national transplant systems.

### Methods and definitions

An *ad hoc* standardized questionnaire for activities related to organ donation and transplantation is annually distributed to the identified health authorities and national focal points contributing to the global database.

The definitions applied for the completion of the standardized questionnaire are derived from the WHO Global Glossary on Donation and Transplantation, which is accessible at <http://www.transplant-observatory.org/download/global-glossary/> or through the WHO website (<http://www.who.int/transplantation/activities/en/>).

Definitions and explanations about how to complete the questionnaire can be found at the Global Observatory on Donation and Transplantation website (<http://www.transplant-observatory.org/> ).

**Actual donor (=donor):** a deceased person from whom at least one organ has been recovered for the purpose of organ transplantation.

**DBD donor:** a deceased donor whose death has been determined by neurological criteria.

**DCD donor:** a deceased donor whose death has been determined by circulatory criteria.

**Domino Transplant:** a procedure in which an organ is removed from one transplant candidate and immediately transplanted into a second patient, with the first patient receiving a new organ from a deceased donor.

**HDI:** A composite index measuring average achievement in three basic dimensions of human development—a long and healthy life, knowledge and a decent standard of living. See [Human Development Report 2023/2024](#).

Transplants are counted as those performed only within the country. Counts for multiorgan or double organ transplants are counted as follows:

- ✓ One double kidney transplant is considered as one transplant.
- ✓ One heart-lung transplant is counted as one lung transplant and one heart transplant.
- ✓ One double lung transplant is considered as one transplant.
- ✓ One kidney-pancreas transplant is counted as one kidney transplant and one pancreas transplant.

Counts for the number of recipients transplanted: a recipient of more than one organ is counted as one recipient.

Specific indicators have been added to the questionnaire along the years, in order to provide further information about the donation and transplantation activities performed around the globe.

The data provided correspond to the period from January 1st to December 31st 2023. Only countries reporting data for 2023 have been included in this report.

Comparisons 2021 vs 2022 vs 2023 have been made with the most up to date data collected in the database (last accessed: November 2023).

To calculate rates per million population, the State of World Population reports, from the United Nations Population Fund (UNFPA), has been used as the source to estimate the population size. Figures for Human Development Index (HDI) are obtained from the United Nations Development Programme (UNDP), [Human Development Report 2023/2024](#).

Data were analysed using descriptive statistics. Statistical analysis was performed with SPSS software (version 25.0) and the Excel tool was used for the creation of bar charts.

## Acronyms

- ✓ **DBD:** Actual donors after the neurologic determination of death
- ✓ **DCD:** Actual donors after the circulatory determination of death
- ✓ **DD:** Actual deceased organ donors
- ✓ **LD:** Living organ donors
- ✓ **GODT:** Global Observatory on Donation and Transplantation
- ✓ **KT:** Kidney transplants
- ✓ **LT:** Liver transplants
  
- ✓ **ONT:** Organización Nacional de Trasplantes, Spain
- ✓ **pmp:** per million population
- ✓ **Tx:** Transplants
- ✓ **WHO:** World Health Organization
- ✓ **HDI:** Human Development Index
  
- ✓ **AFR:** African Region
- ✓ **AMR:** Region of the Americas
- ✓ **EMR:** Eastern Mediterranean Region
- ✓ **EUR:** European Region
- ✓ **SEAR:** South-East Region
- ✓ **WPR:** Western Pacific Region

# Global activity in organ transplantation

## Estimations 2023

Kidney	Liver	Heart	Lung	Pancreas	S. bowel
111 135	41 111	10 121	7 811	2 054	177

≈ 172 409 solid organ transplants

≈ 9.5 % increase vs 2022

≤ 10% of global needs

39% living kidney transplants

25% living liver transplants

45 861 deceased donors (34 466 DBD and 11 395 DCD donors)

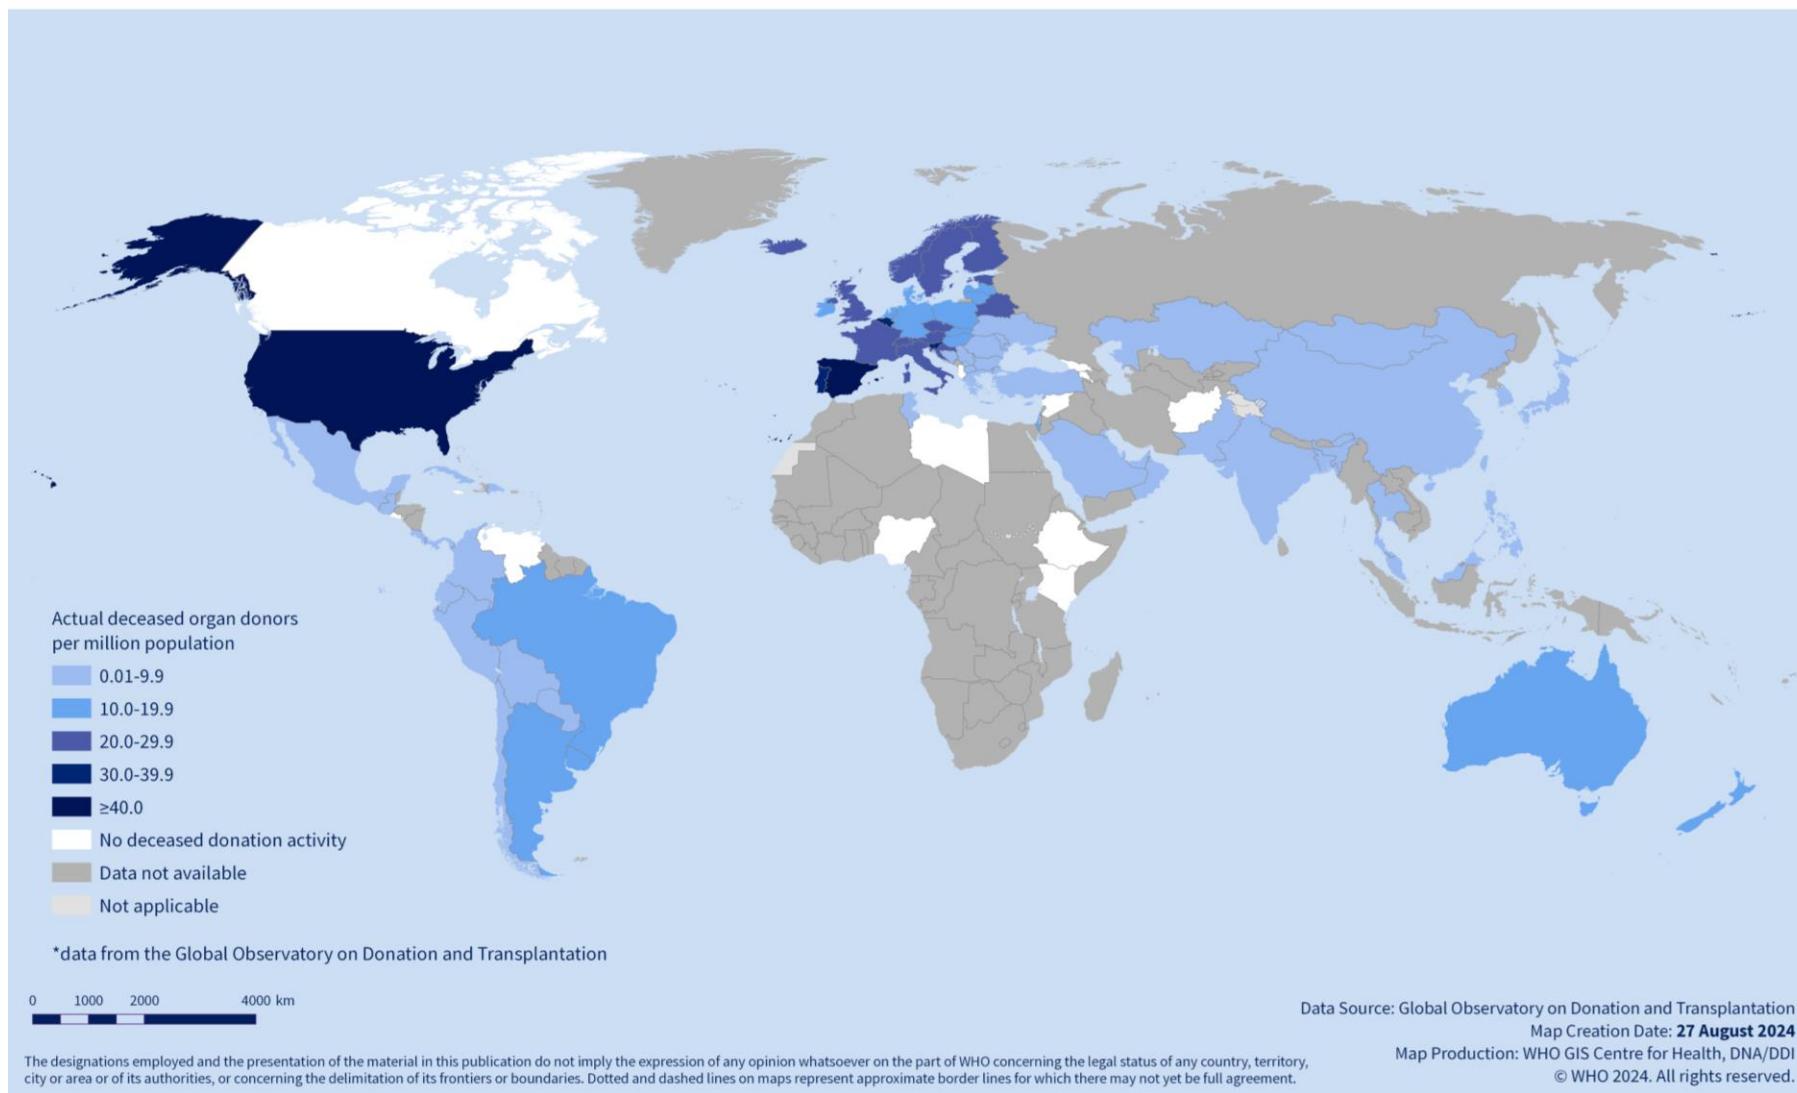

Information of 93 Member States on organ transplantation activities (75% of the total population)

<https://www.transplant-observatory.org/>

# 1

## DECEASED DONATION ACTIVITY

# Actual donors from deceased persons, 2023\*

# Deceased donation pmp in relation to the Human Development Index (HDI) 2023

## WHO Regions:

African Region (AFR)

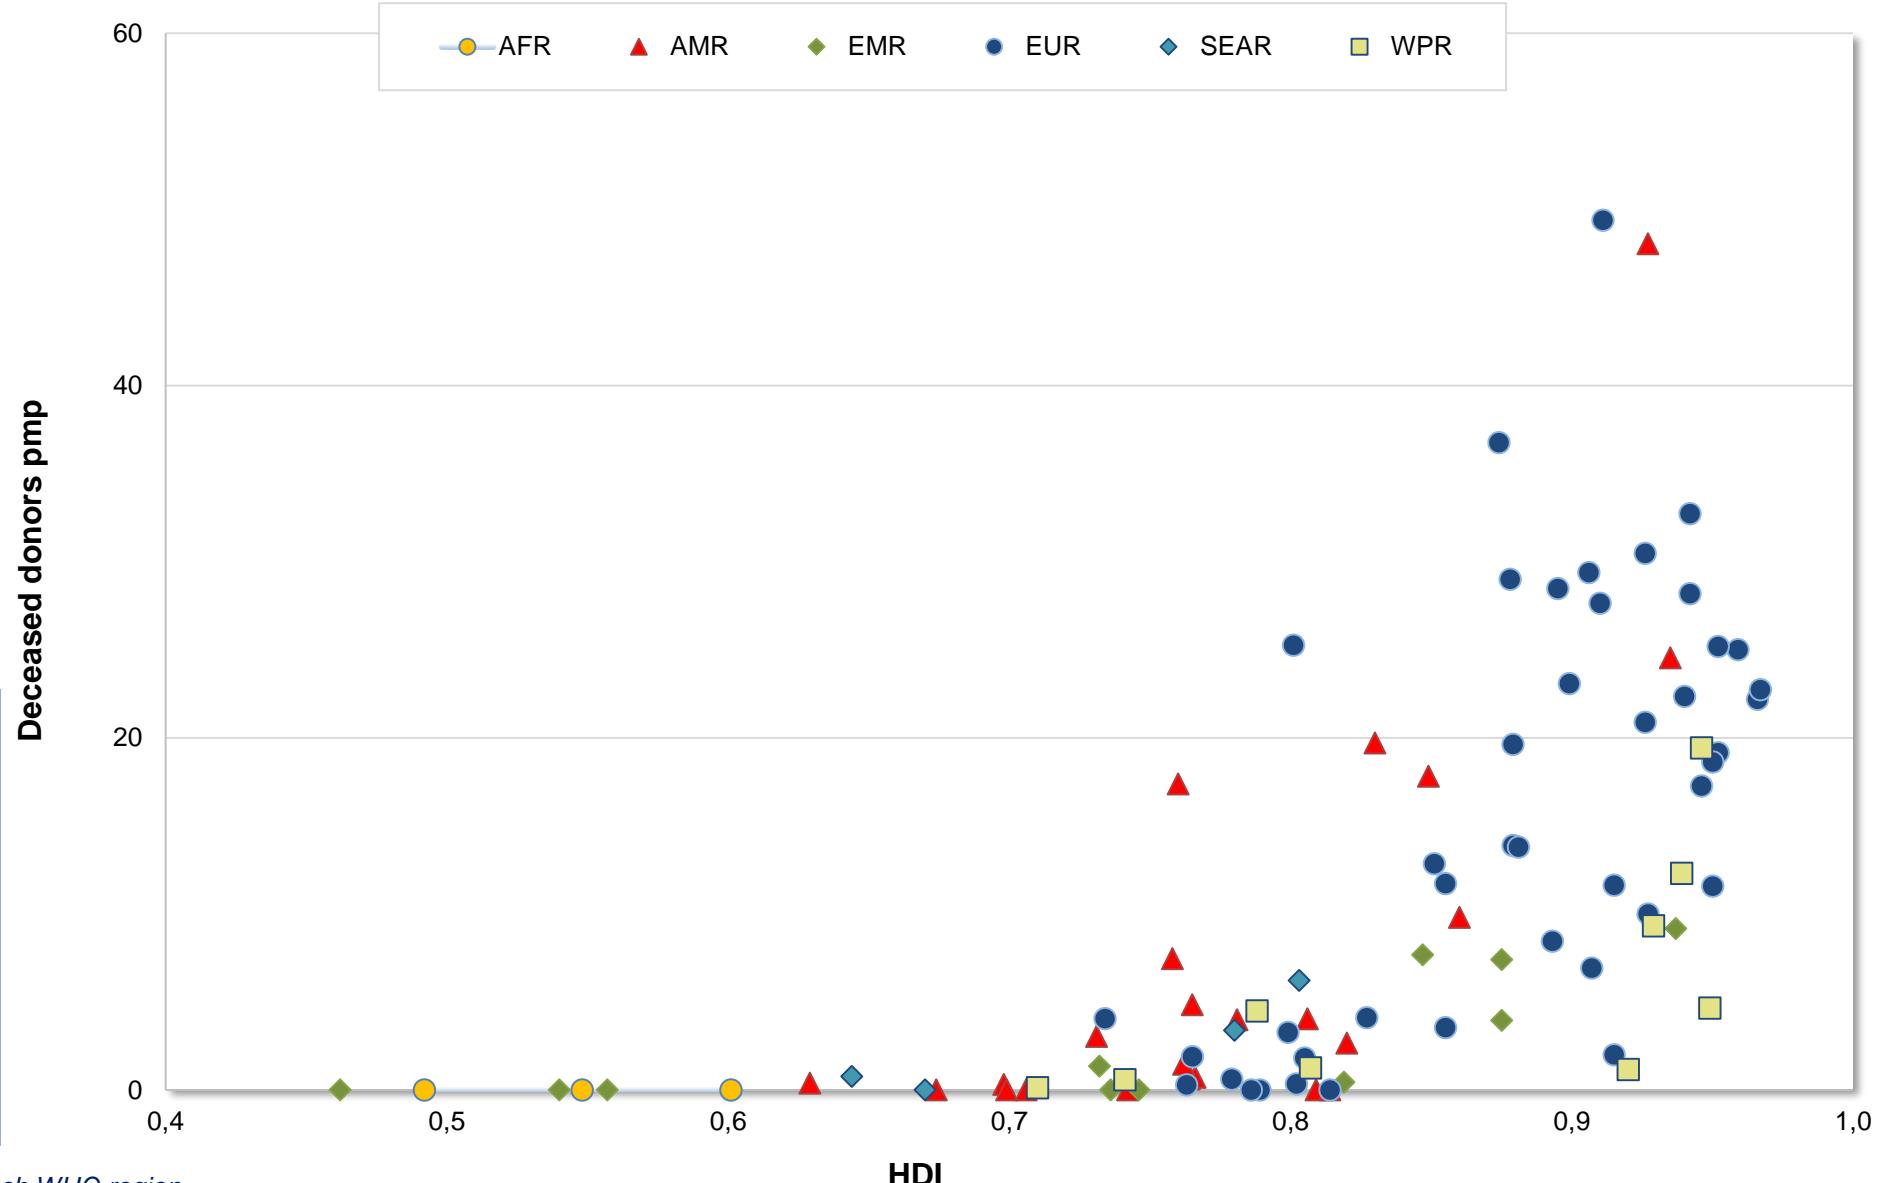

Region of the Americas (AMR)

Eastern Mediterranean Region (EMR)

European Region (EUR)

South-East Region (SEAR)

Western Pacific Region (WPR)

Dots represent responding Member States in each WHO region

# Actual deceased organ donors by donor type (pmp) 2023

**Deceased donors: 45 861**

**DBD: 34 466 (75%)**

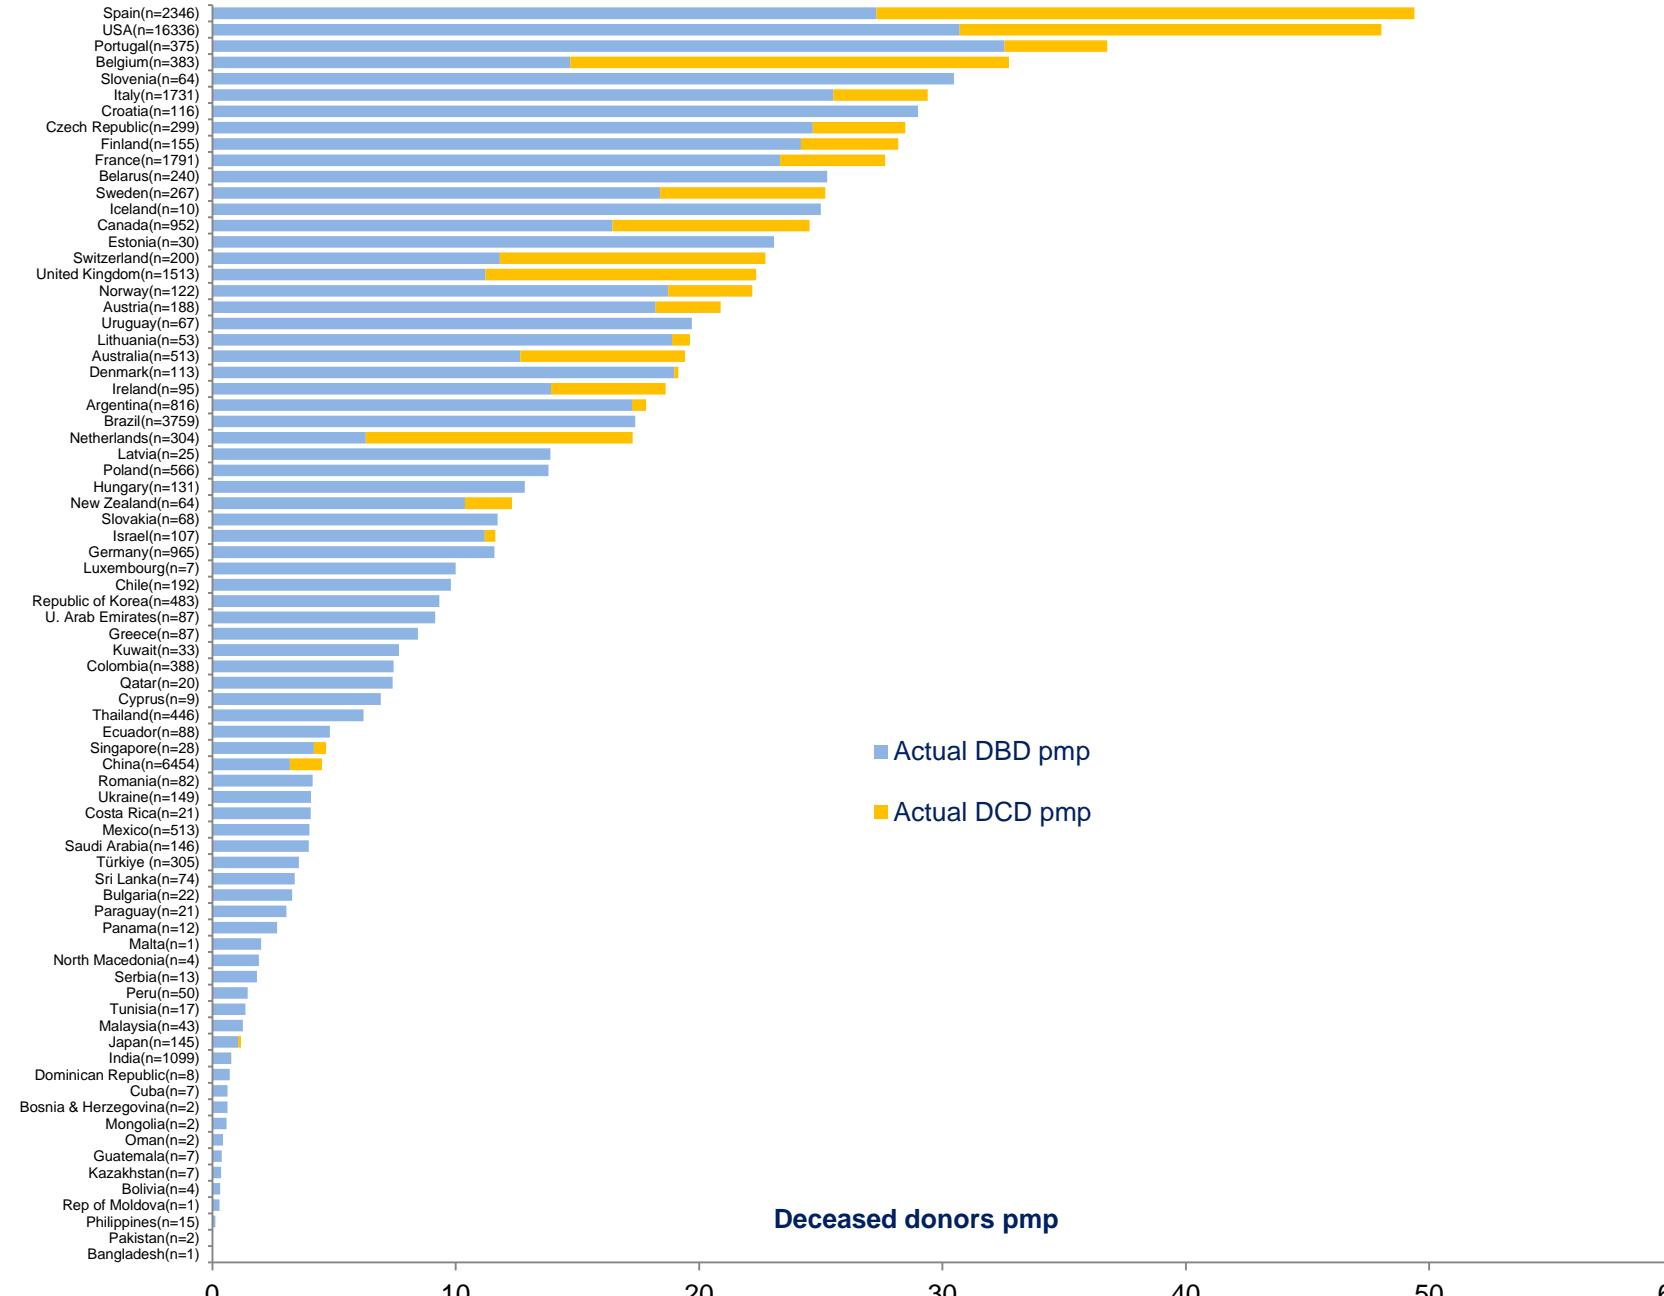

**DCD: 11 395 (25%)**

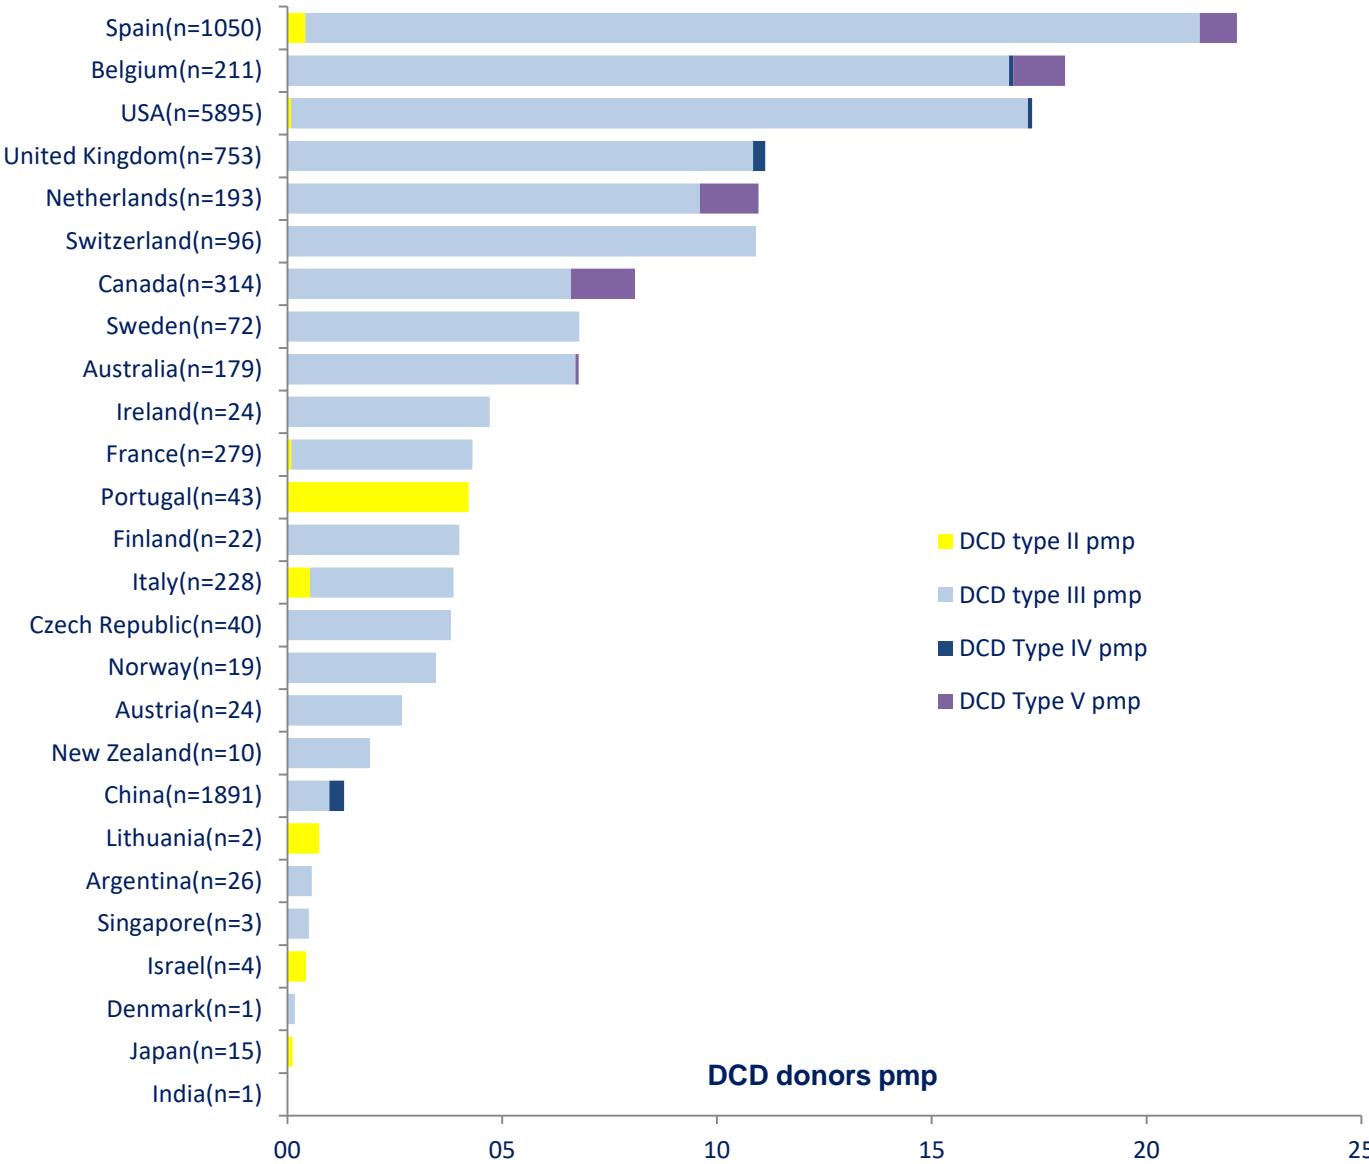

**Deceased donation activities reported in 77/93 countries**

**≈ 10 % increase vs 2022**

*Actual donor: deceased person from whom at least one organ was recovered for the purpose of transplantation.*

*\*Canada - utilized deceased donors*

## Actual DCD donors by Maastricht type (pmp) 2023

**DCD donors: 11 395**

**Type II: 150 (1.3%)**  
**Type III: 10 562 (93%)**  
**Type IV: 544 (4.7%)**  
**Type V: 139 (1%)**

### DCD activities reported in 26/93 countries

Type II: Unexpected cardiac arrest, unsuccessfully resuscitated

Type III: Planned WLST with an expected cardiac arrest.

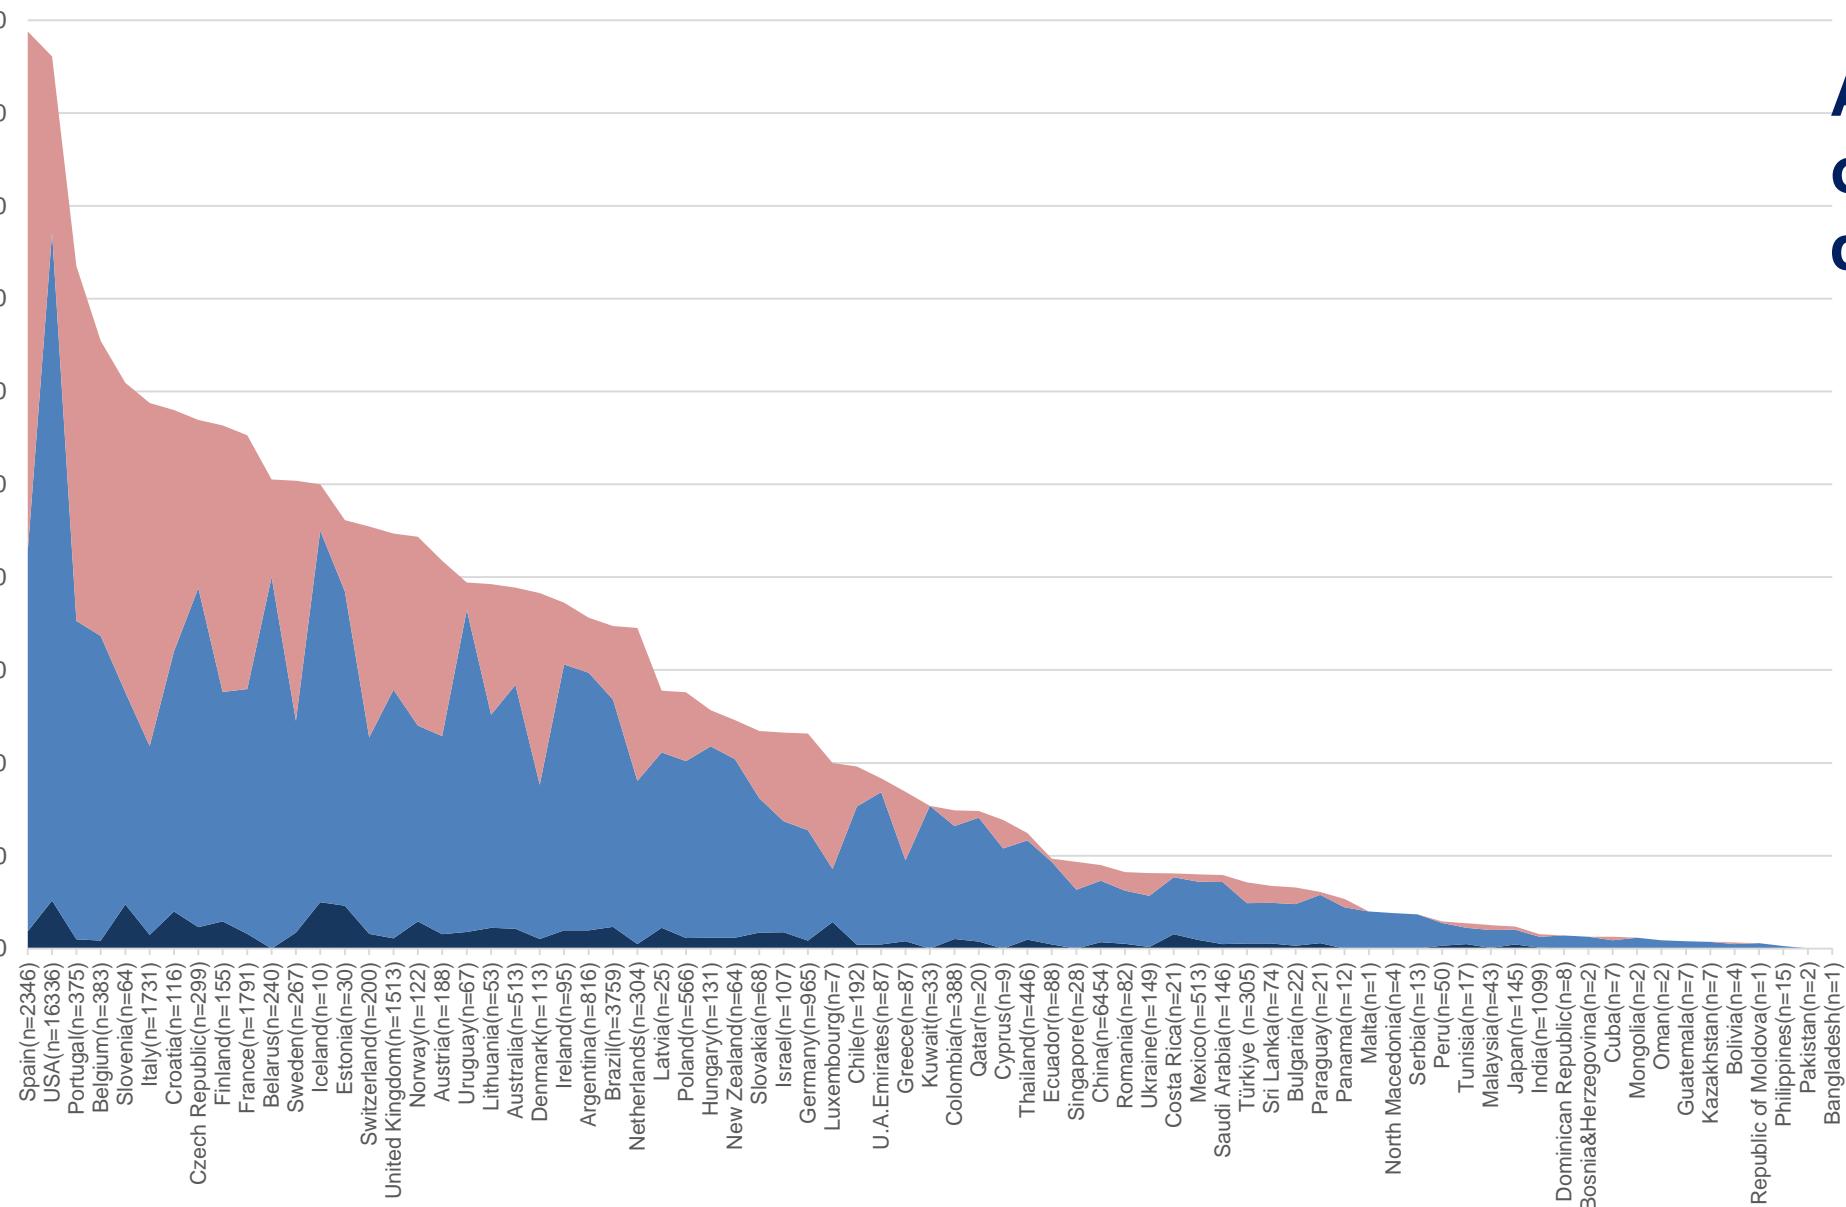

Type IV: Sudden or planned cardiac arrest after brain death.

Type V: DCD donors (donors after MAiD ) for Australia, Belgium, Canada , Netherlands and Spain

\*Canada - utilized deceased donors

■ Actual DD <18 pmp ■ Actual DD 18-59 pmp ■ Actual DD >60 pmp

Deceased donors pmp

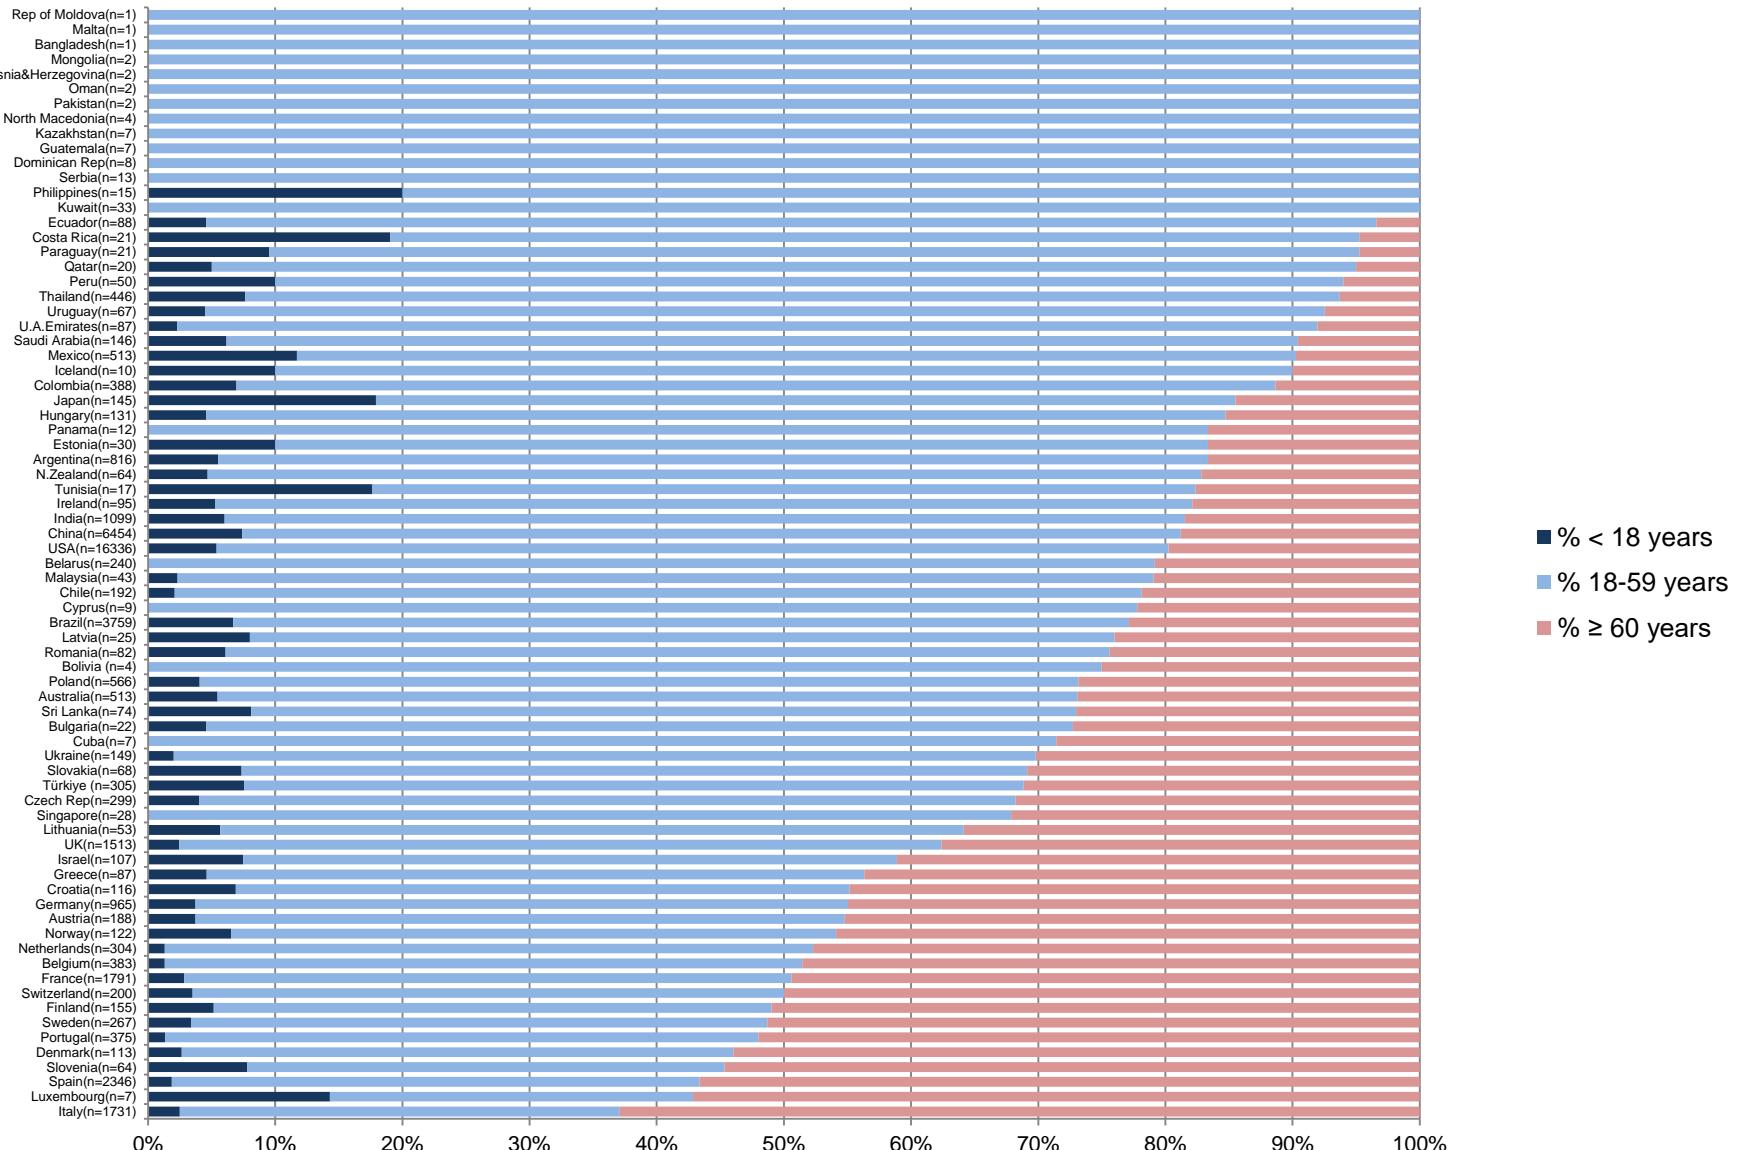

# Actual deceased organ donors by donor age (pmp) 2023

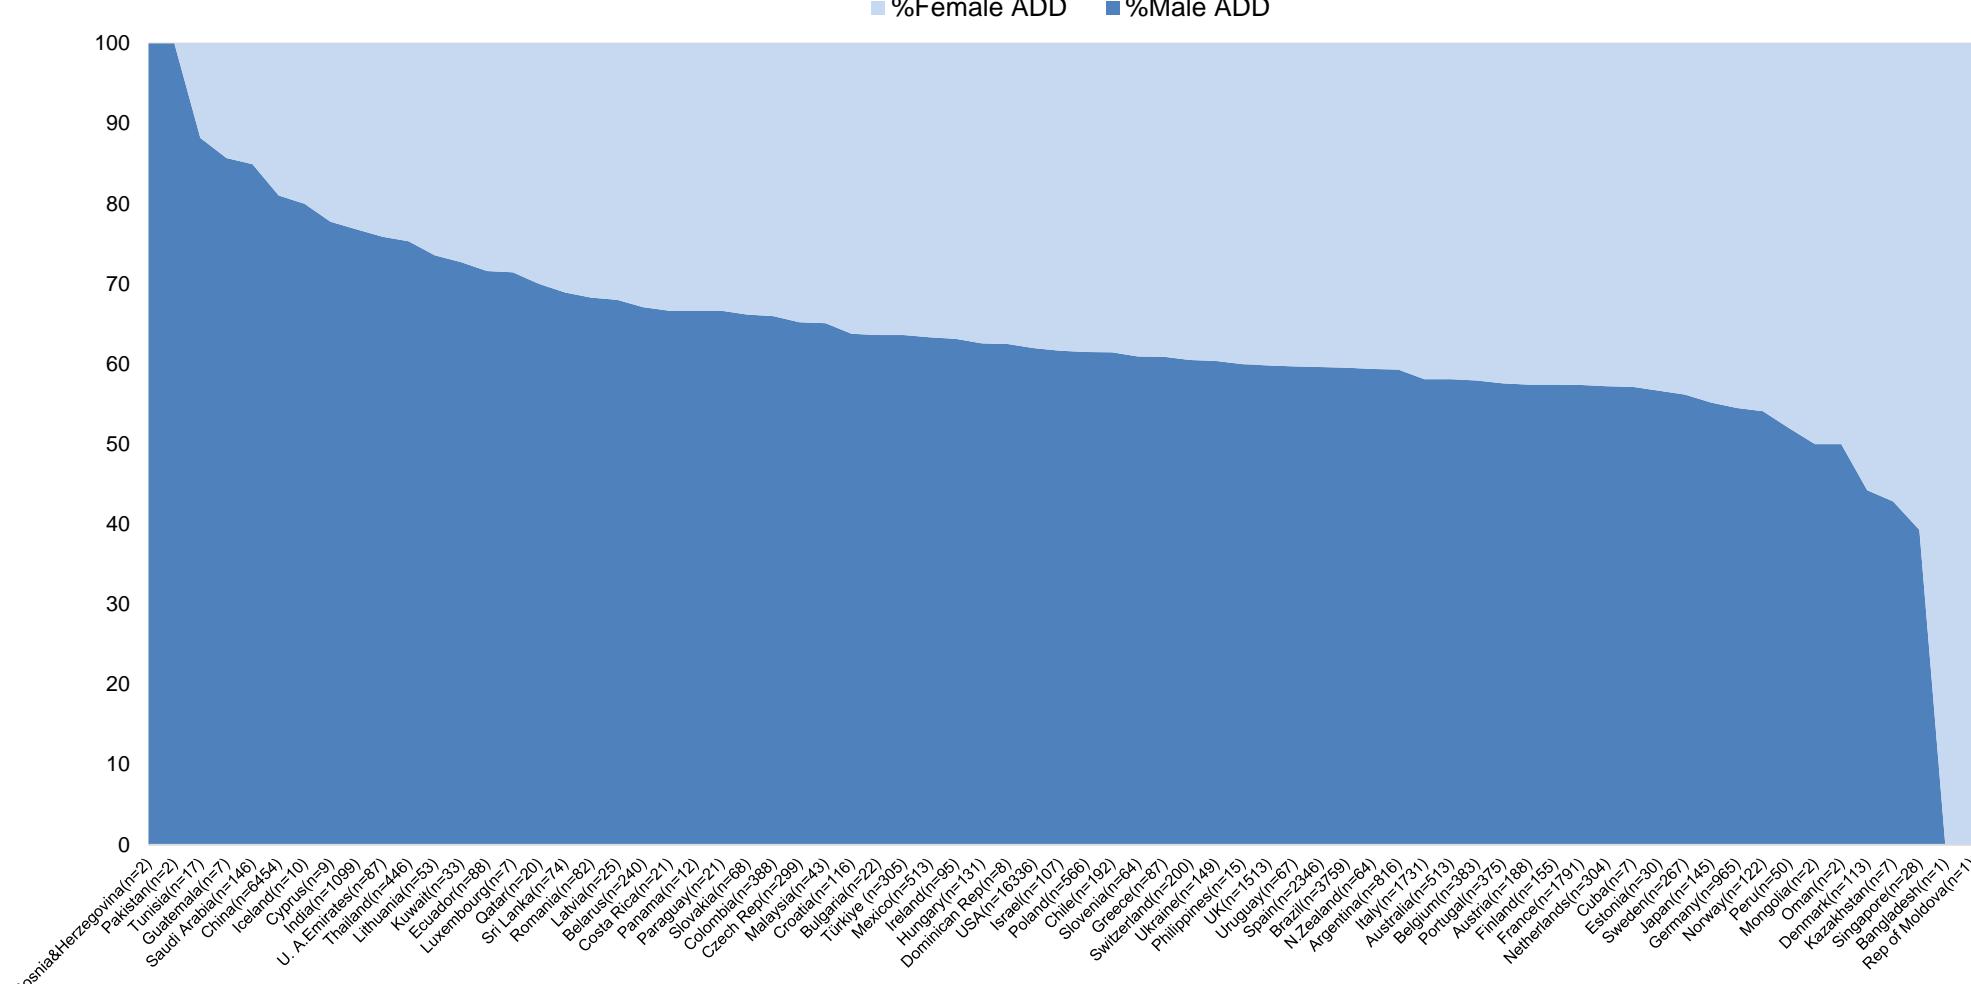

N=75 countries  
provided information on  
donor age groups

2 330 (5%) DD < 18 years  
29 964 (68%) DD 18-59 years  
12 132 (27%) DD ≥ 60 years

# Actual deceased organ donors by donor age (%) 2023

N=75 countries  
provided information on  
donor age groups

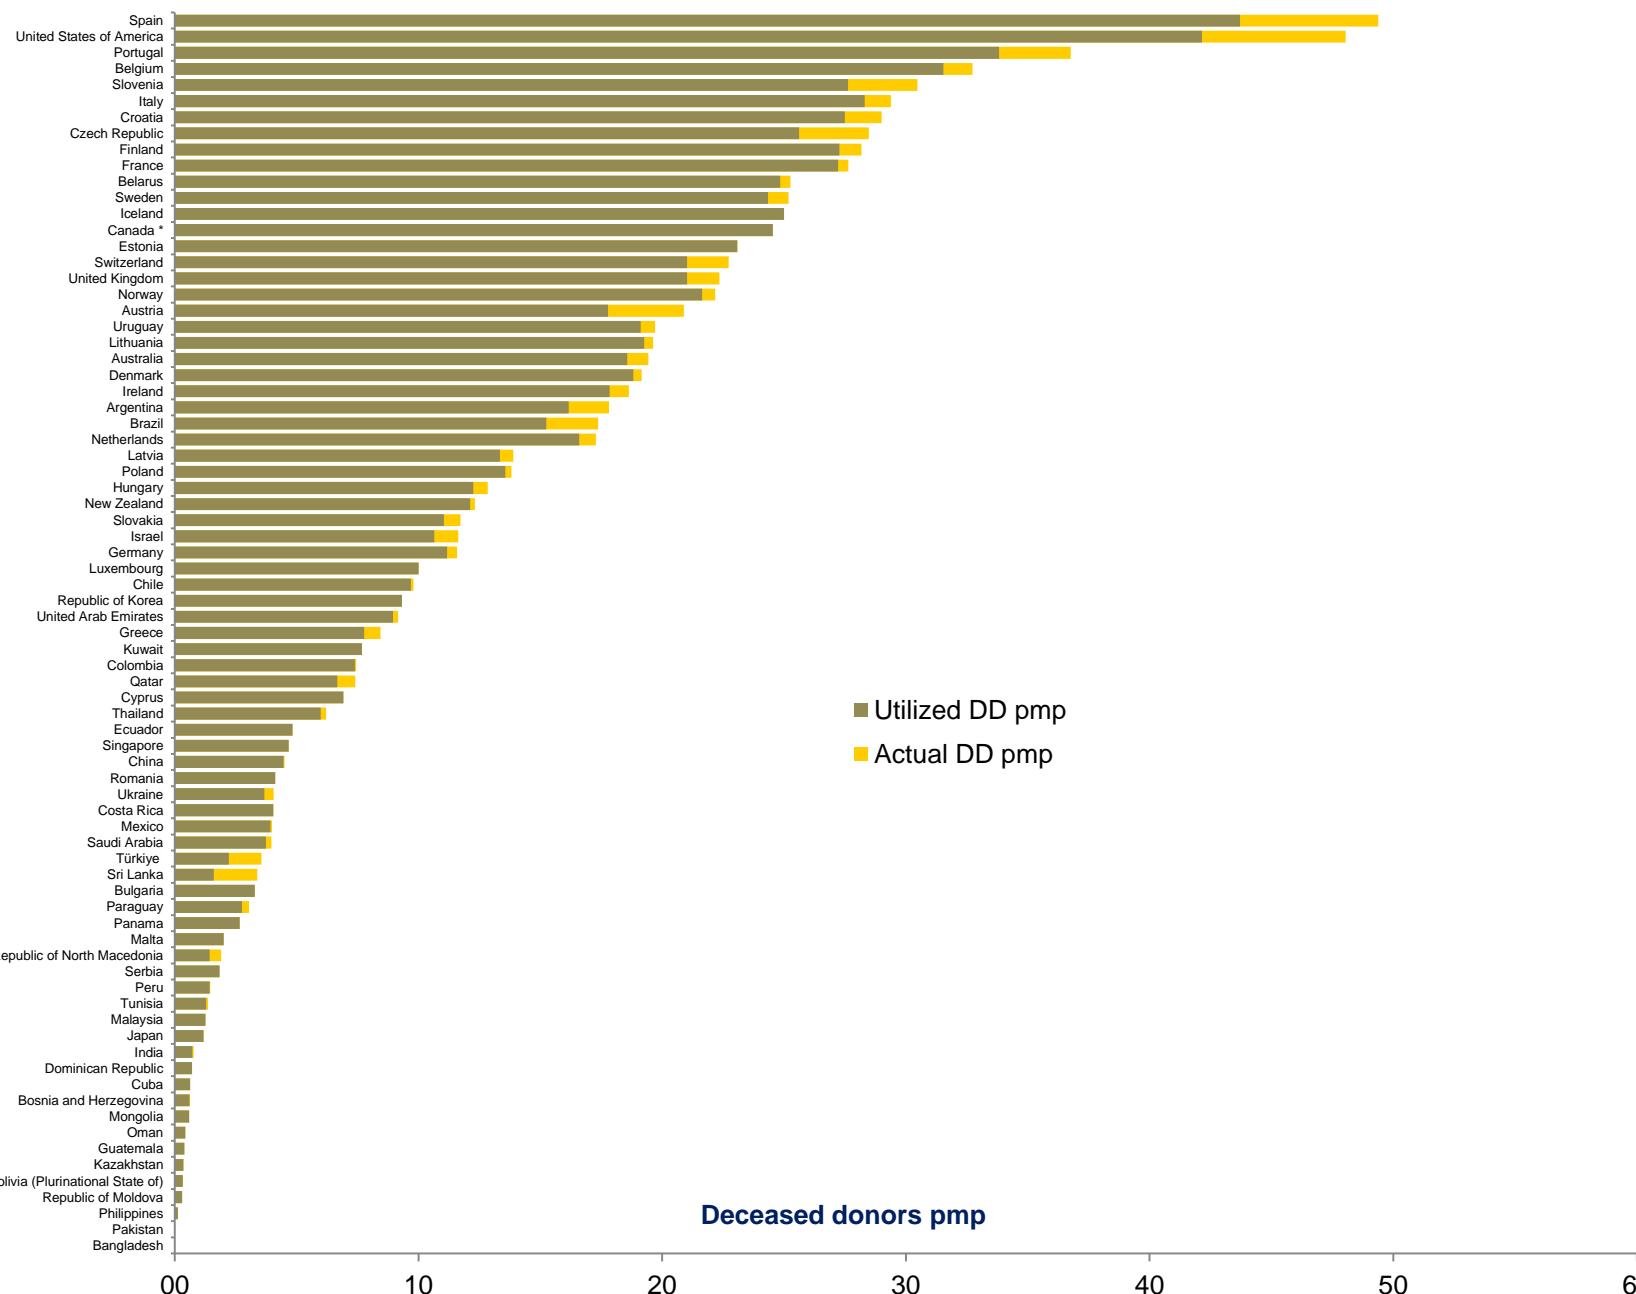

# Actual deceased organ donors by donor sex (%) 2023

71 countries provided  
information according  
to donor sex

28 535 (64%) male donors  
15 869 (36%) female donors

# Actual and utilized deceased organ donors (pmp) 2023

Deceased donation activities reported  
in 77/93 countries

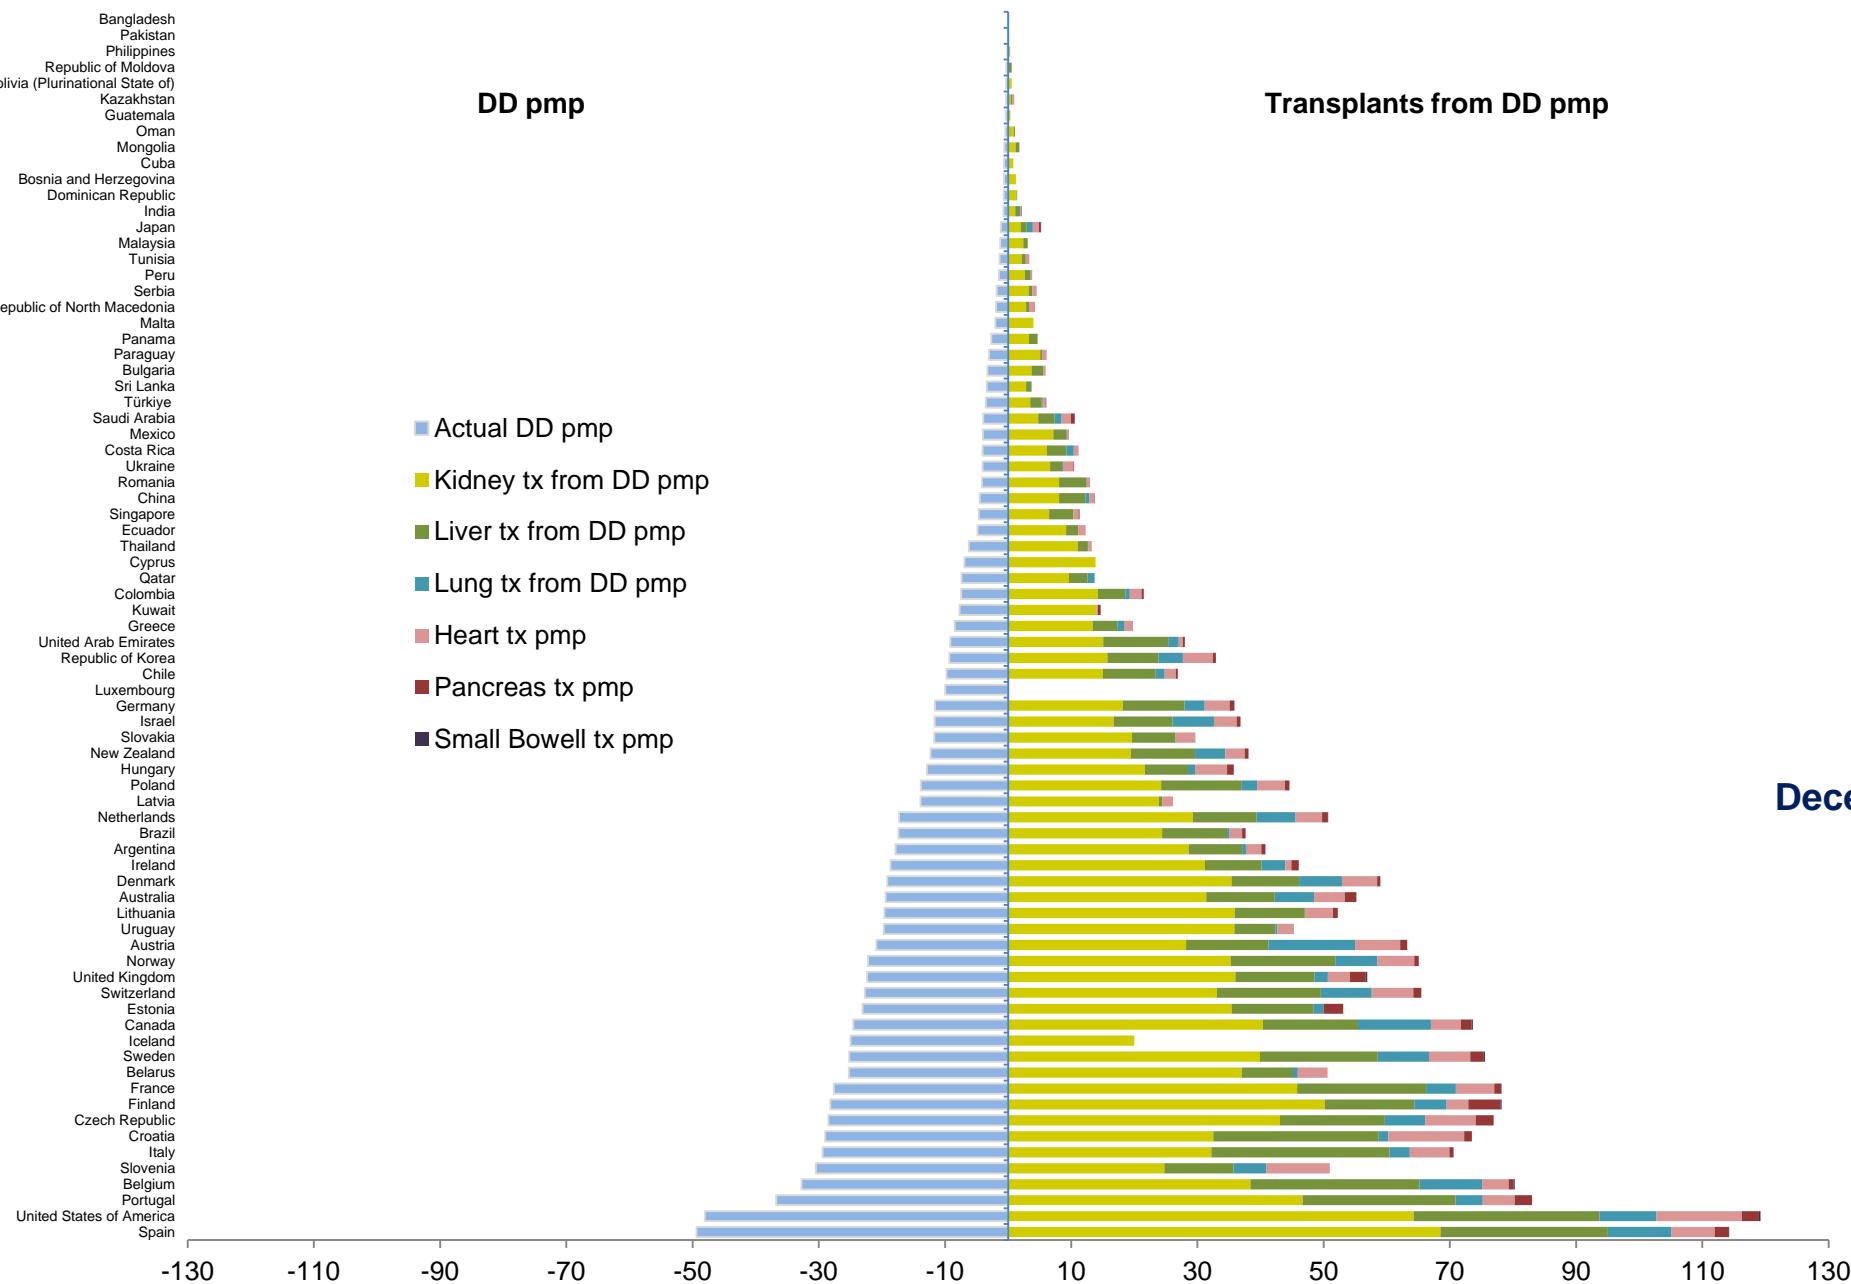

Actual donor: deceased person from whom at least one organ was recovered for the purpose of transplantation.

Utilized donor: deceased person from whom at least one organ was transplanted.

\*Canada - utilized deceased donors

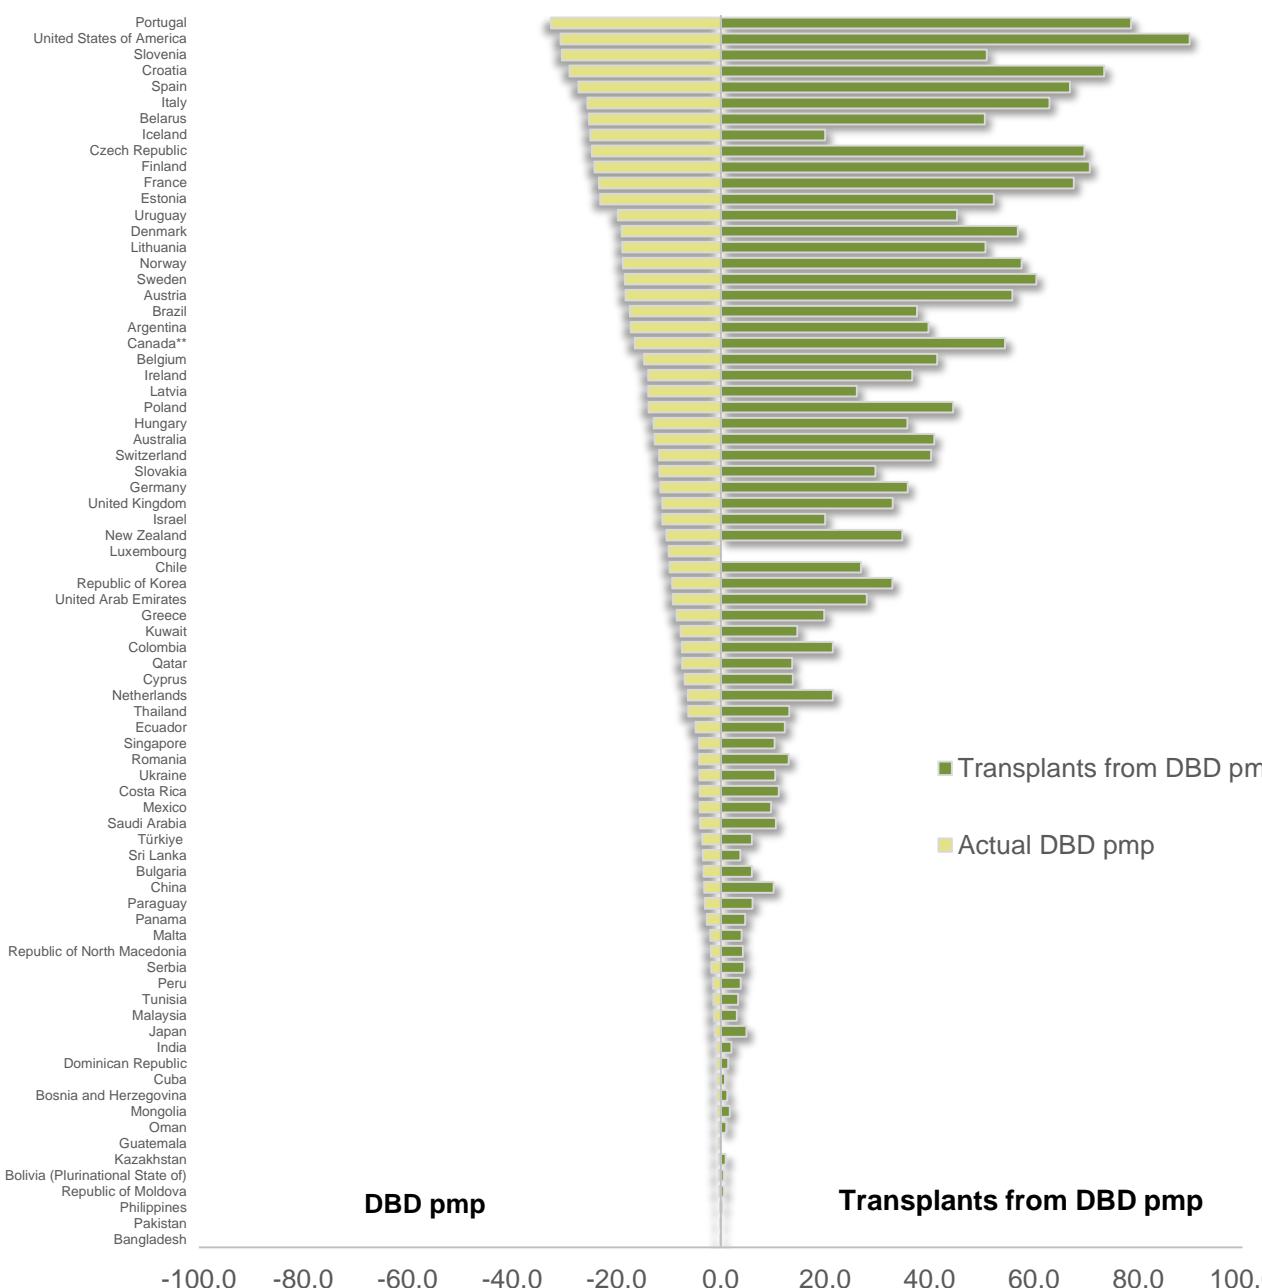

# Actual deceased organ donors and transplants from deceased donors by type of organ (pmp) 2023

Deceased donation activities reported in 77/93 countries

\* Organs recovered from deceased donors may be used for Transplantation in other jurisdictions, particularly in the absence of local transplant programs.

\*\* Canada - utilized deceased donors

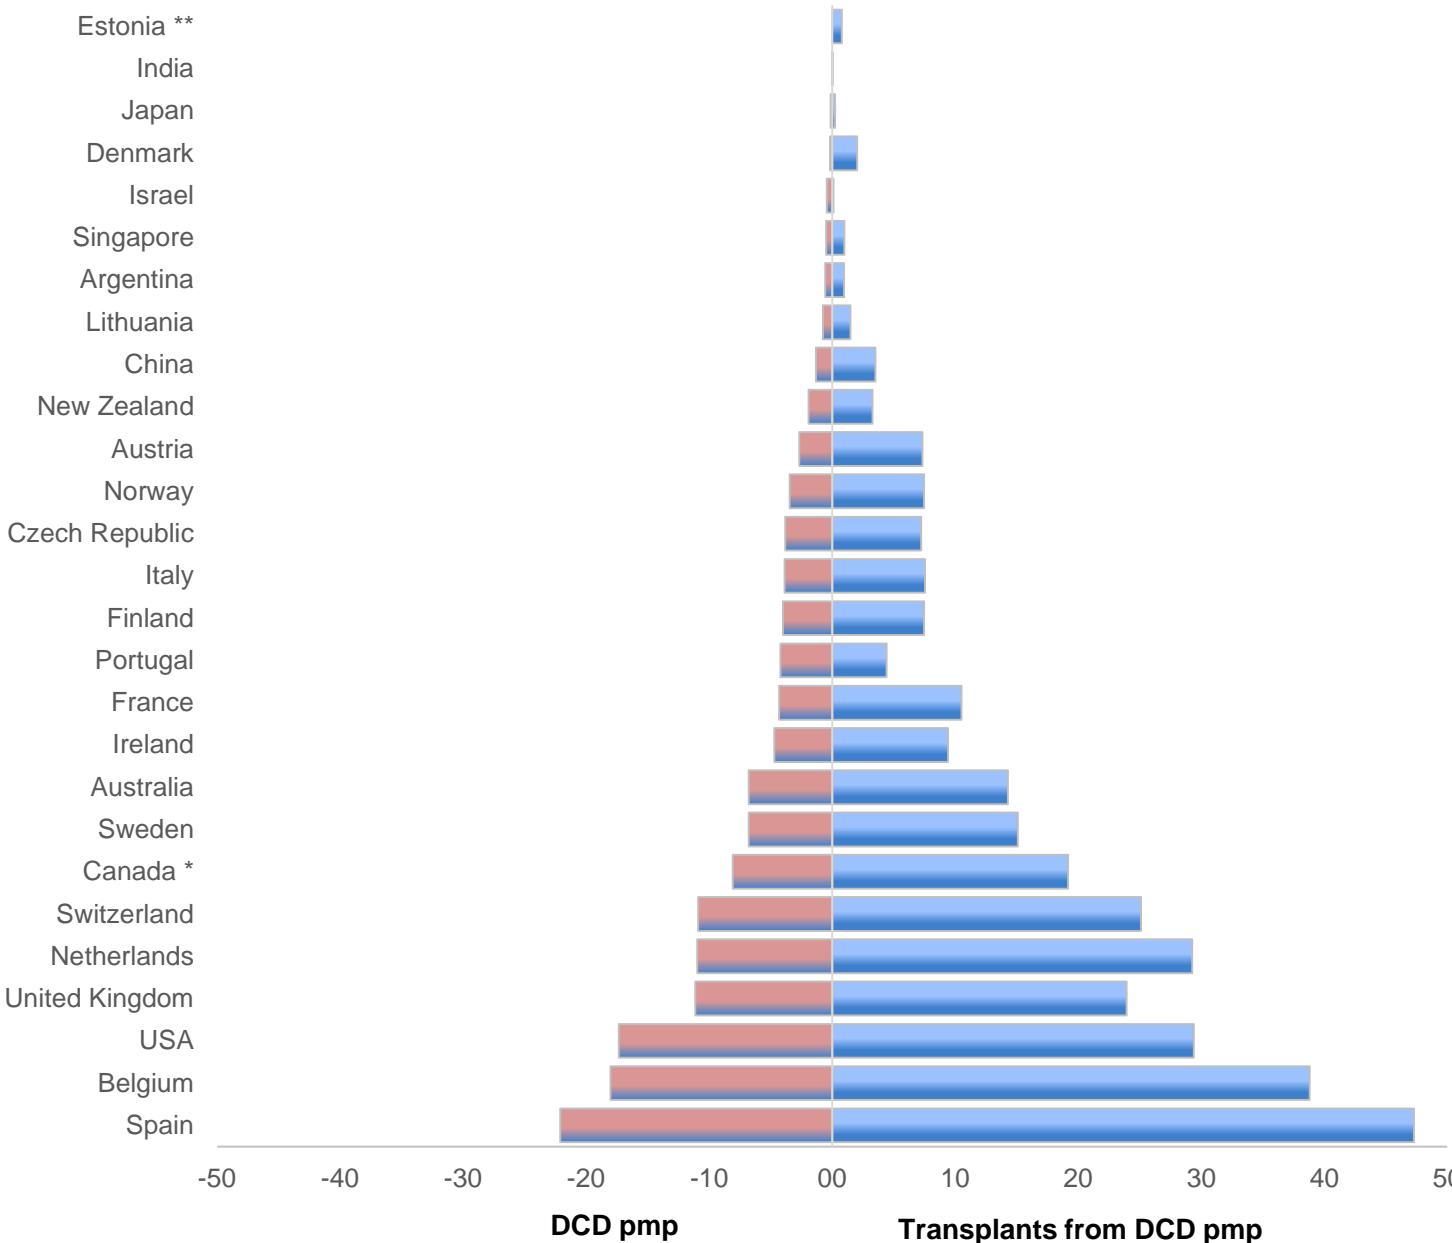

## Actual DBD donors and transplants from DBD donors (pmp) 2023

DBD donors: 34 466 (75%)

DBD activities reported in 77/93  
countries

\*Organs recovered from deceased donors may be used for transplantation in other jurisdictions, particularly in the absence of local transplant programs.

\*\*Canada - utilized deceased donors

## Actual DCD donors and transplants from DCD donors (pmp) 2023

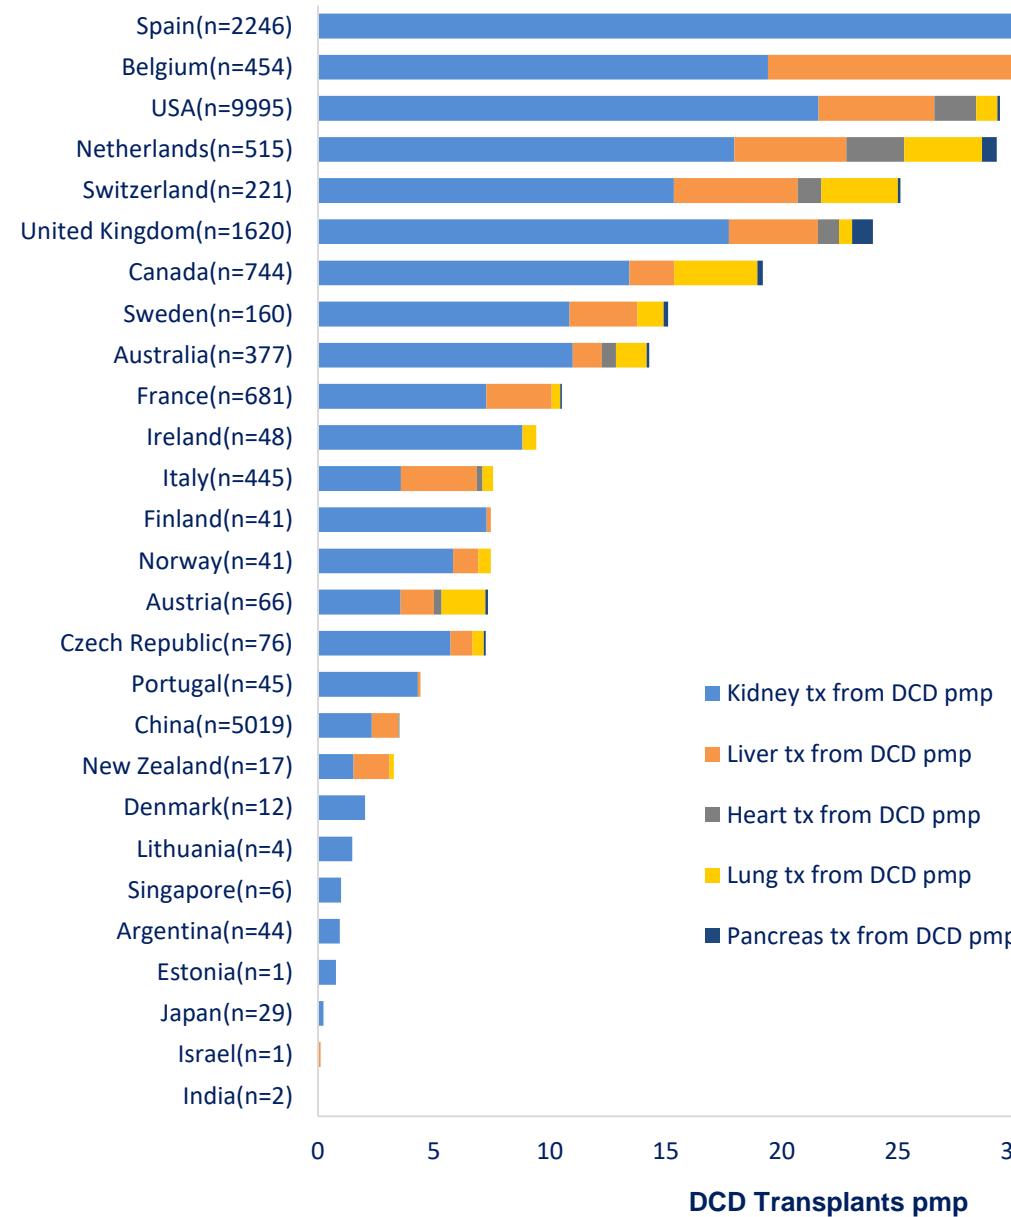

DCD TRANSPLANT activities  
reported in 27/93 countries

DCD donors: 11 395 (25%)

\* Canada - utilized deceased donors

\*\* Estonia reported 1 tx, with an imported organ

# Transplants from DCD donors per type of organ (pmp) 2023

Kidney	Liver	Lung	Heart	Pancreas	Total
16 003	4 903	998	823	182	22 909

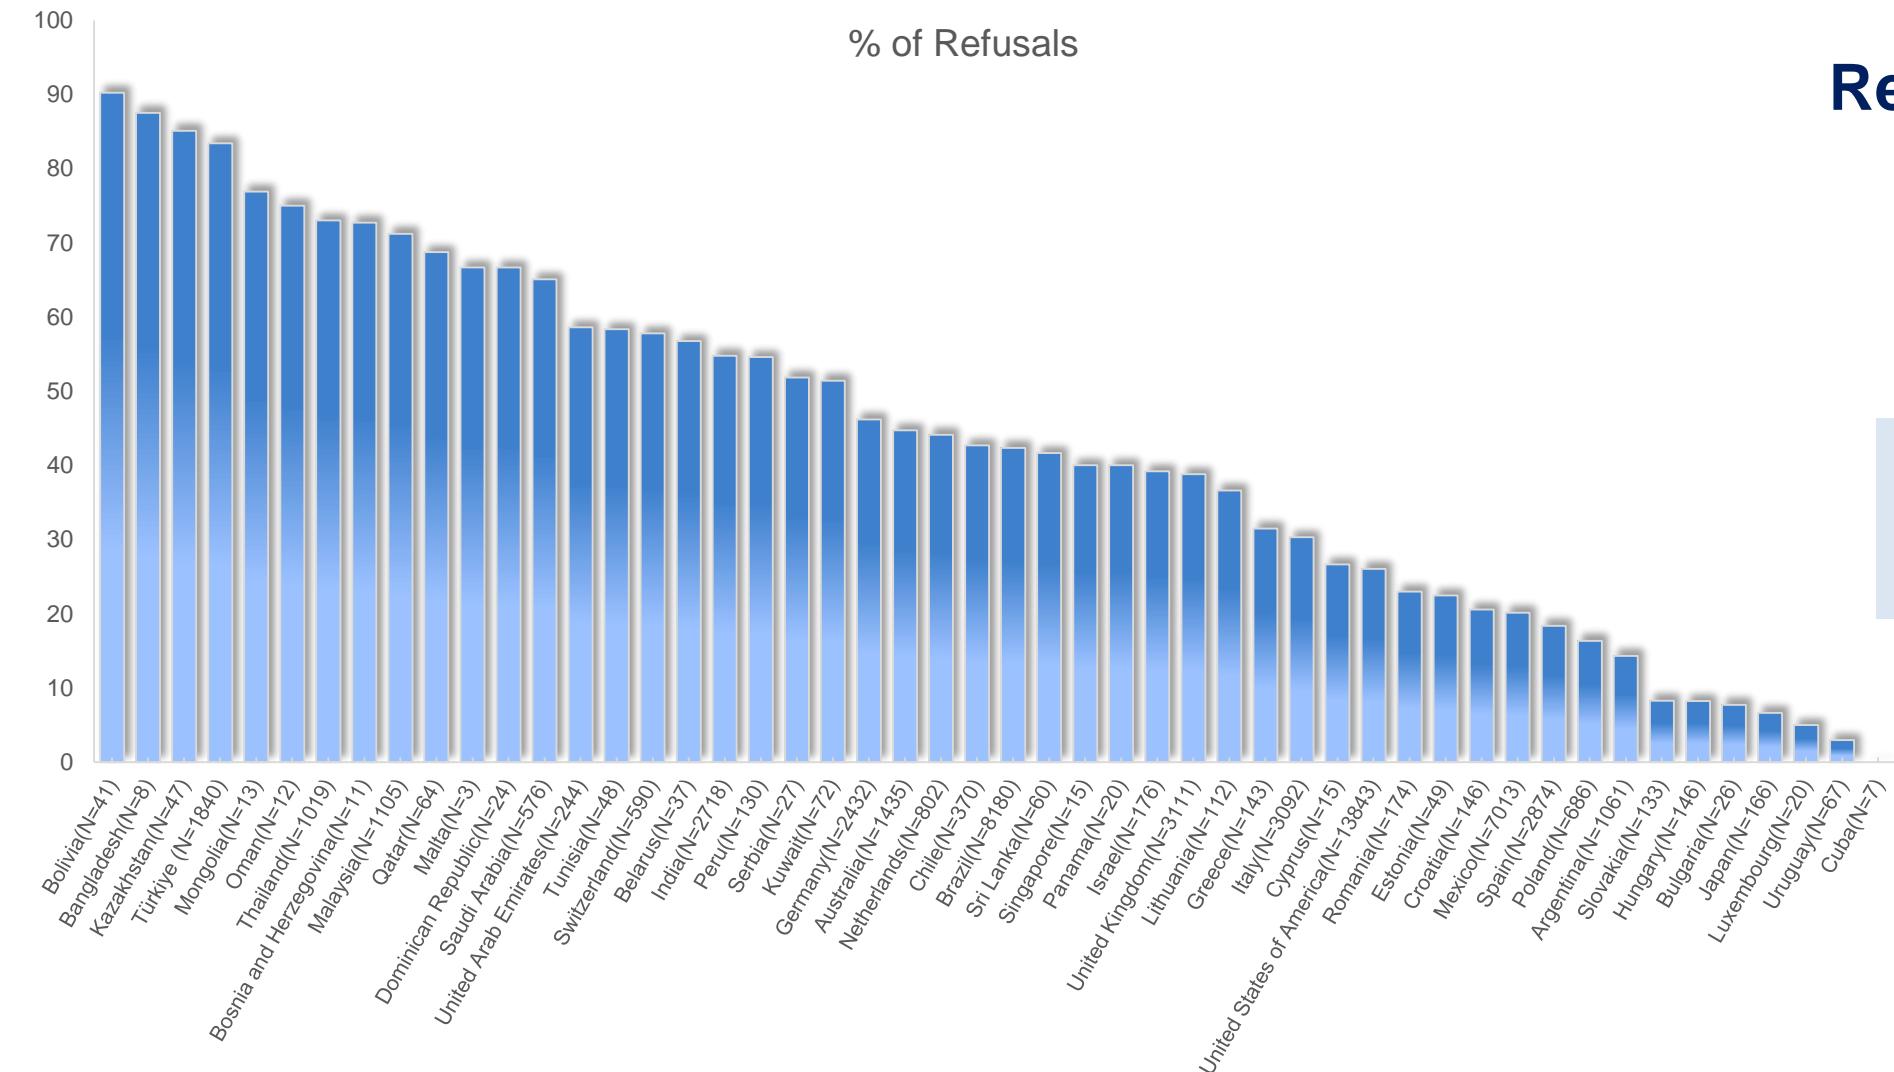

\*Additionally, small bowel transplants from DCD were reported by Spain (n=1)

# Refusals to deceased donation (%)

2023

N=50 countries provided information on refusals to deceased donation and family interviews

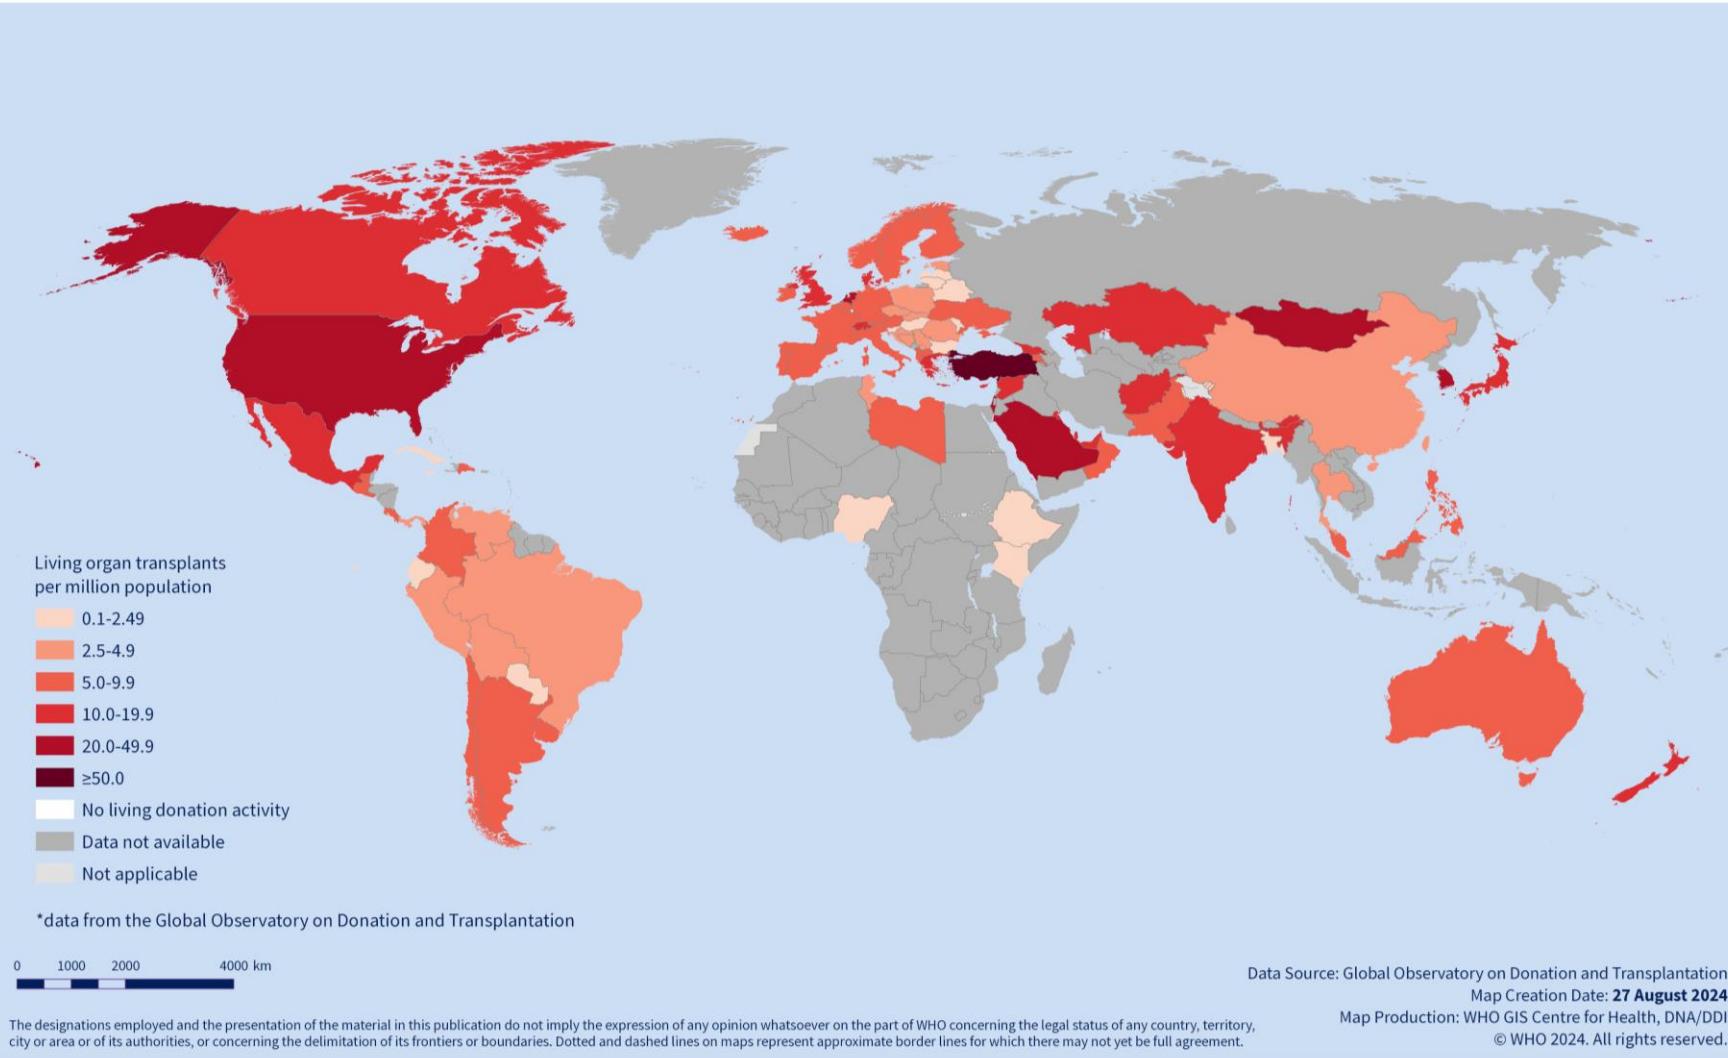

\*Number of interviews is presented in brackets.

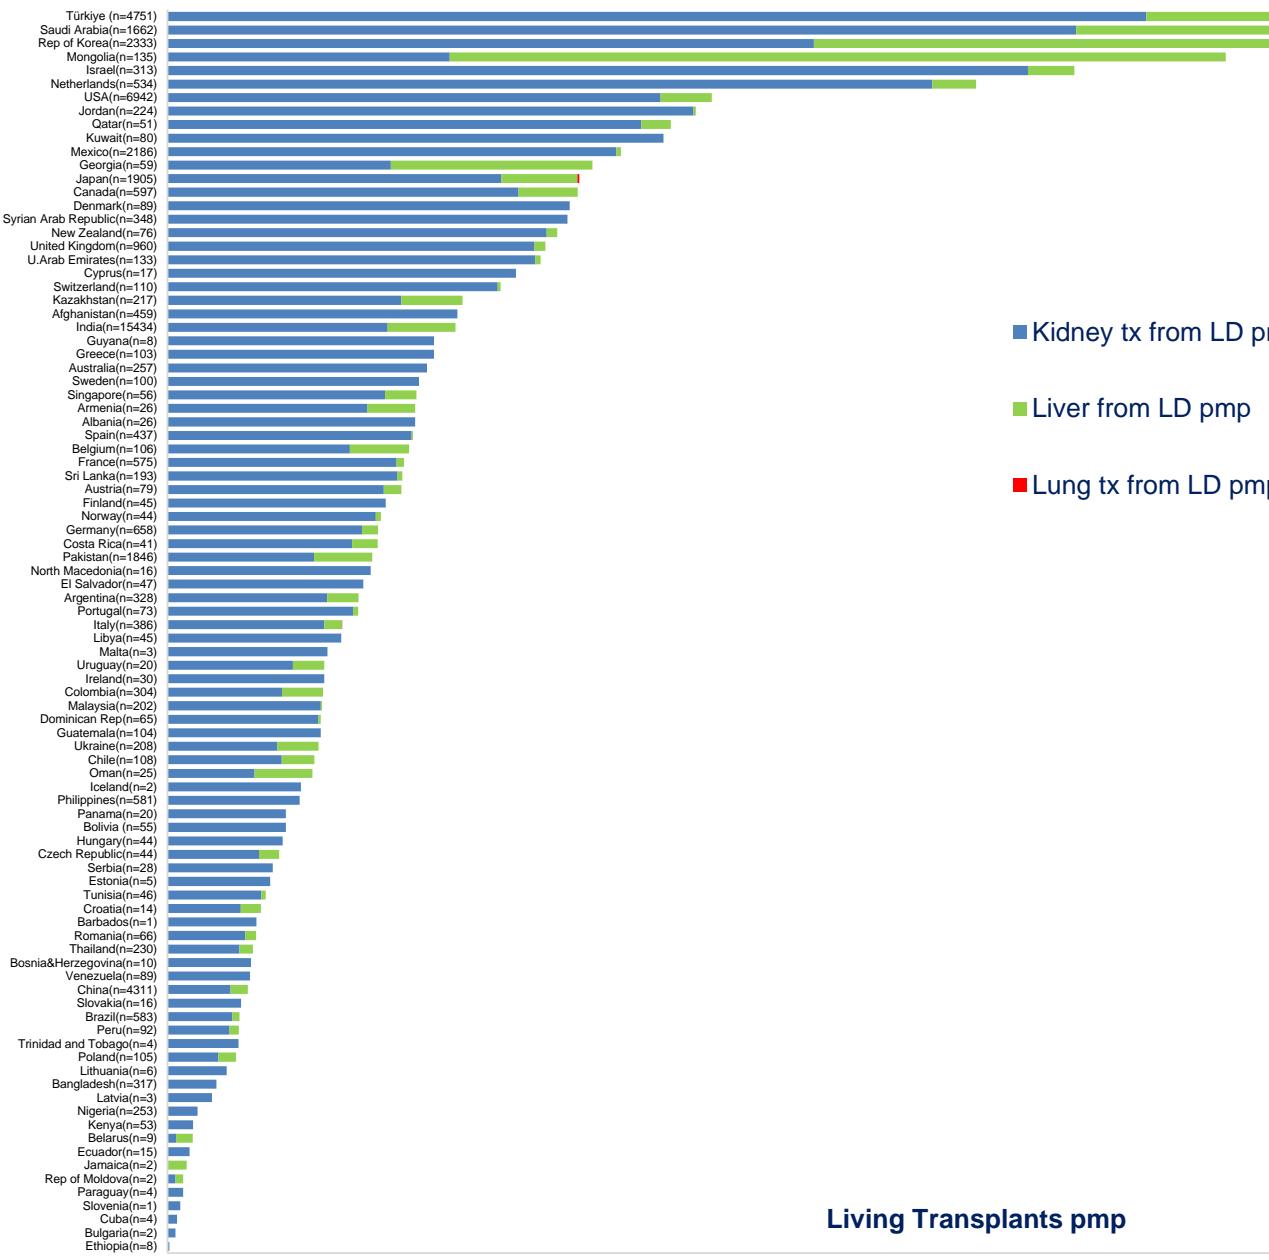

2

## LIVING DONATION ACTIVITY

# Organ transplantation from living donors, 2023\*

# Transplants from living donors per type of organ (pmp) 2023

Total number of LD transplants:

43 101 kidney transplants  
10 081 liver transplants  
10 lung transplants

Living transplants performed in 92/93 countries

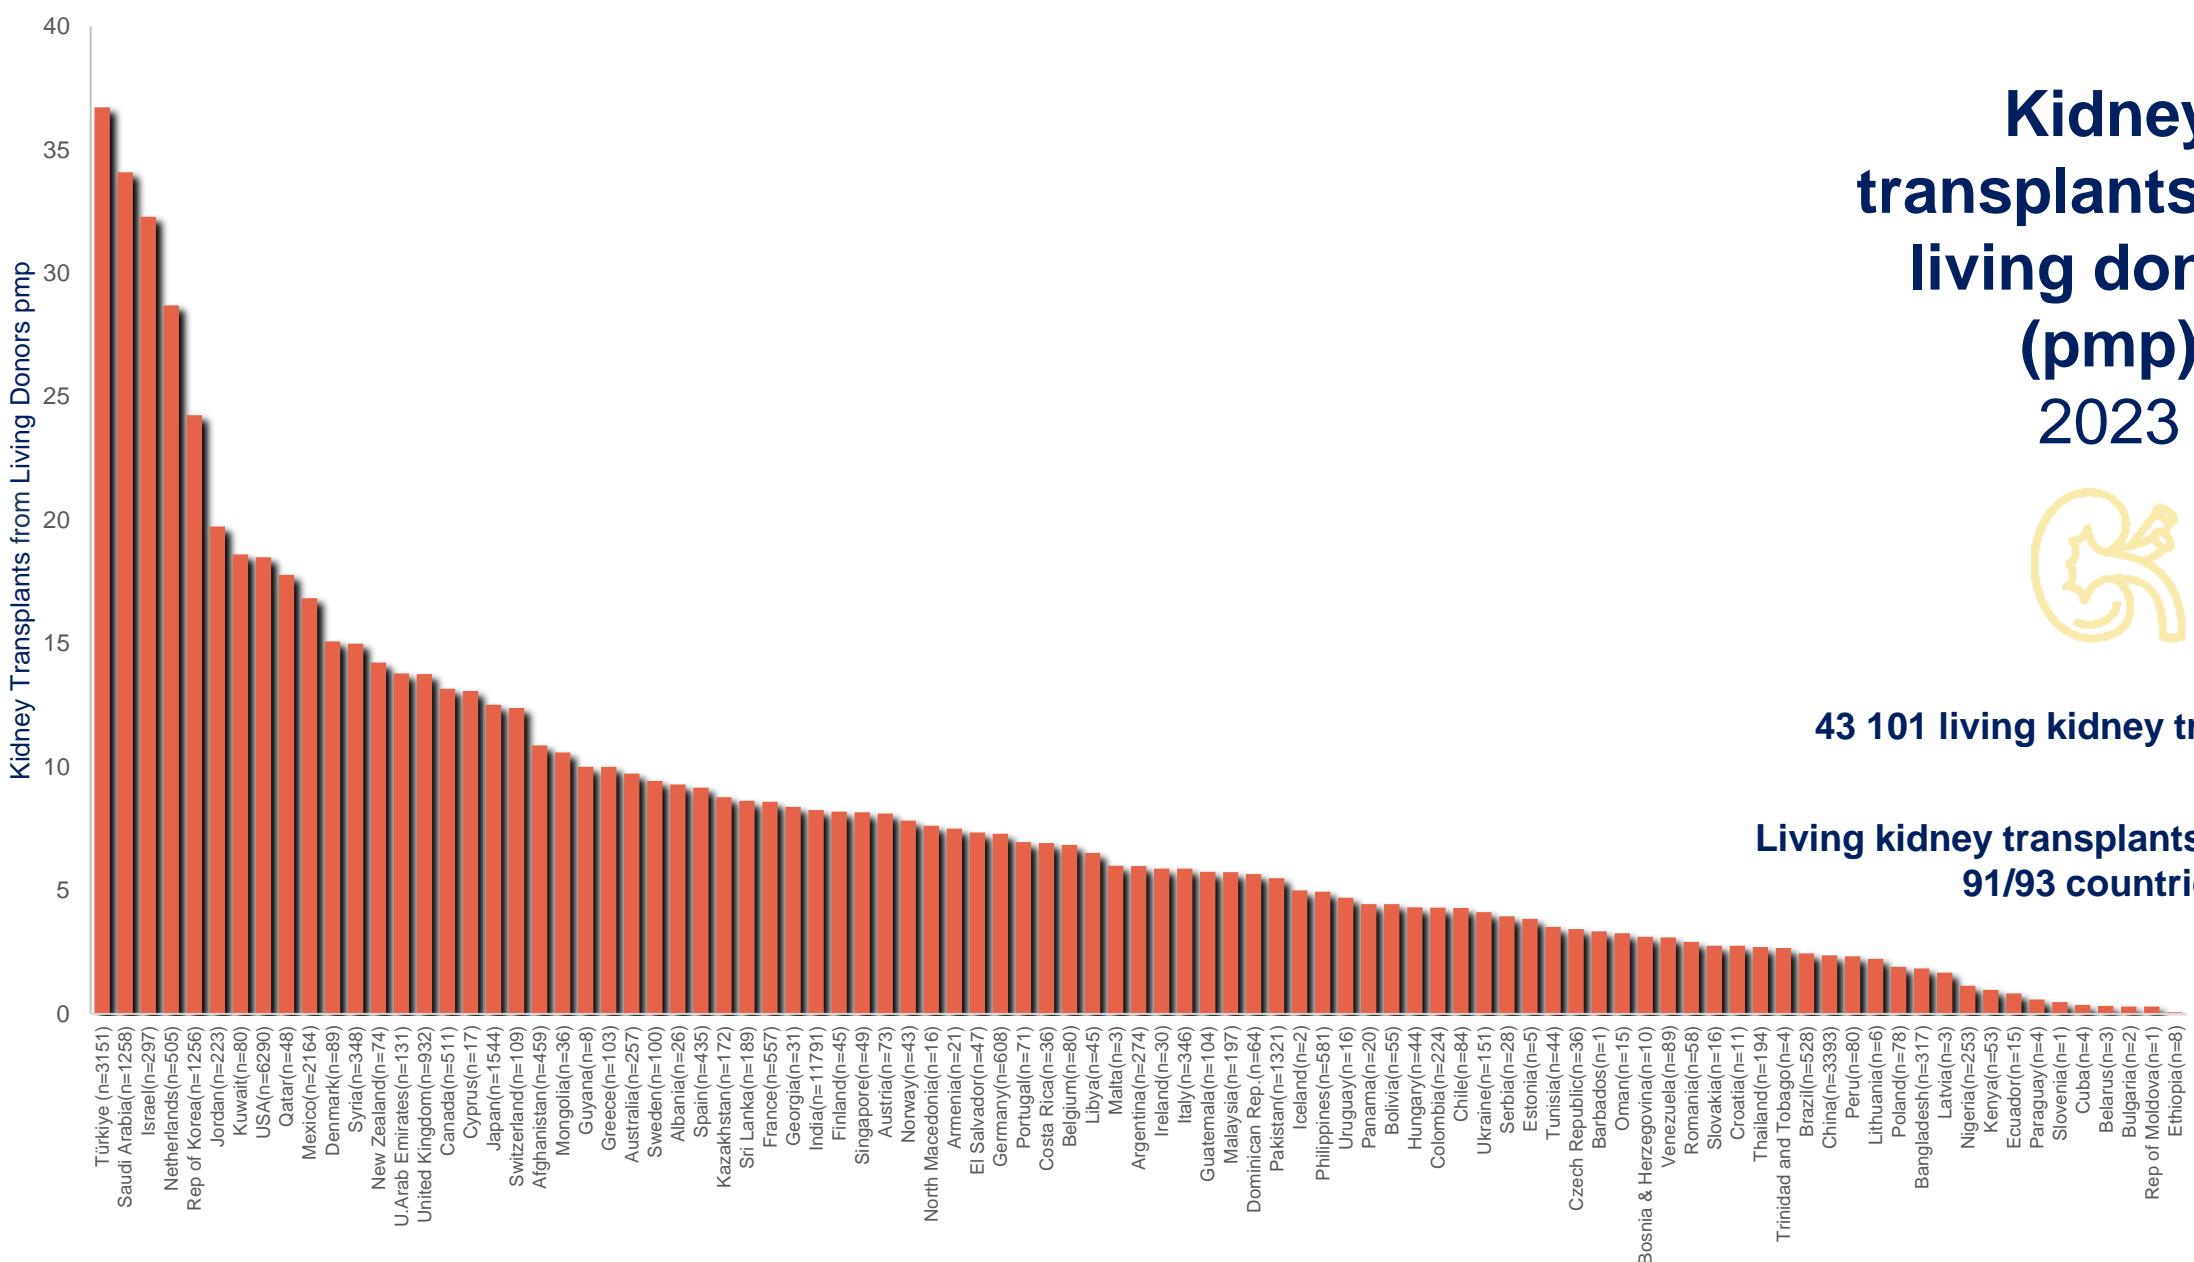

\*Additionally, living donor pancreas transplants were reported by India (n=1) and China (n=7)

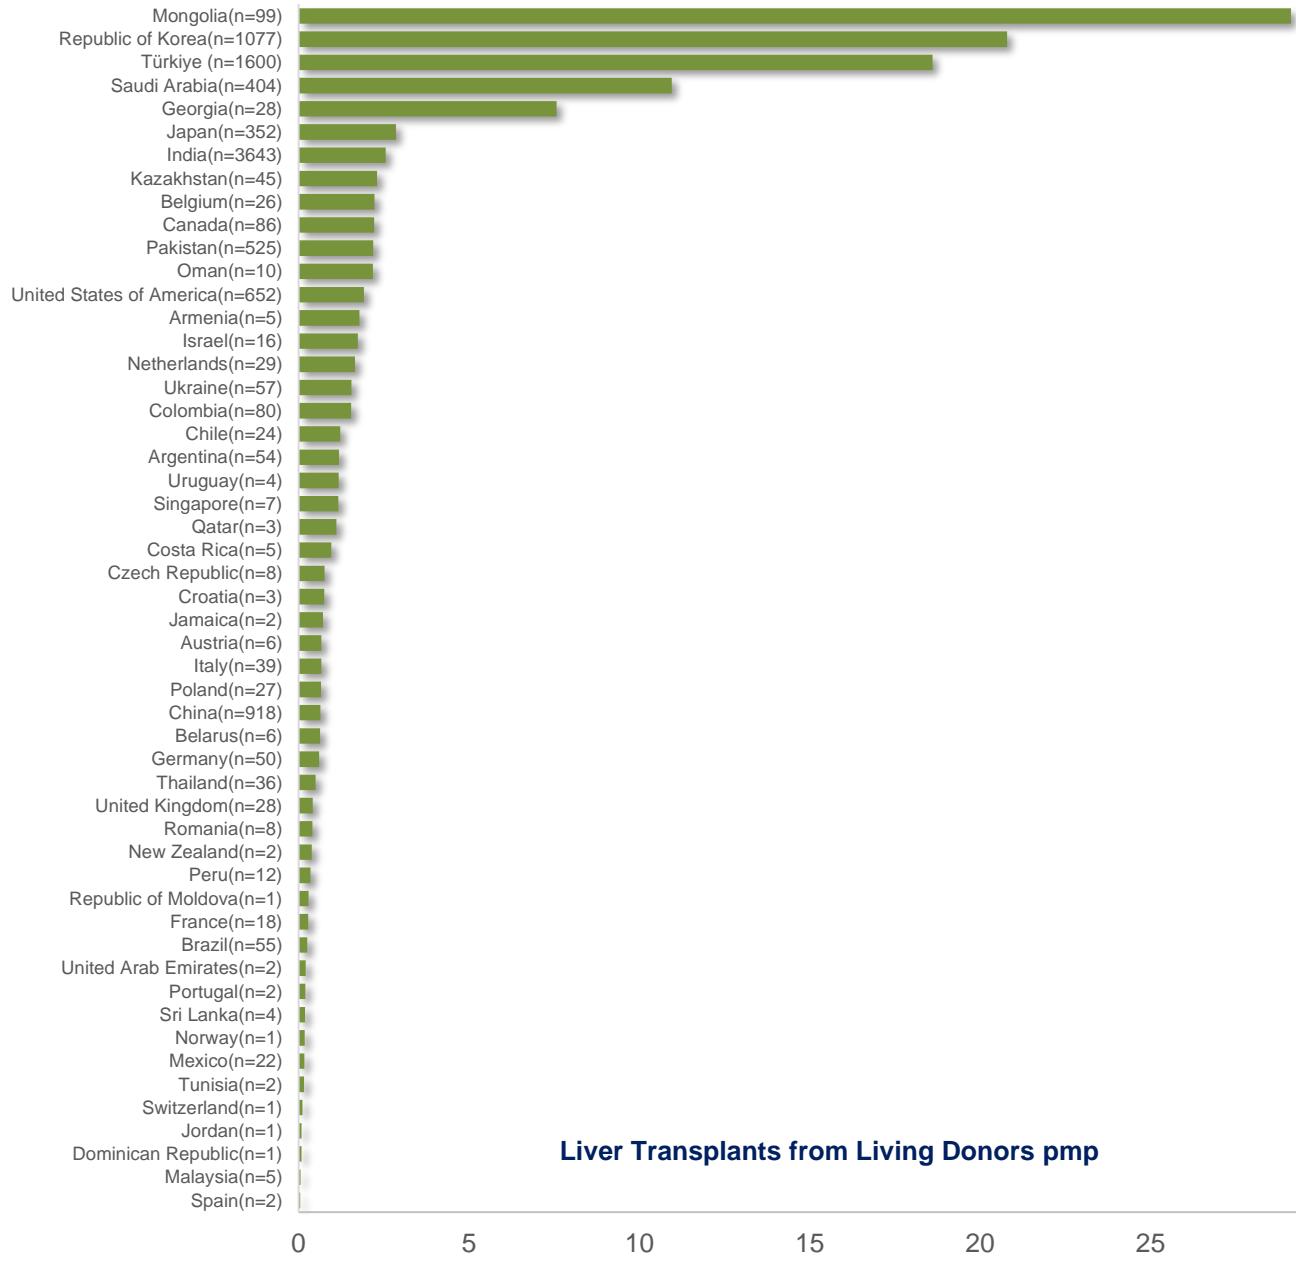

# Kidney transplants from living donors (pmp) 2023

**43 101 living kidney transplants**

**Living kidney transplants performed in 91/93 countries**

# Liver transplants activities from living donors (pmp) 2023

10 093 living liver transplants

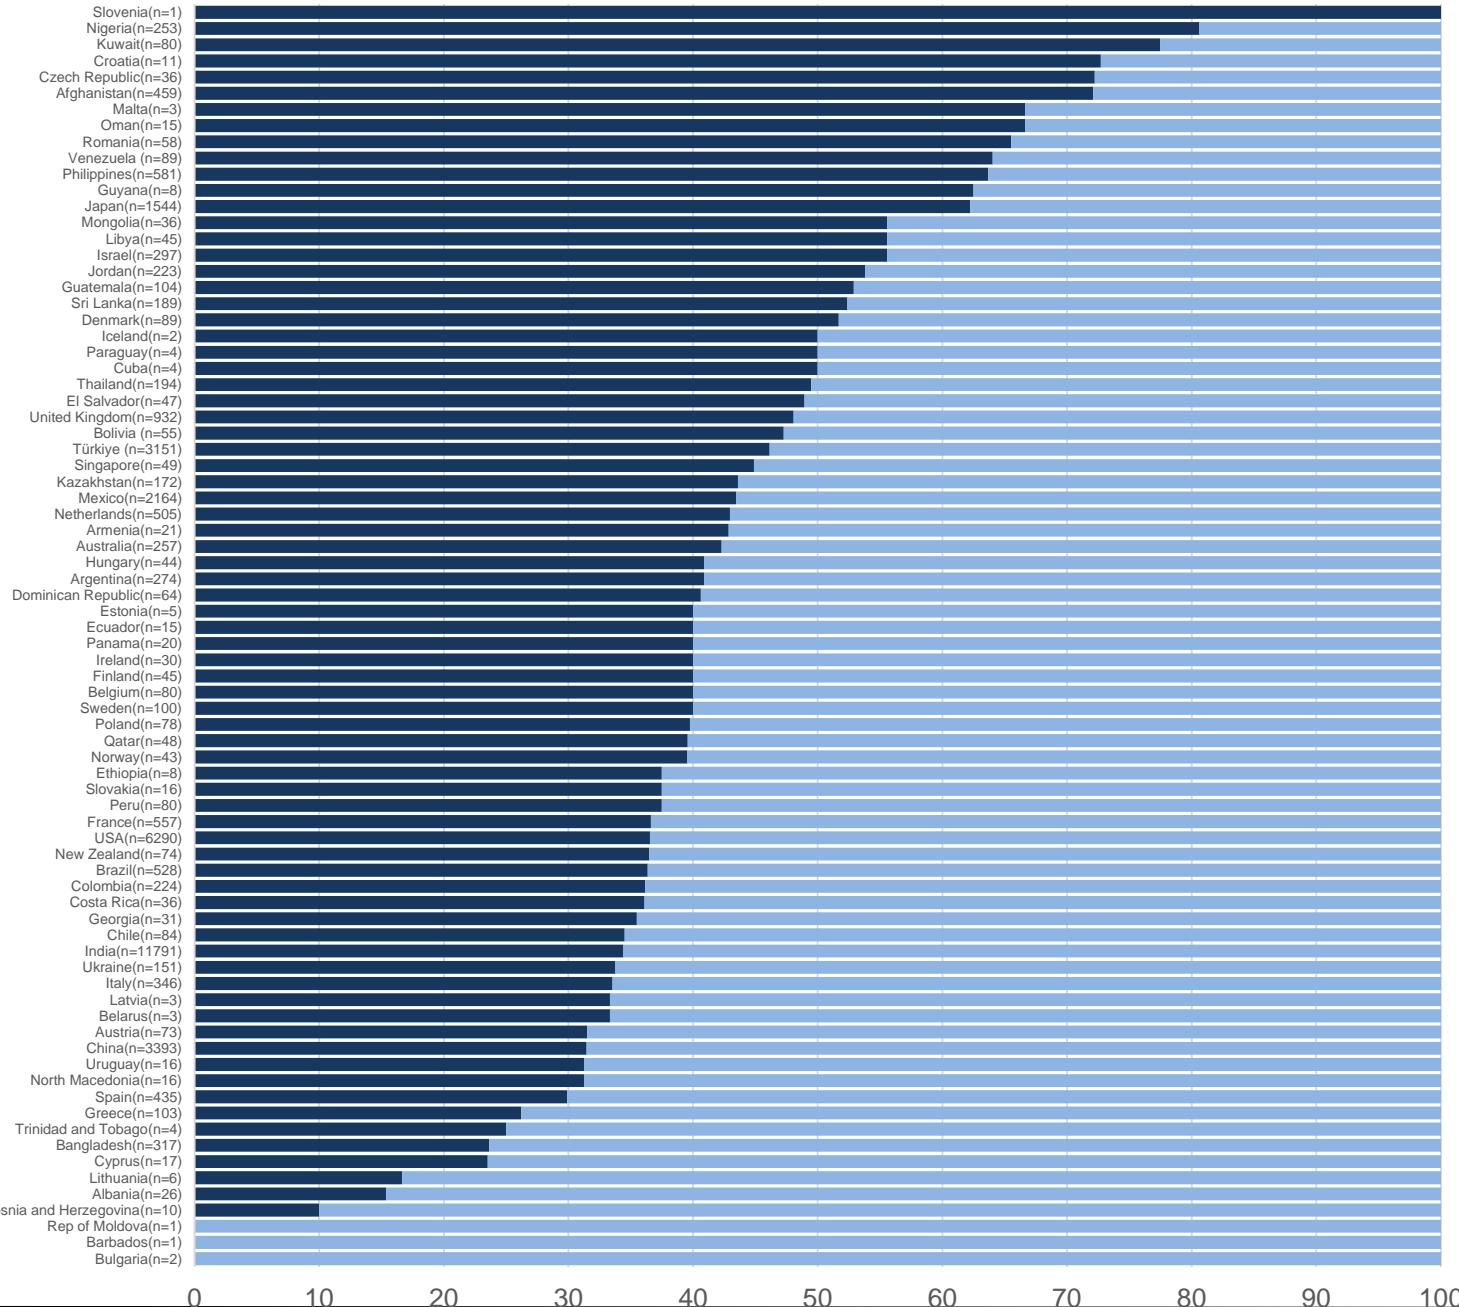

Living Liver transplants performed in 52/93 countries

# Living kidney donors by donor sex (%) 2023

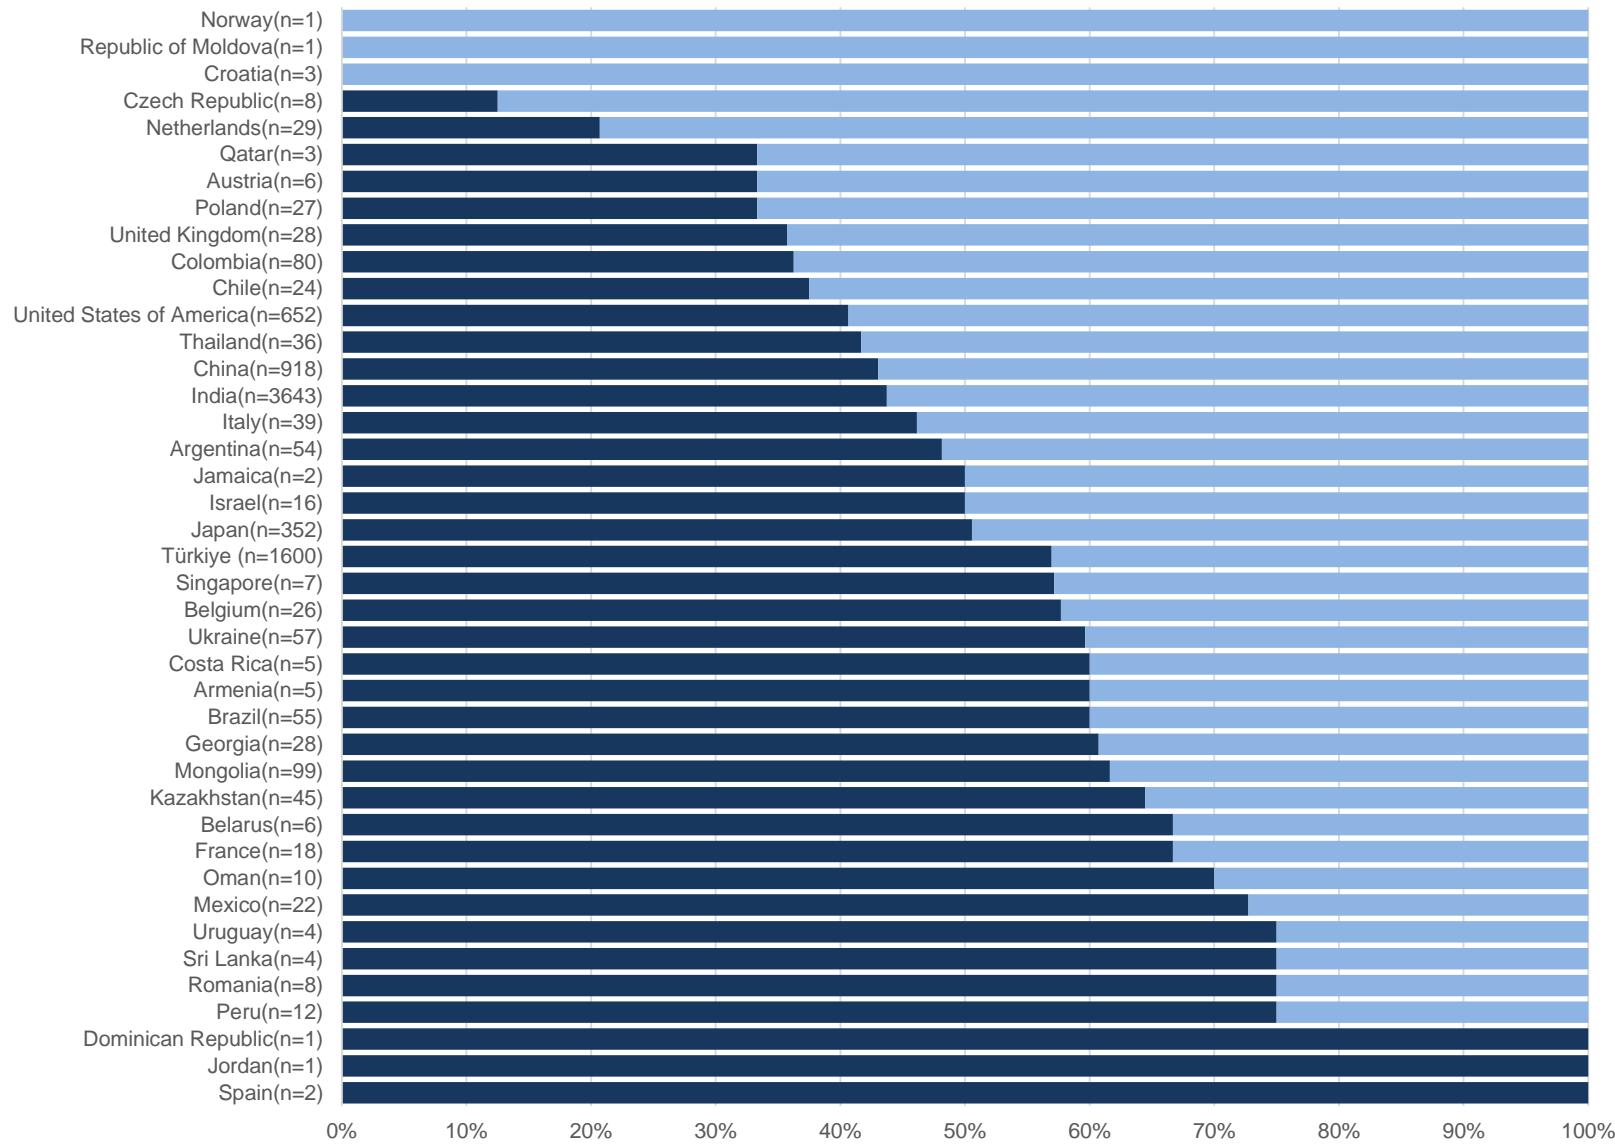

14 833 (40%) male kidney living donors  
22 331 (60%) female kidney living donors

N= 78 countries provided information on  
donor sex

■ % Male Liver LD   ■ % Female Liver LD

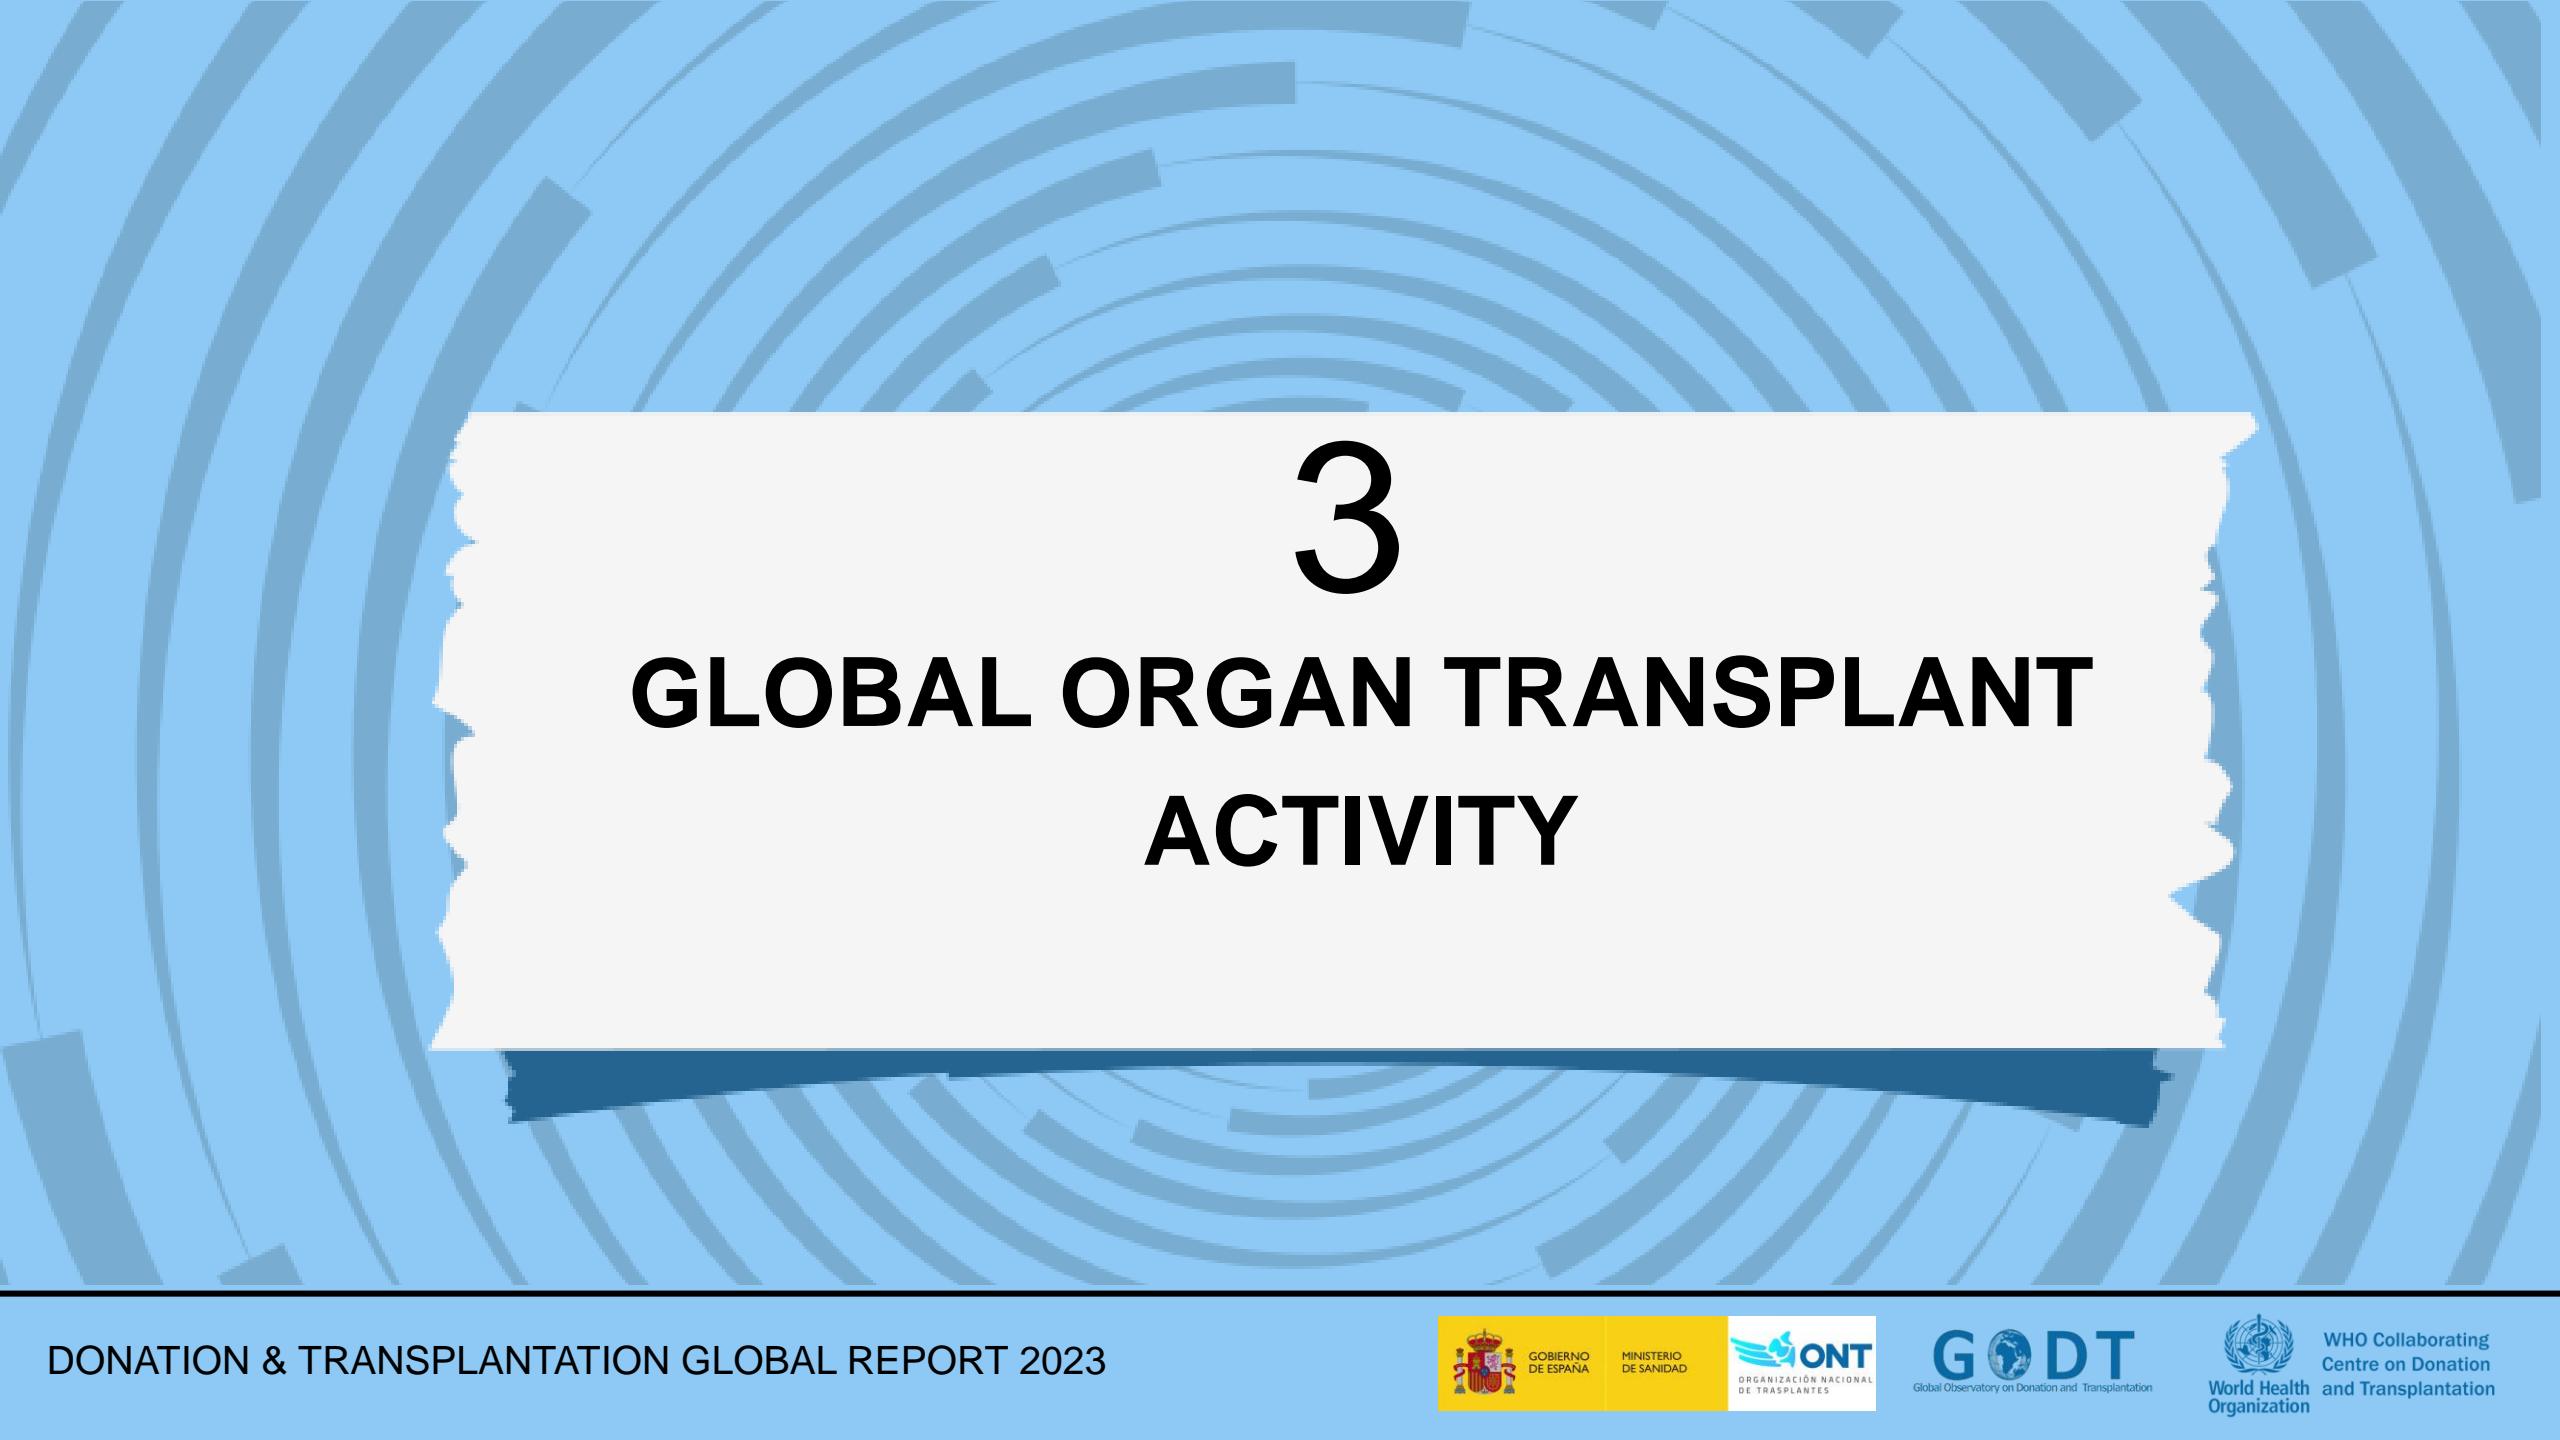

## Living liver donors by donor sex (%) 2023

3 740 (47%) male living liver donors  
4 198 (53%) female living liver donors

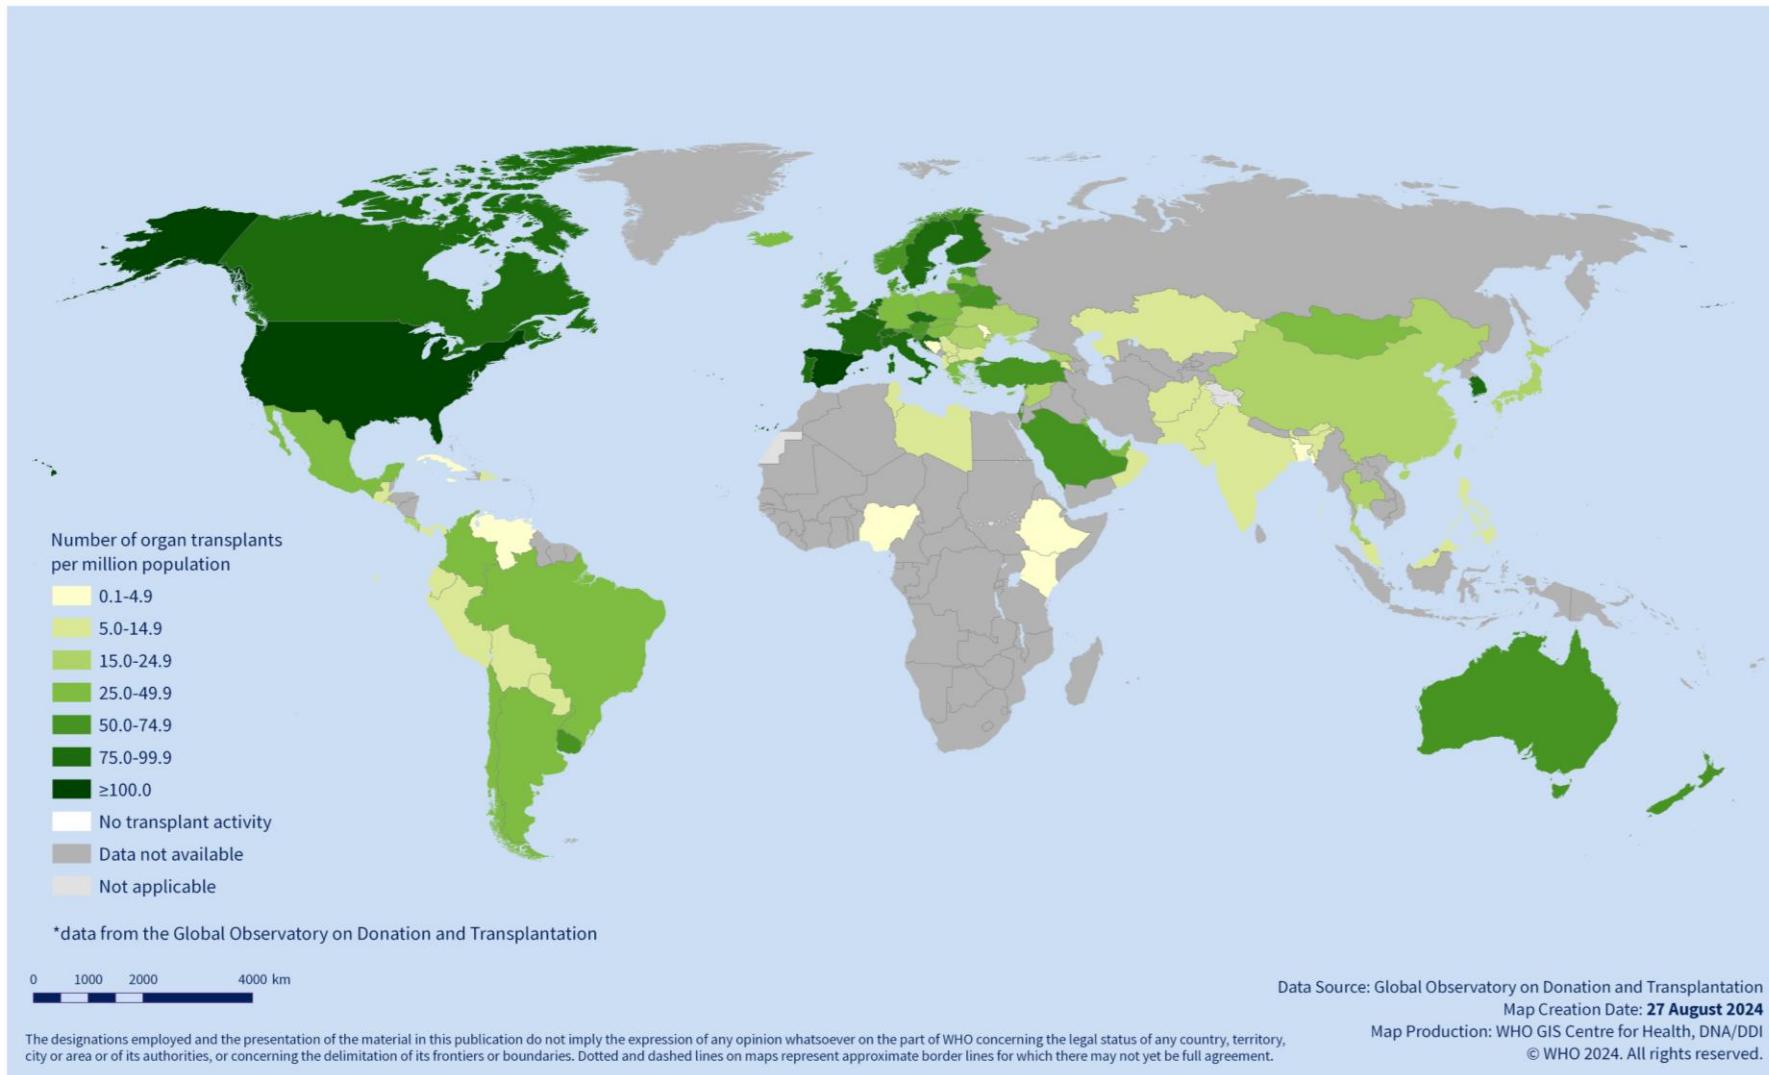

N= 41 countries provided information on  
donor sex

# 3

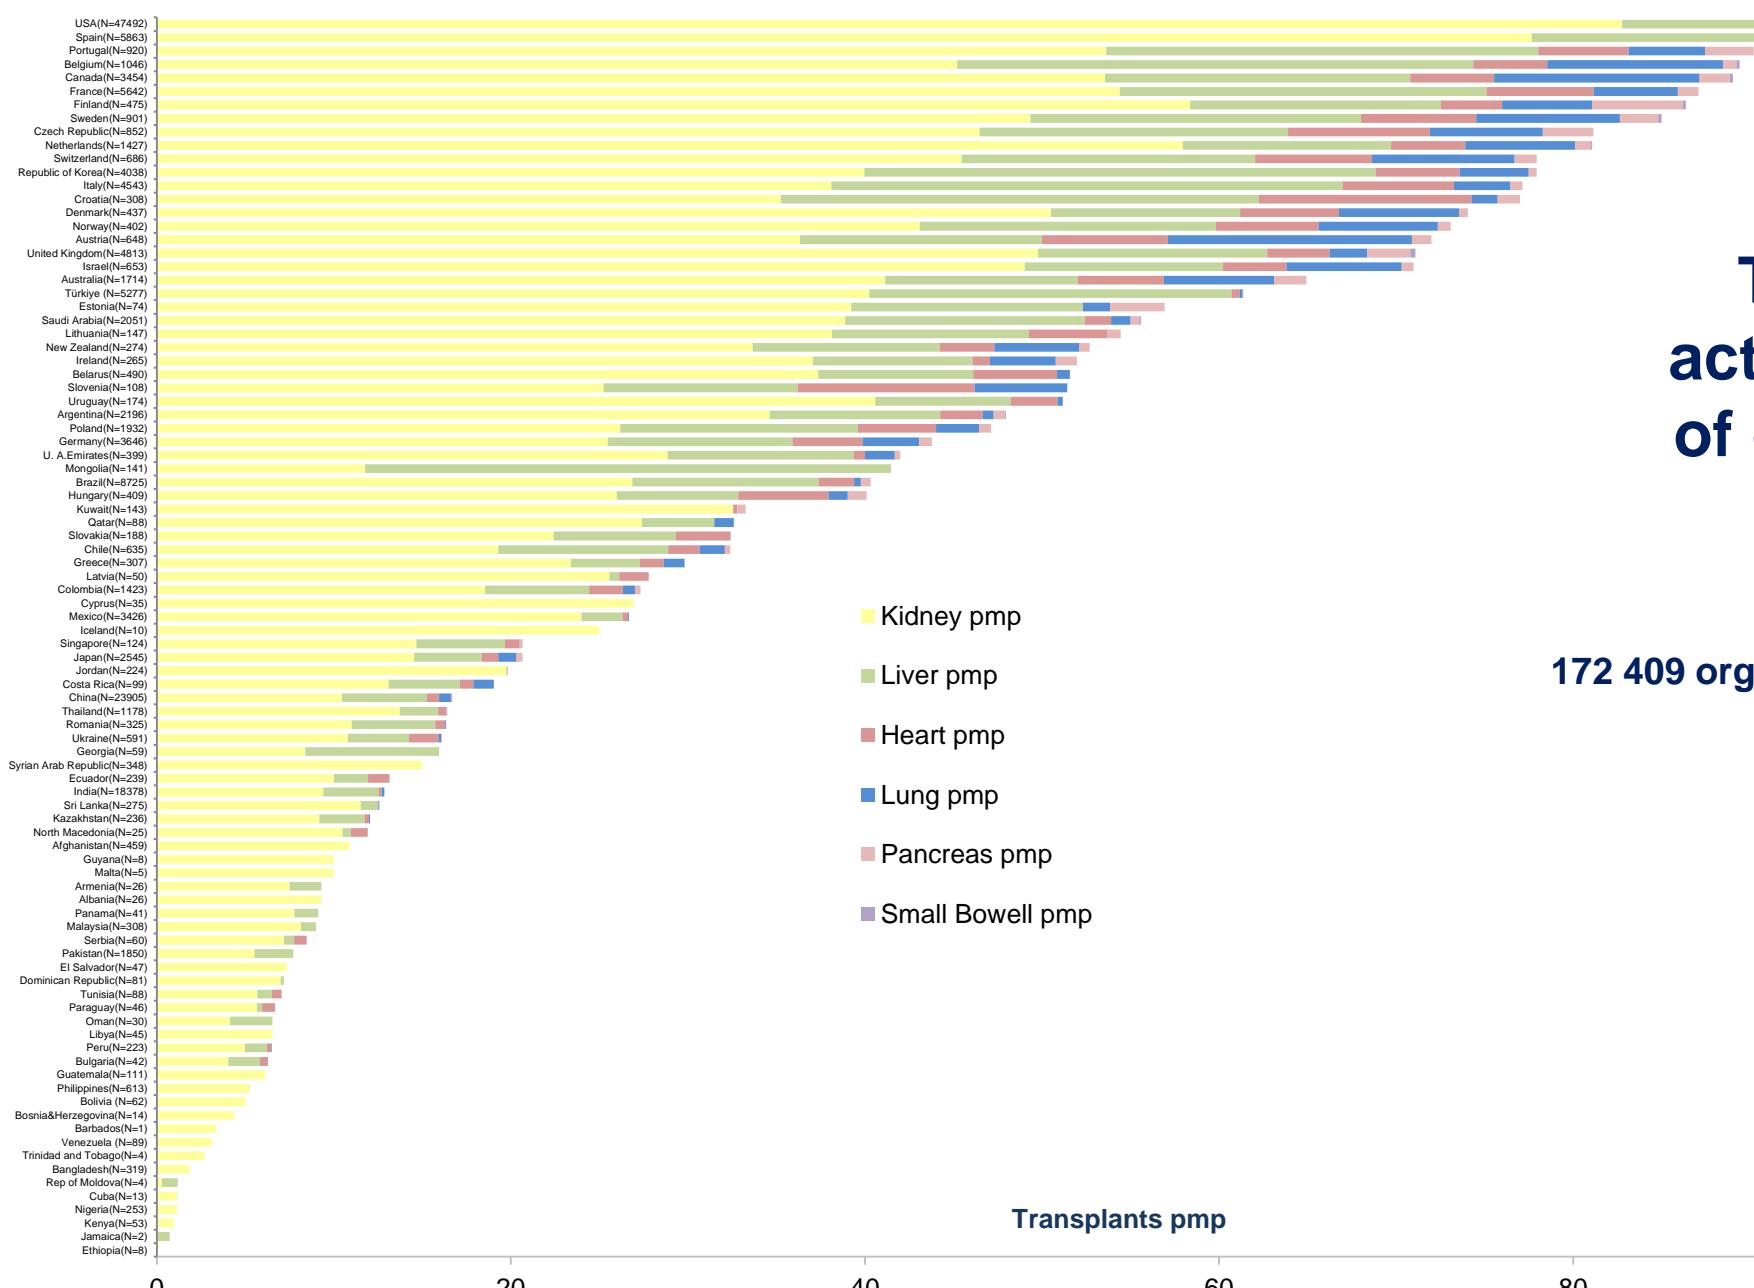

## GLOBAL ORGAN TRANSPLANT ACTIVITY

# Global transplantation activities of solid organs, 2023\*

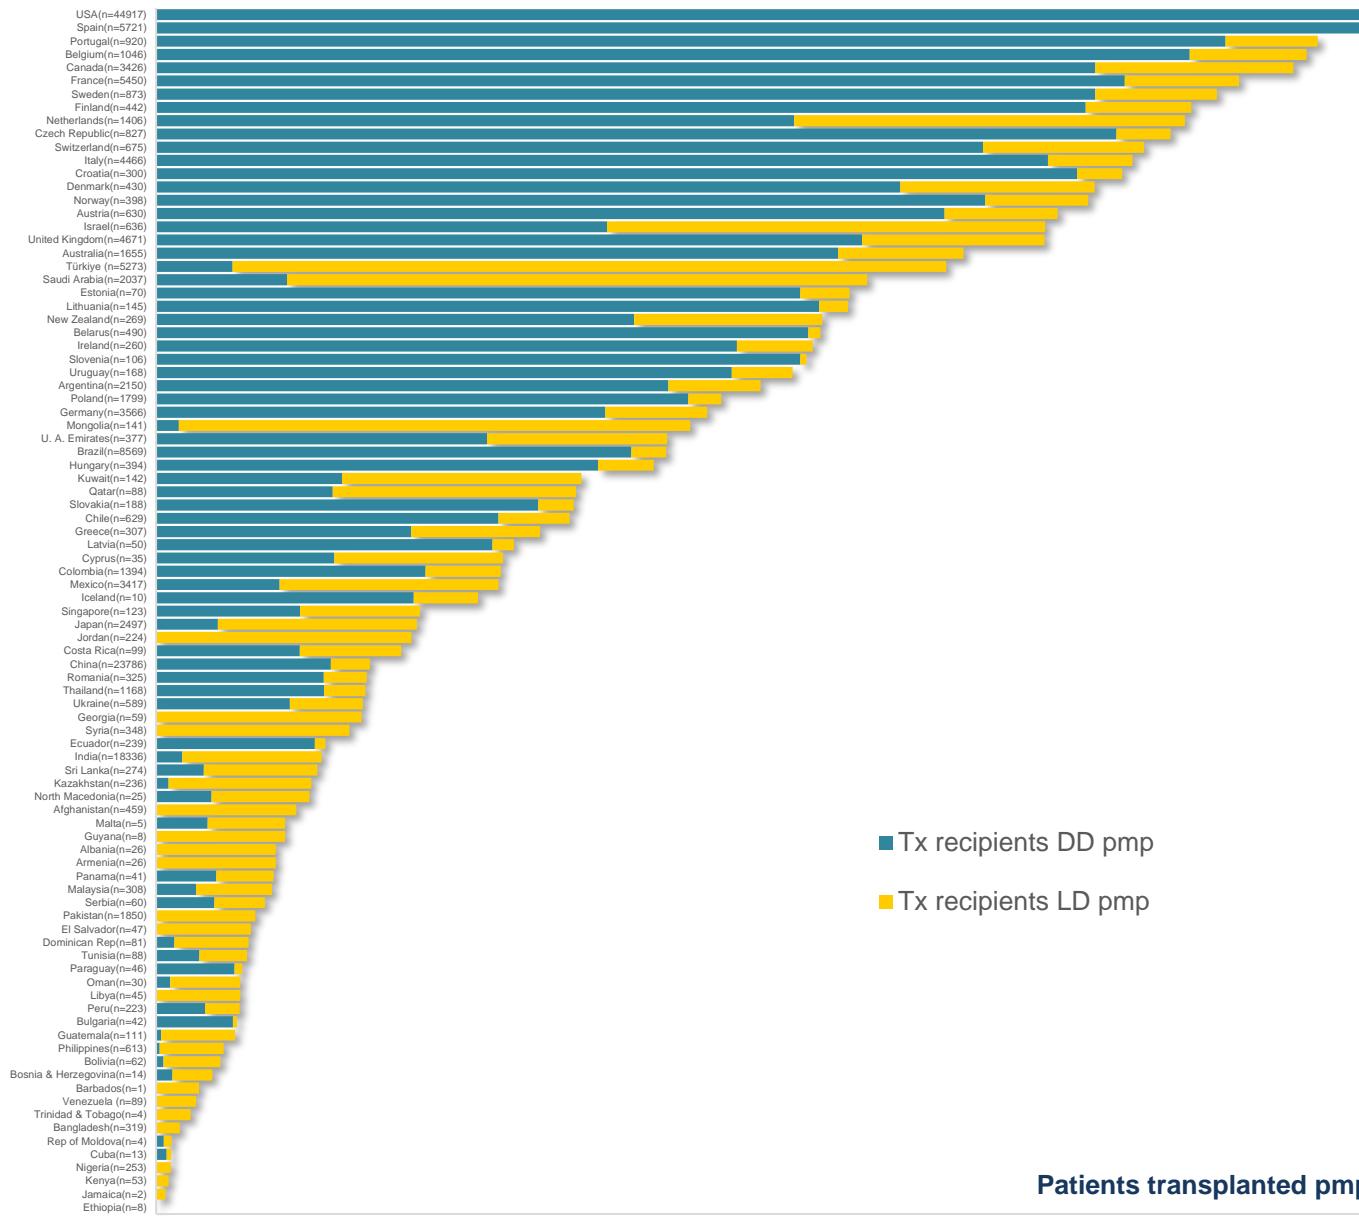

# Transplant activity by type of organ (pmp) 2023

172 409 organ transplants performed in 92/93 countries

# Patients transplanted\* (pmp) 2023

164 222 patients transplanted reported in  
91/93 countries

Patients transplanted pmp

■ Tx recipients DD pmp  
■ Tx recipients LD pmp

\*A recipient of more than one organ is counted as one recipient; therefore, the number of patients transplanted is smaller than the number of organs transplanted (see previous slide)

# Organs transplanted pmp in relation to the Human Development Index (HDI) 2023

## WHO Regions:

African Region (AFR)

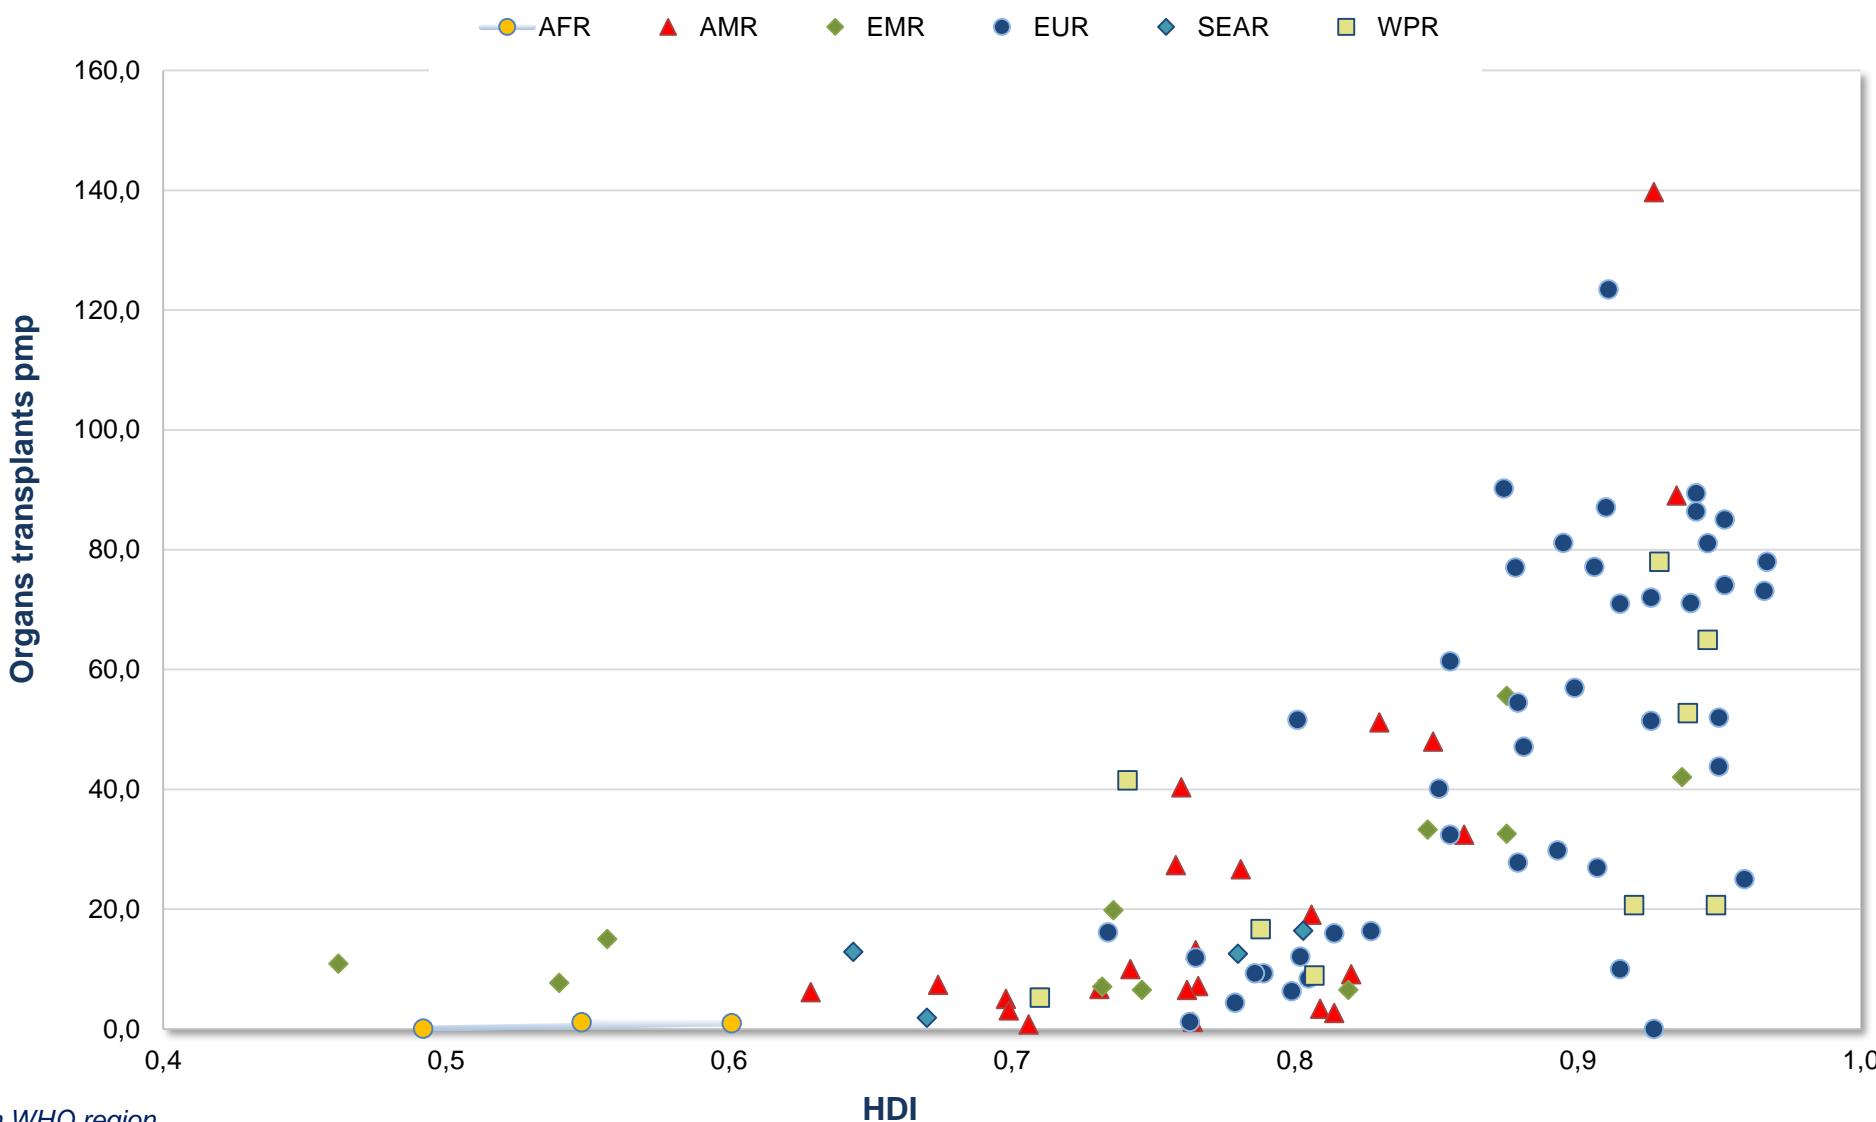

Region of the Americas (AMR)

Eastern Mediterranean Region (EMR)

European Region (EUR)

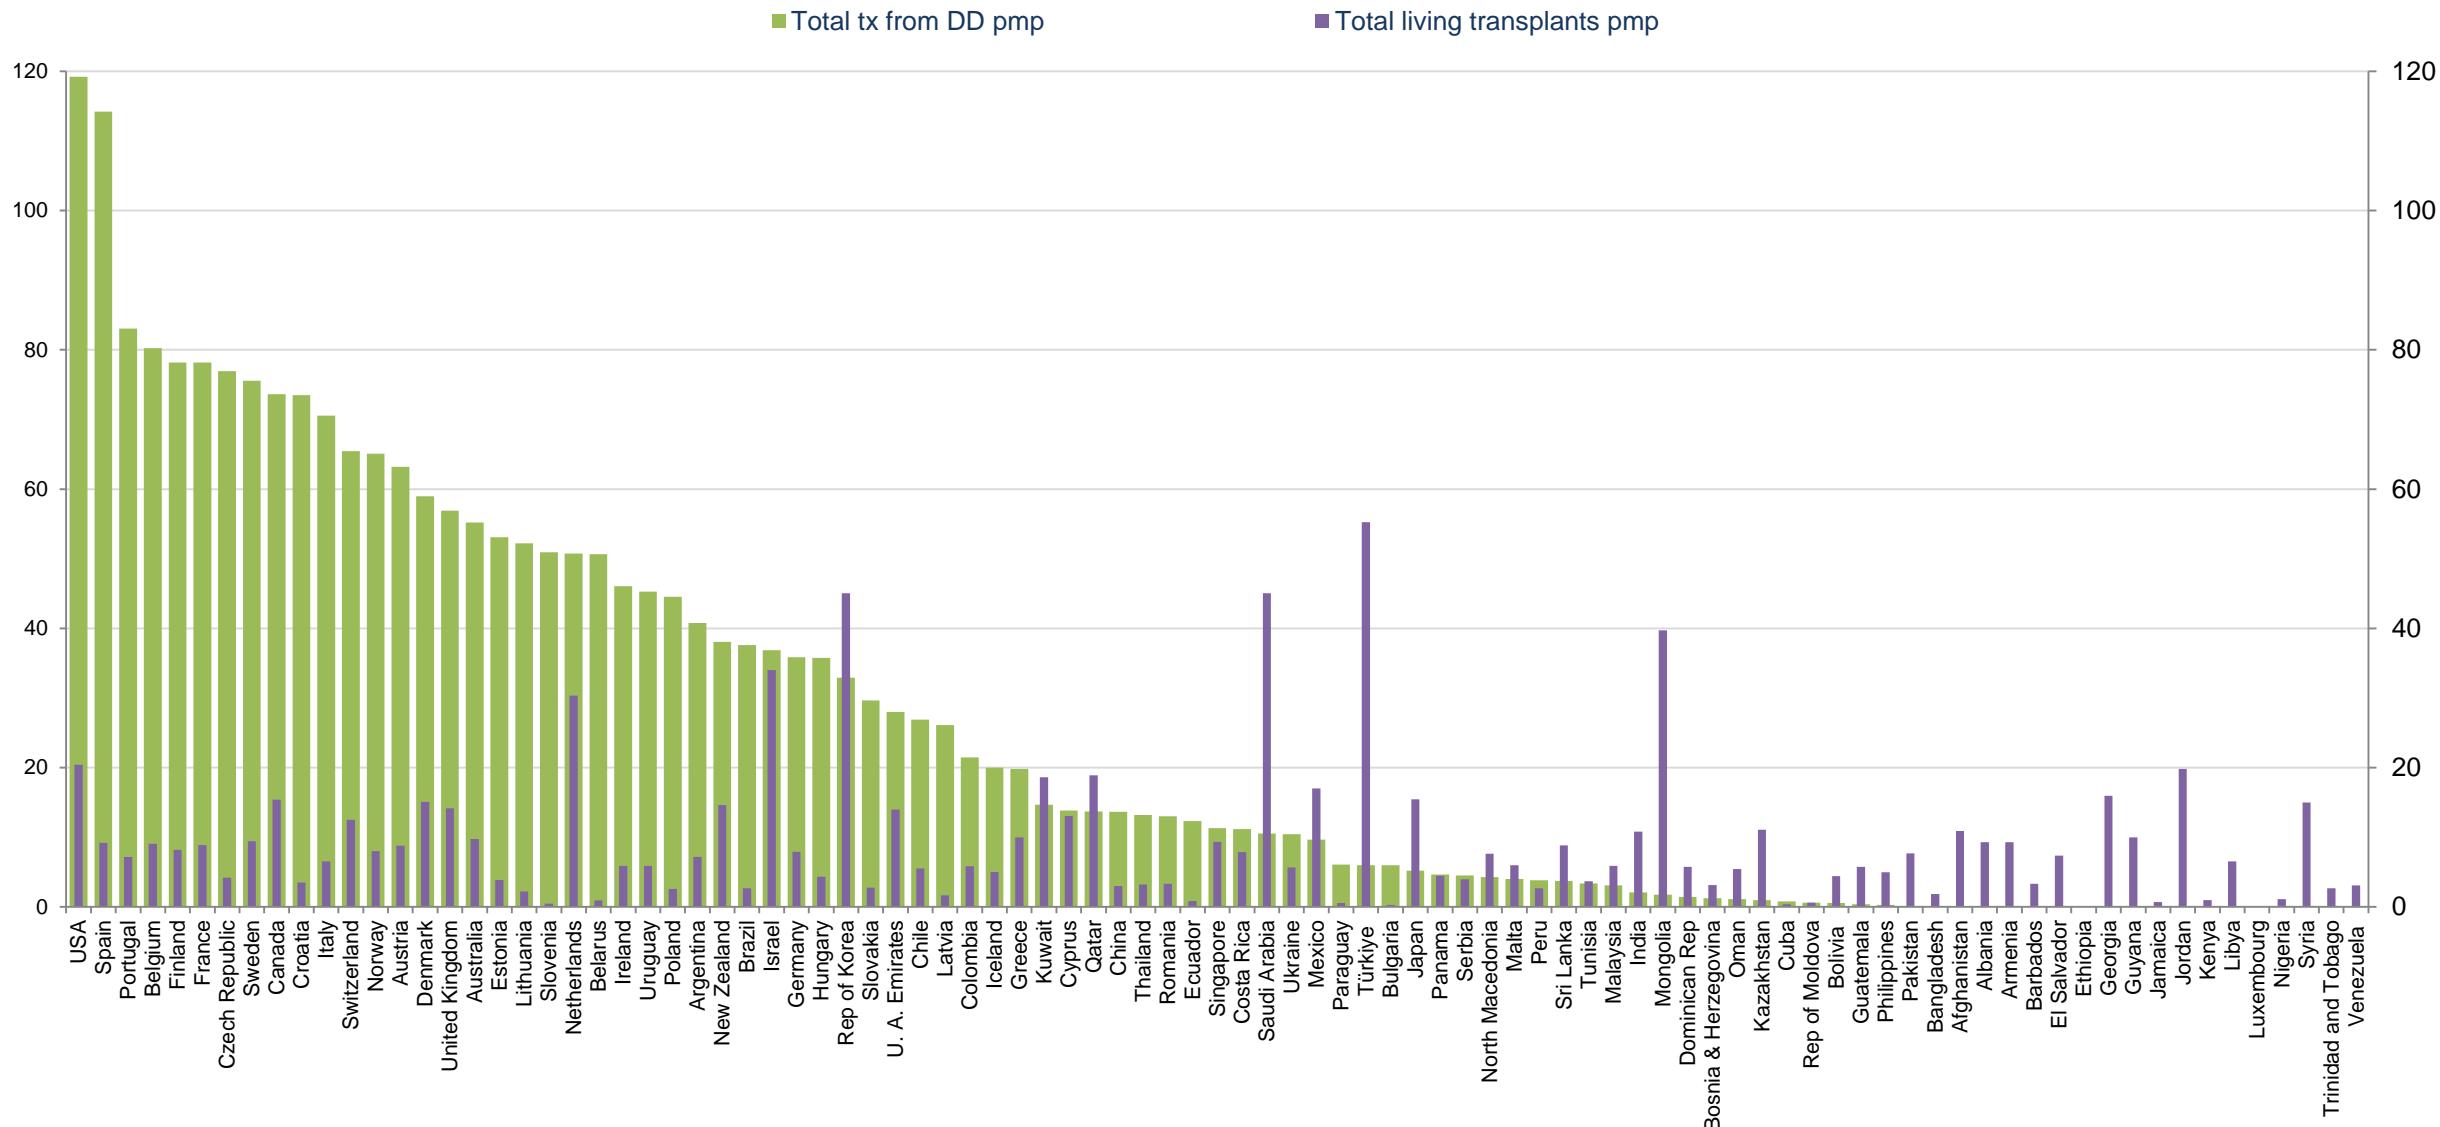

South-East Region (SEAR)

Western Pacific Region (WPR)

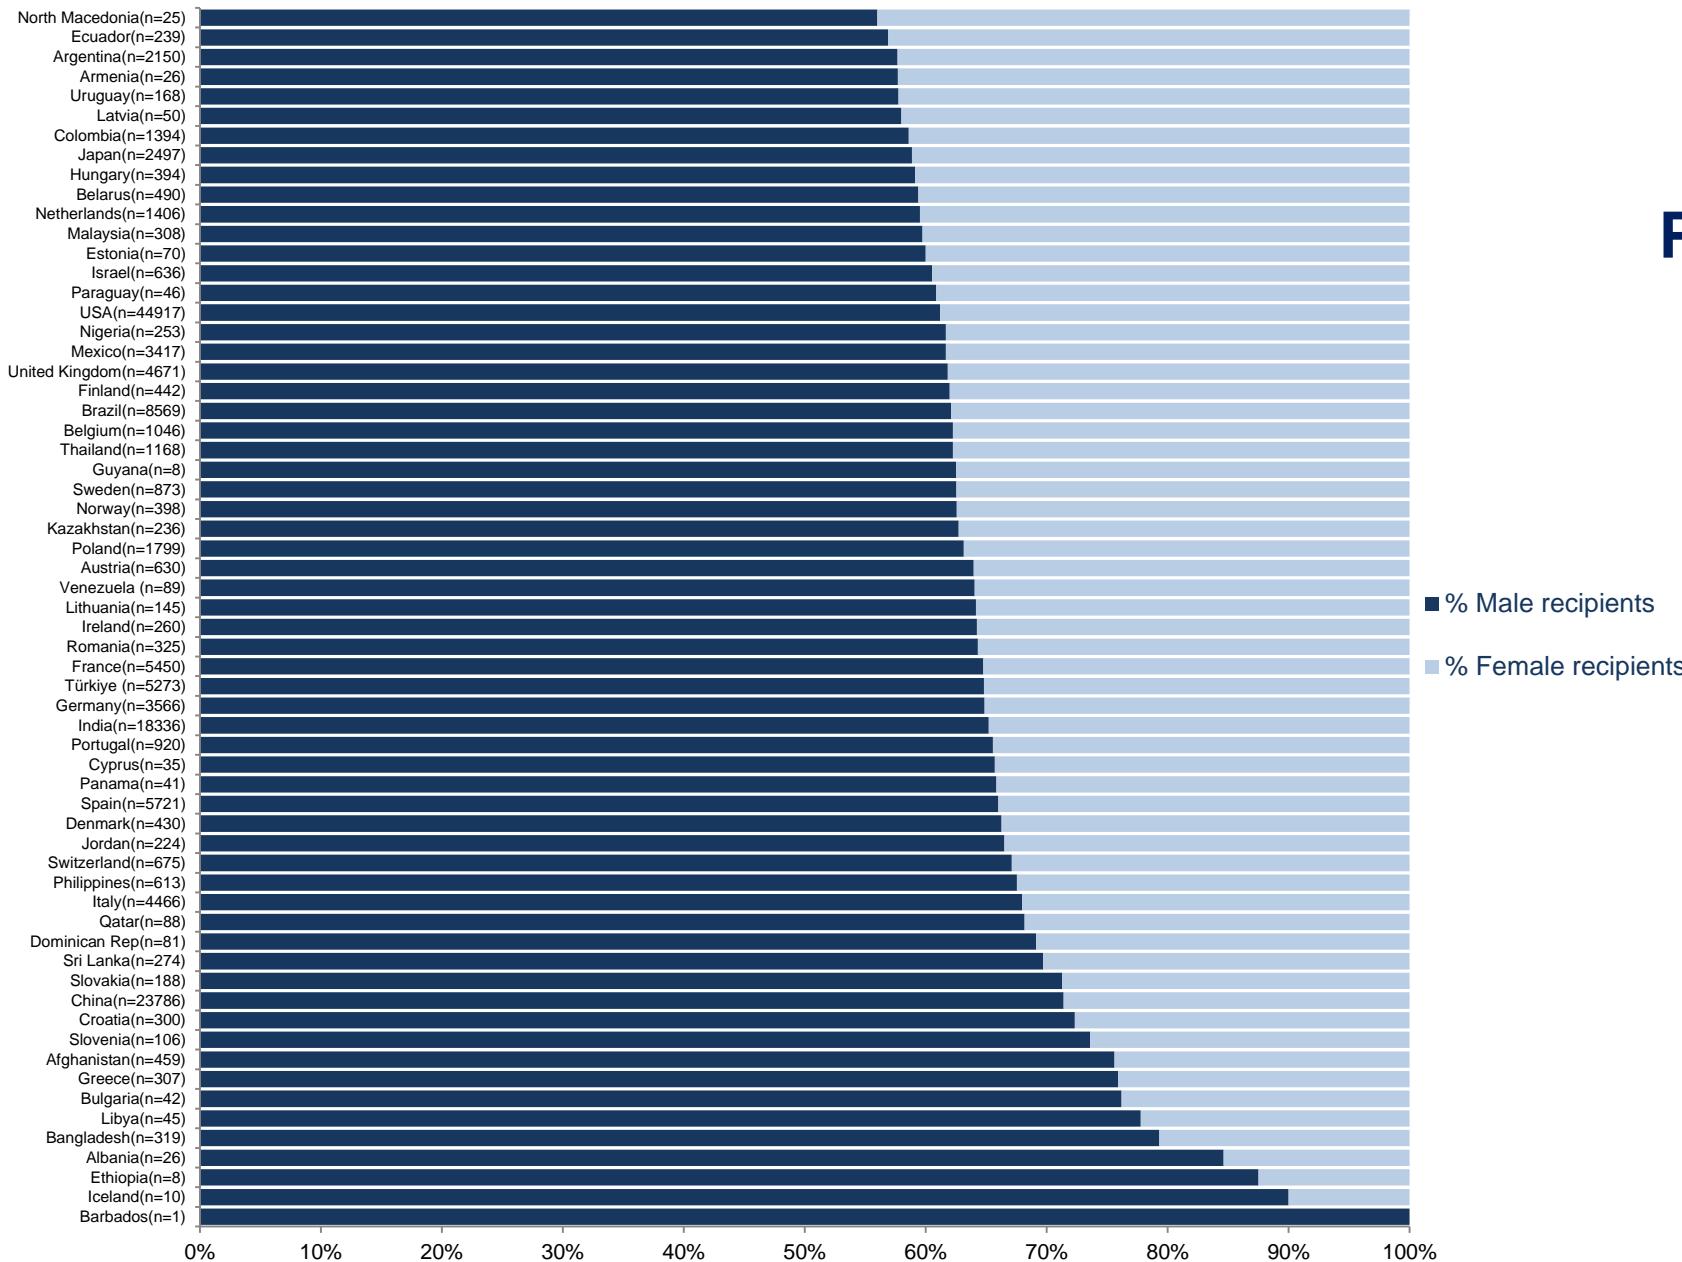

Dots represent responding Member States in each WHO region

# Transplants from deceased persons vs transplants from living persons (pmp). 2023

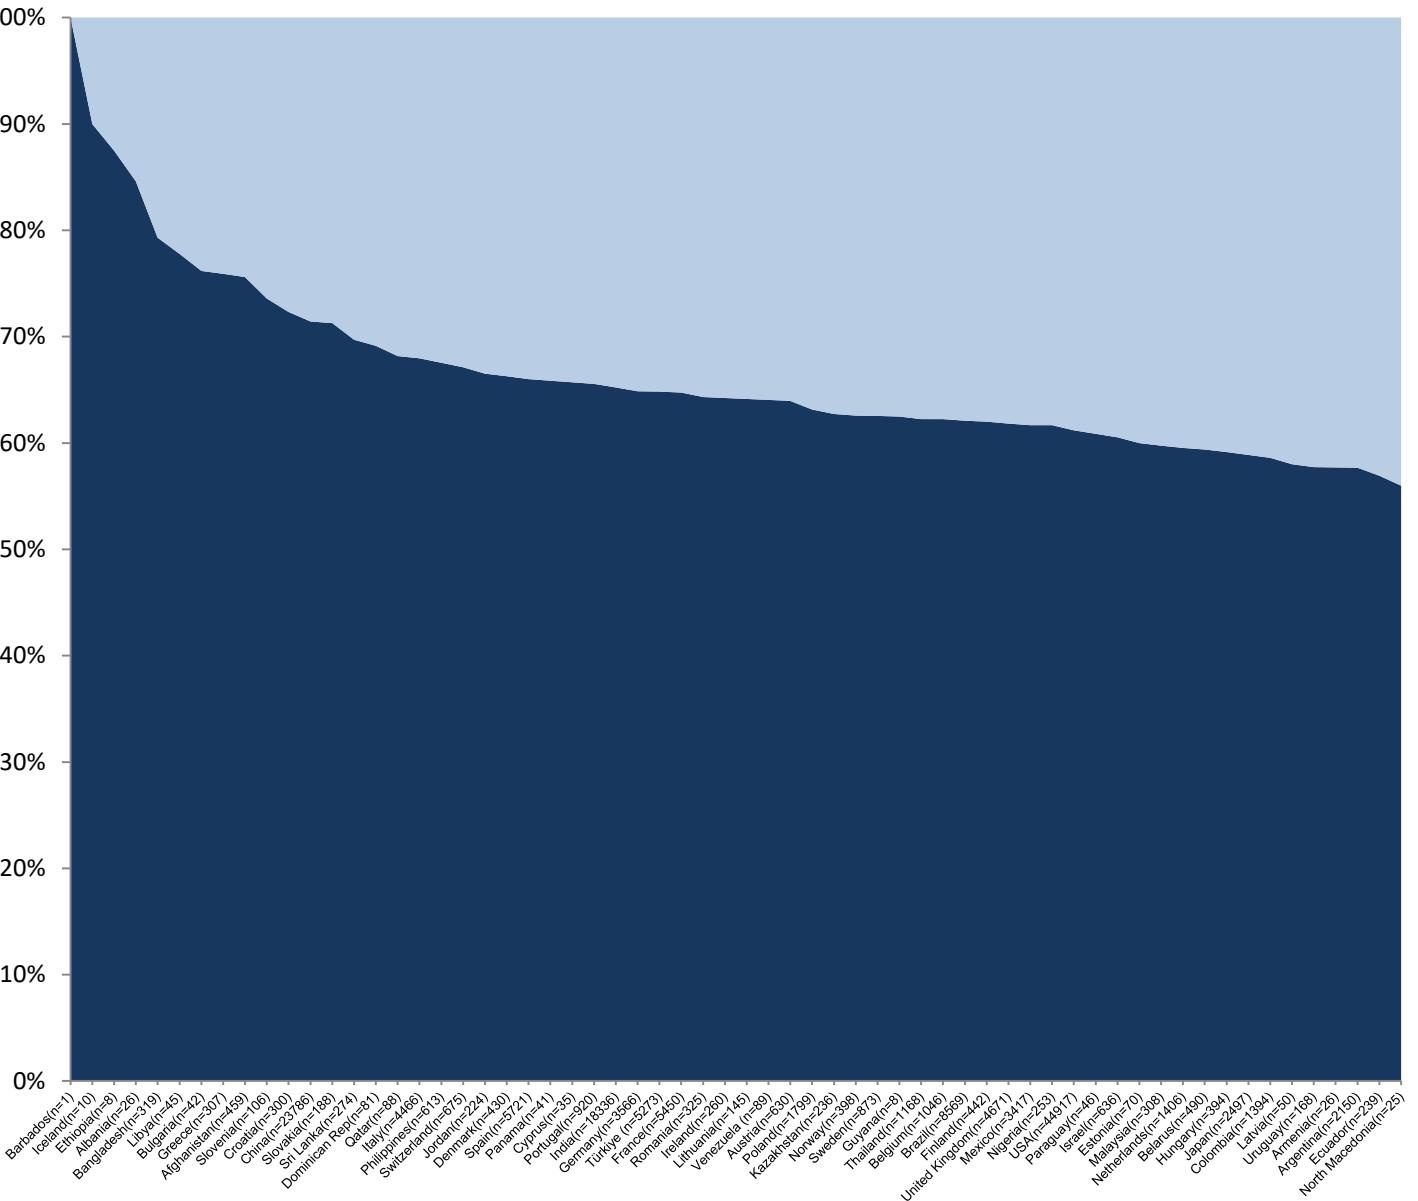

# Patients transplanted by sex (%) 2023

**97 938 (64%) male recipients  
54 636 (36%) female recipients**

**N= 76 countries provided information  
on the sex of recipients**

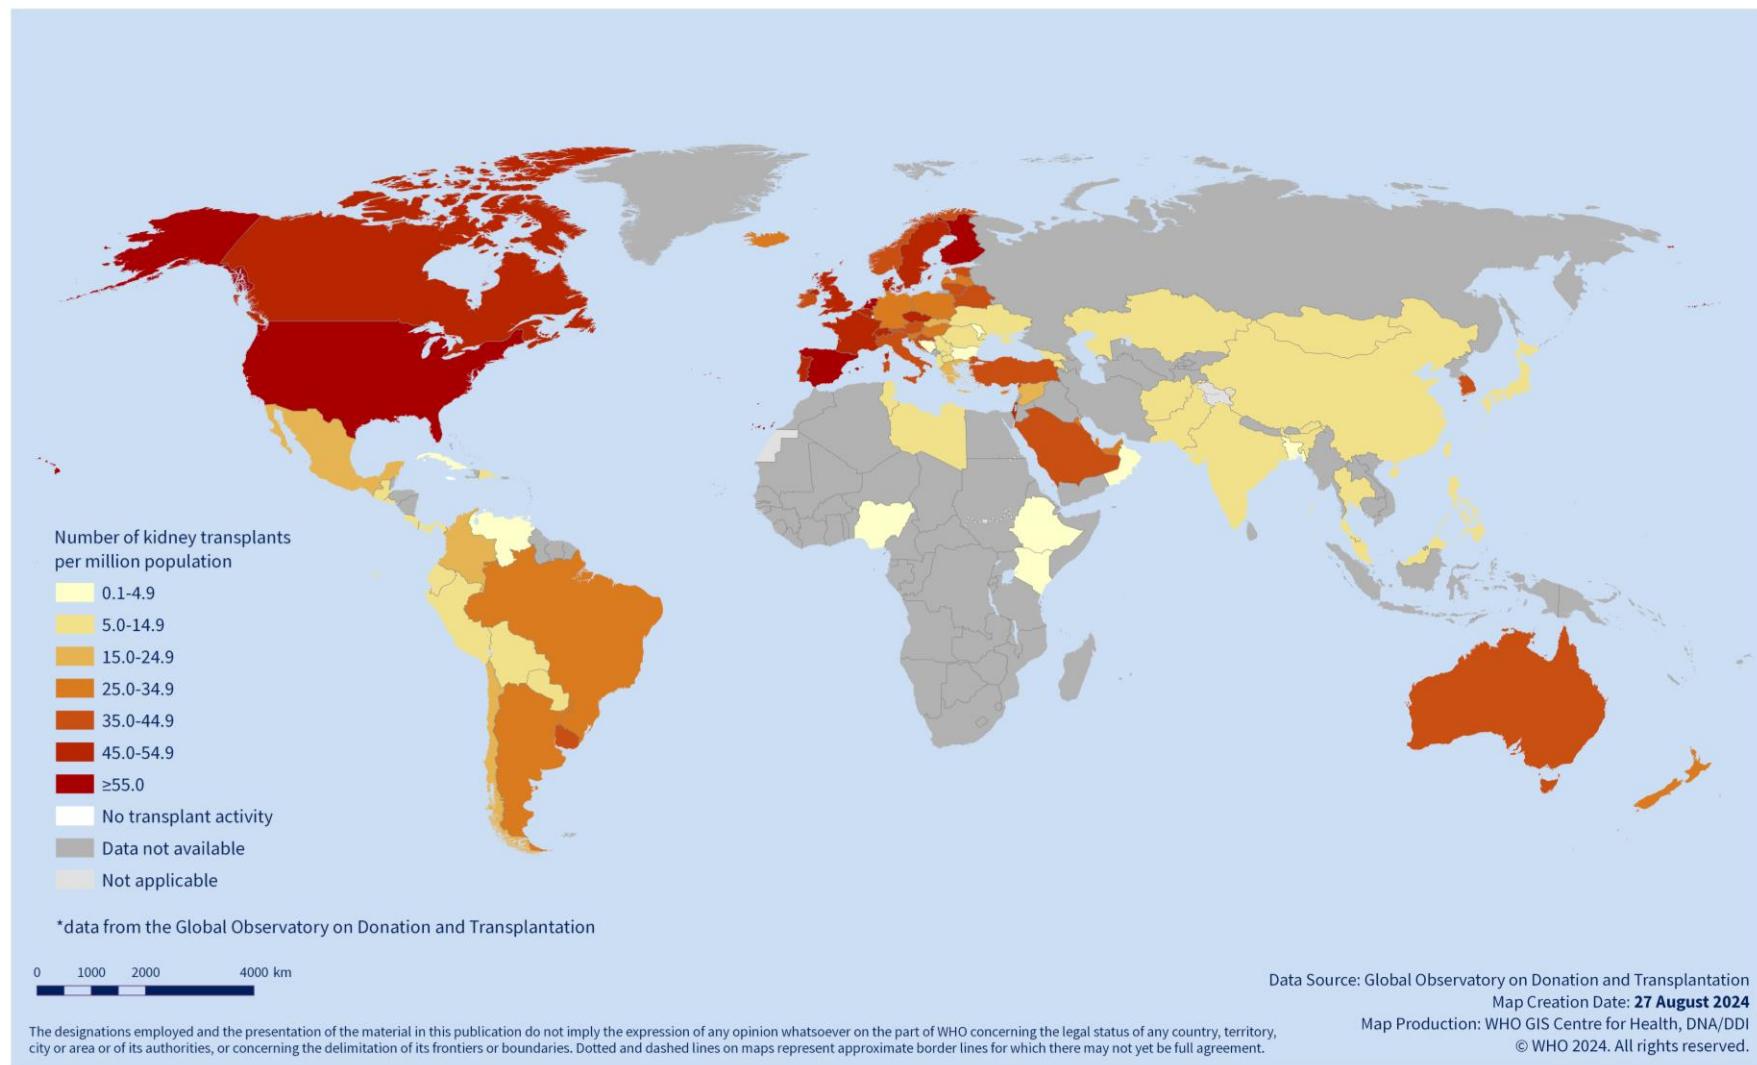

# Patients transplanted by sex (%) 2023

**97 938 (64%) male recipients  
54 636 (36%) female recipients**

**N= 76 countries provided information  
on the sex of recipients**

# Kidney transplantation activities, 2023\*

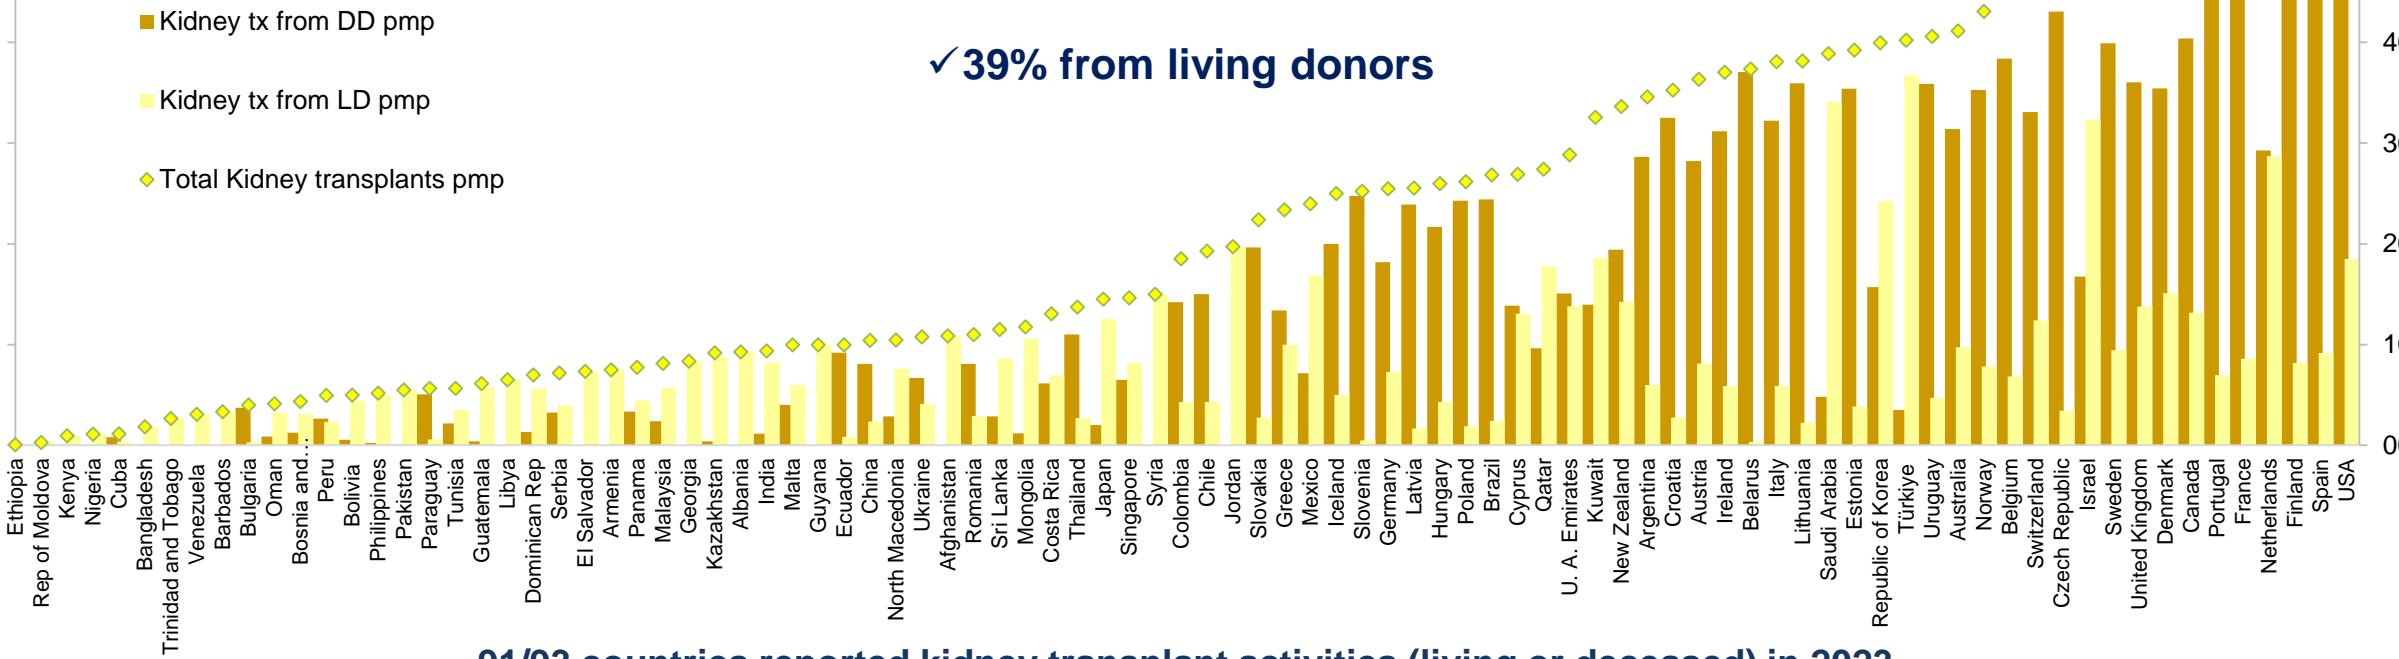

# Kidney transplants per million population (pmp). 2023

✓ 111 135 kidney transplants

✓ 9% increase vs 2022

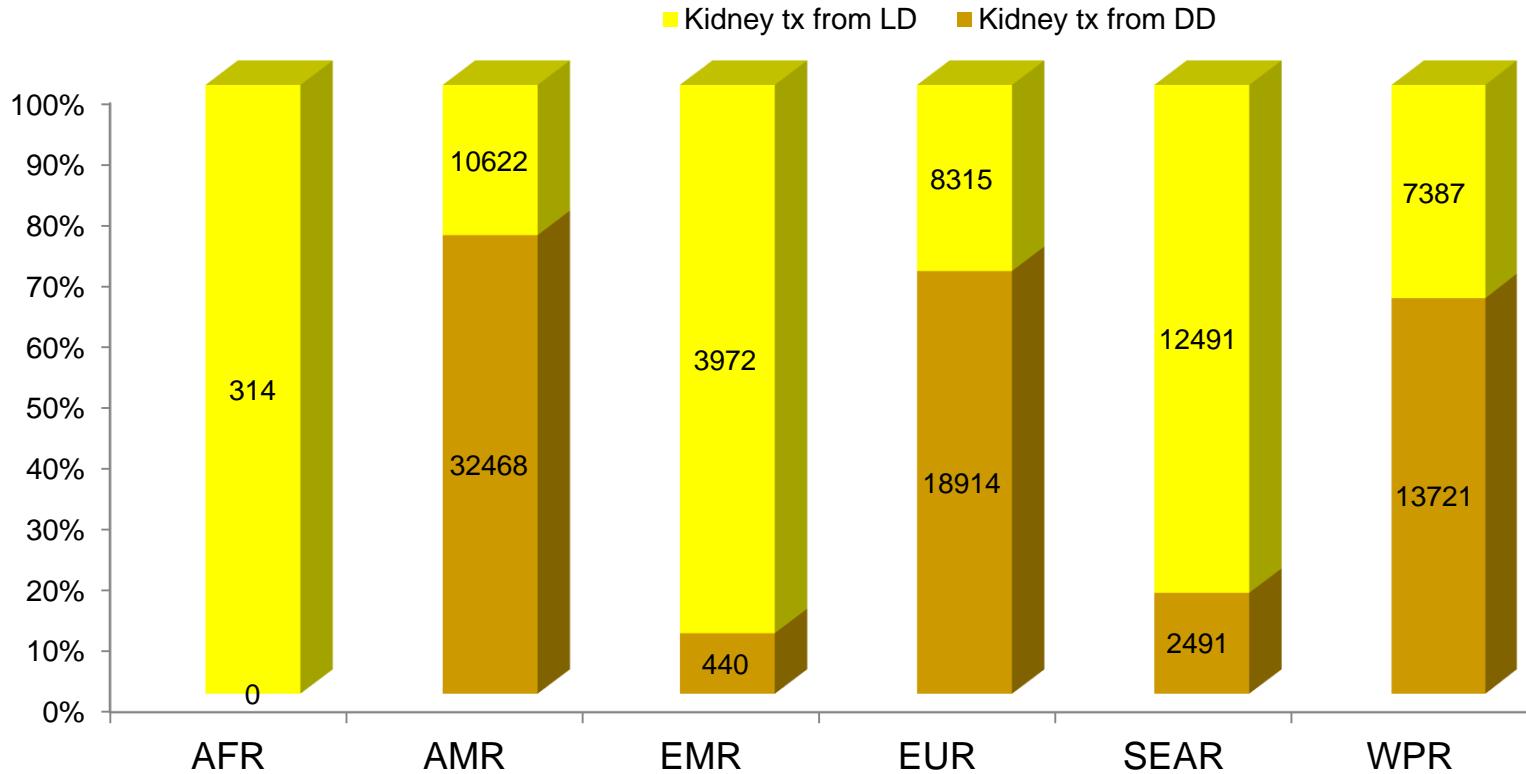

✓ 39% from living donors

91/93 countries reported kidney transplant activities (living or deceased) in 2023

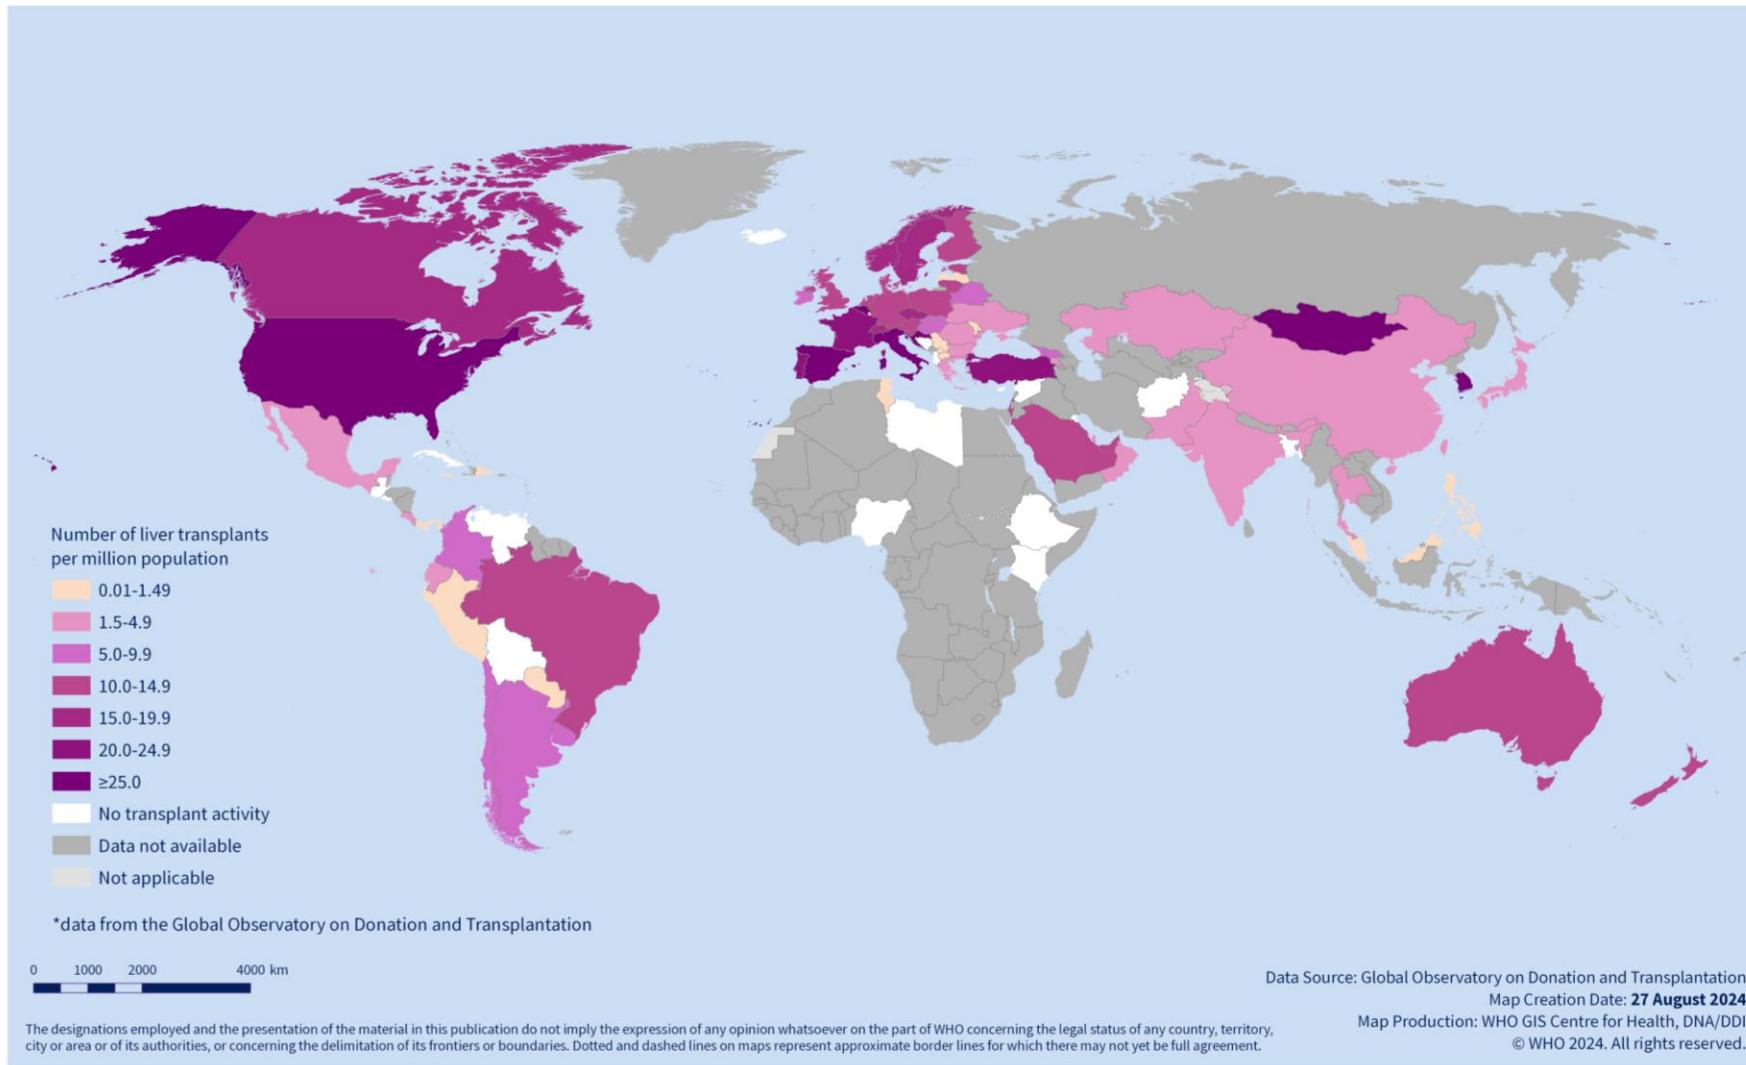

# Kidney transplants by WHO regions 2023

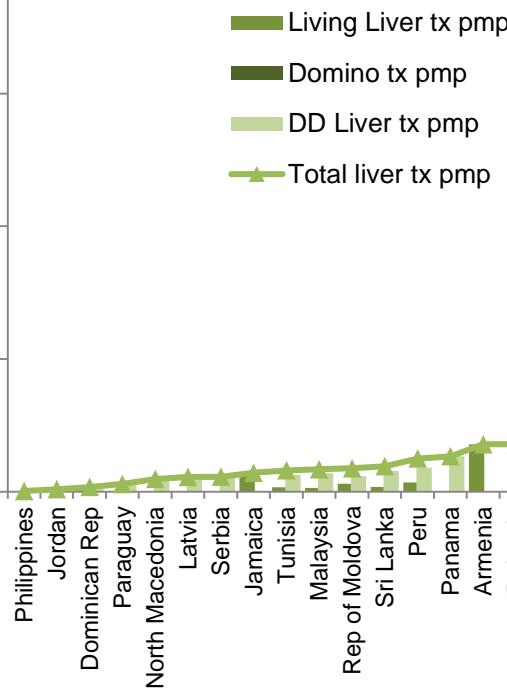

KIDNEY TX, absolute number (pmp)*	314 (0.8)	43 090 (42.8)	4 412 (11.2)	27 229 (38.0)	14 982 (8.8)	21 108 (11.7)
% from deceased donors	0	75	10	69	17	65
Countries with kidney tx activity/ countries reporting to the GODT (total countries in the region)	3/3 (46)	22/23 (35)	11/11 (22)	42/43 (53)	4/4 (11)	9/9 (27)
Kidney tx centres (millions inhabitants/centre)*	22 (18.4)	910 (1.1)	99 (4.0)	426 (1.7)	709 (2.4)	357 (5.0)

\*Rates (pmp) and Millions inhabitants per transplant centre are calculated by applying the population of the responding countries

# Liver transplantation activities, 2023\*

# Liver Transplants per million population (pmp). 2023

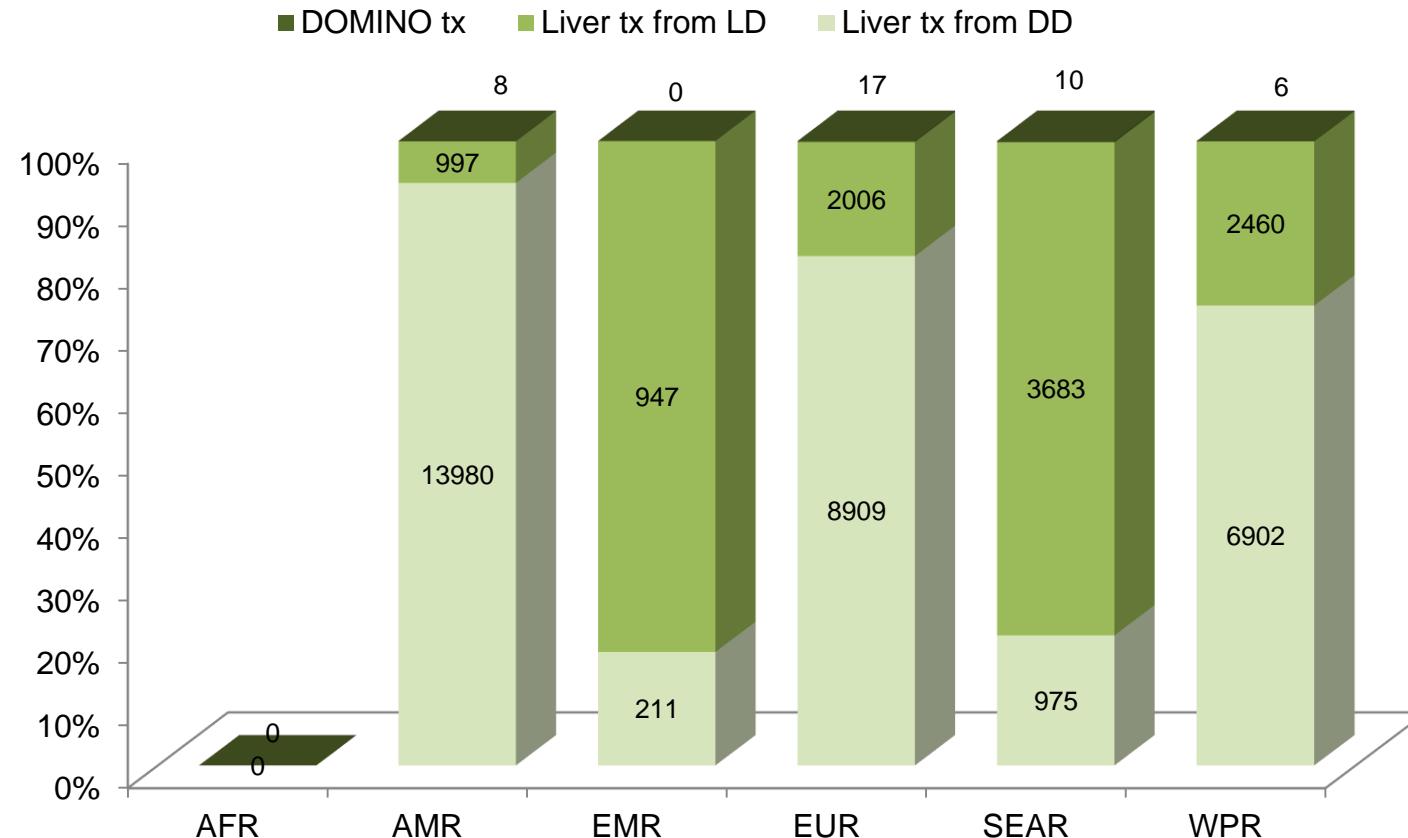

- ✓ 41 111 liver transplants
- ✓ 10 % increase vs 2022
- ✓ 25% from living donors
- ✓ 41 domino liver transplants

71/93 countries reported liver transplant activities (living or deceased) in 2023

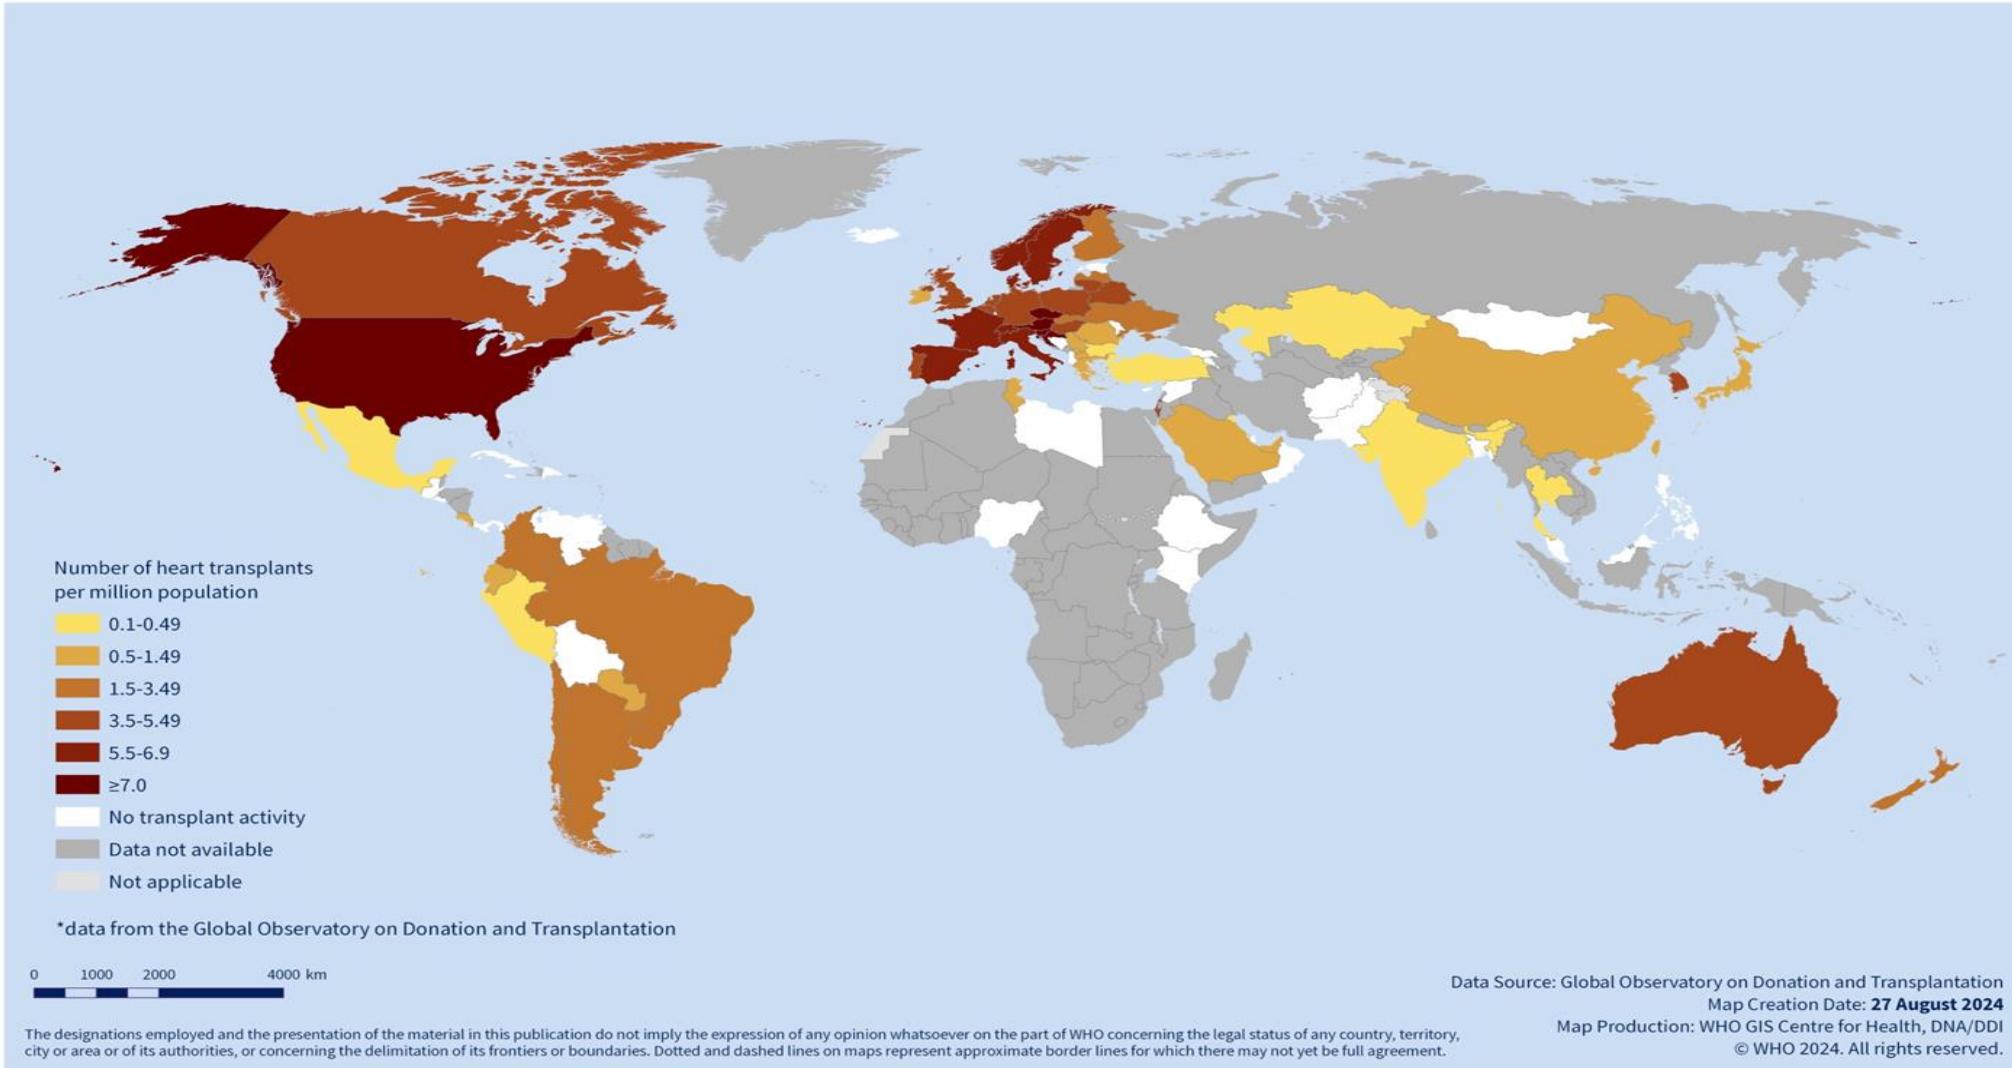

# Liver transplants by WHO Regions 2023

LIVER TX, absolute number (pmp)*	0 (0.0)	14 985 (14.9)	1 158 (2.9)	10932 (15.2)	4 668 (2.8)	9 368 (5.2)

## TRANSPLANTS PERFORMED ABROAD AND NON-RESIDENTS TRANSPLANTS

**At least 747 patients from 35 countries travelled for transplantation abroad in 2023**

Cases reported by the country of origin

49/93 countries were able to provide this information

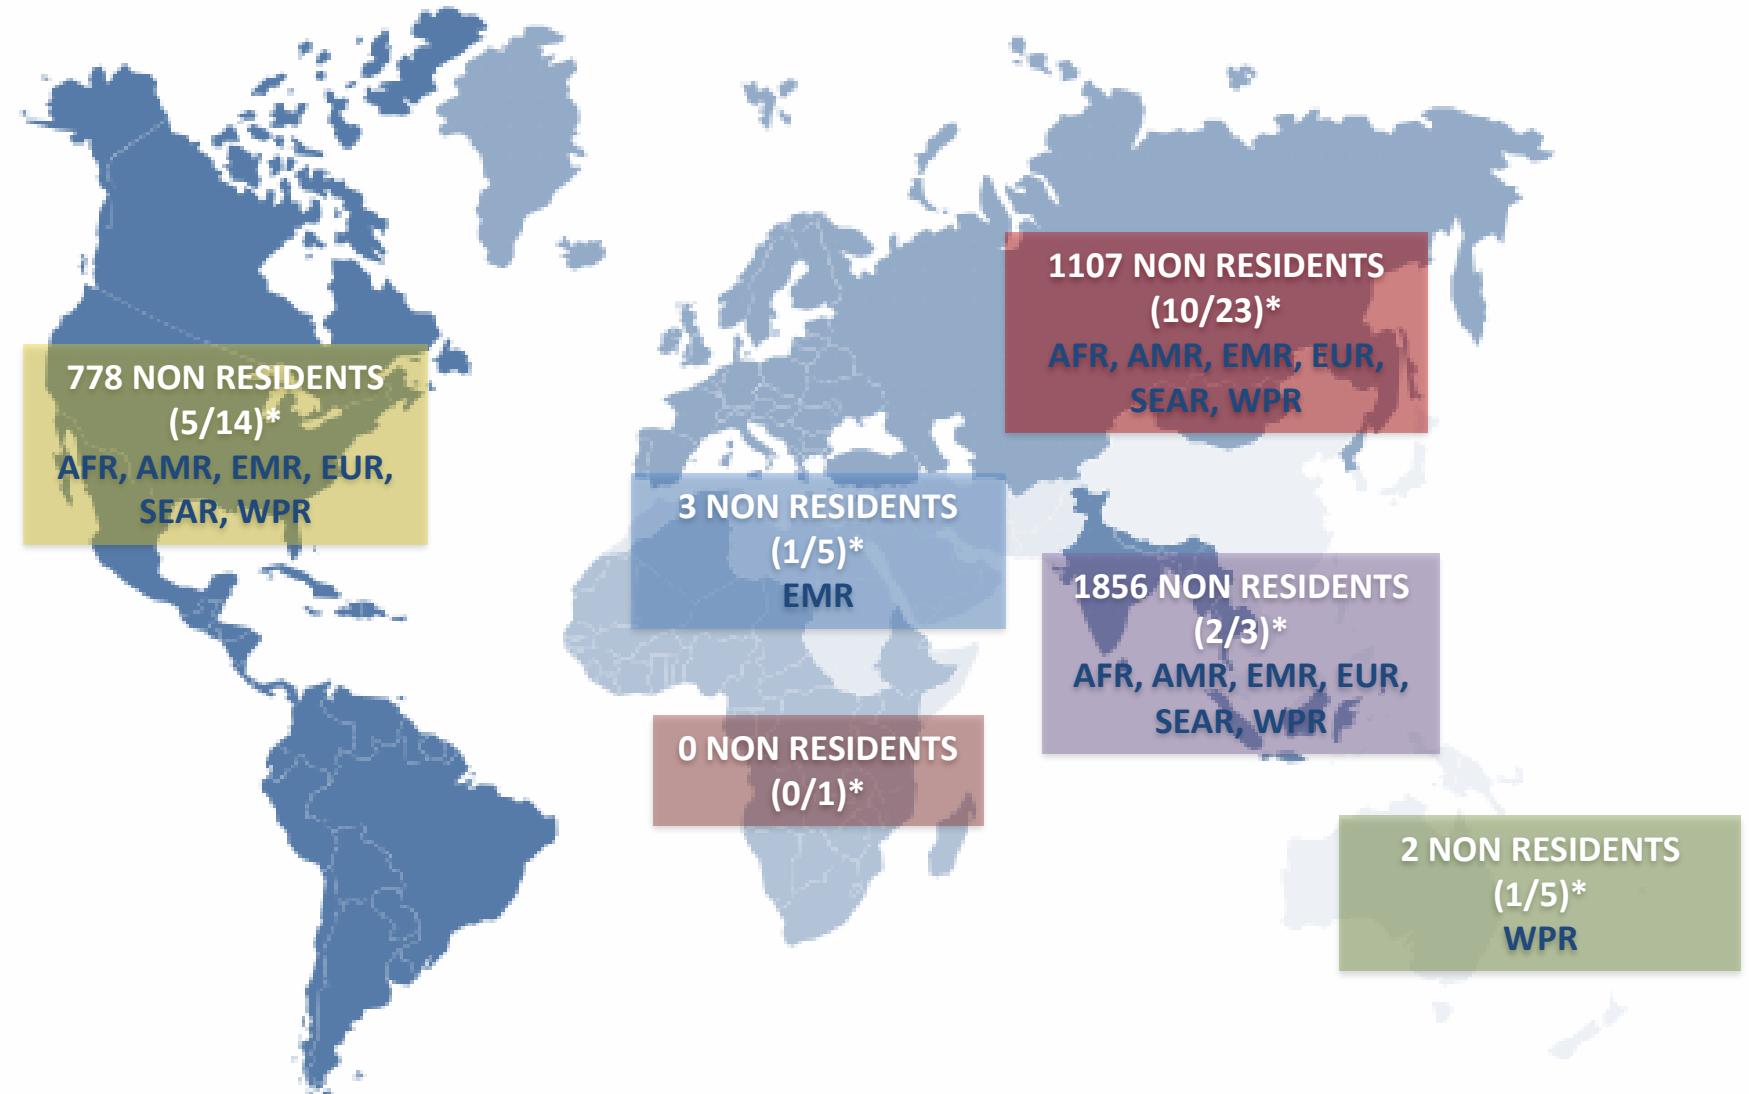

*Note: Not all countries were able to provide detailed information. Therefore figures may be underestimated.*

\* Countries that reported at least one patient who travelled abroad for transplantation/countries able to provide this information within the corresponding region

**More than 3 700 non-resident patients from 19 countries were reported to be transplanted from a living (n=2995) or a deceased (n=752) donor in 2023**

Cases reported by the country of destination

51/93 countries were able to provide this information

*Note: Not all countries were able to provide detailed information. Therefore figures may be underestimated.*

*\* Countries that reported at least one case of transplantation in non-residents/countries able to provide this information within the corresponding region*

## DISCLAIMER

The data and information presented here are published in order to promote transparency in transplantation activities.

Whenever possible this information has been confirmed by official national sources. However, in some instances, there are still provisional estimates. It is therefore anticipated that some data presented may be modified without prior notice.

As the facts displayed here are not definitive, they cannot be reproduced or quoted unless shown with the appropriate warning and the date.

For any references to this report, the following should be quoted: Organ Donation and Transplantation Activities 2023 Report. Global Observatory on Donation and Transplantation (GODT).

For citations of the 2023 GODT data please quote the following: Those 2023 data are based on the Global Observatory on Donation and Transplantation (GODT) data, produced by the WHO-ONT collaboration.

For any references in Charts and bar chart, please quote: \* Data of the WHO-ONT Global Observatory on Donation and Transplantation.

## **ACKNOWLEDGEMENTS**

**The GODT team is thankful to the identified focal points in Member States for their valuable participation in this international data sharing exercise, the Council of Europe for its support through the Newsletter Transplant, and the Spanish Government for its contribution to maintain the GODT.**
